Savoie,2023-05-15 Canada s political structure runs contrary to North America s economic geography and the north south economic pull Canada imported political and administrative institutions designed for a unitary state and its political leaders have struggled to make them work since the country was founded Because of this many Canadians their communities and their regions view themselves as victims to a greater degree than groups in other Western democracies do Our federal government has shown a greater willingness to apologize for historical wrongs than other Western countries Canada also outperforms other nations in helping victims make the transition to full participants in the country s political and economic life Donald Savoie maintains that Canada continues to thrive despite the many shortcomings in its national political institutions and the tendency of Canadians to see themselves as victims and that our history and these shortcomings have taught us the art of compromise Canada s constitution and its political institutions amplify rather than attenuate victimization however they have also enabled Canadians to manage the issue better than other countries Canadians also recognize that the alternative to Canada is worse and this more than anything else continues to strengthen national unity Drawing on his extensive experience in academe and as an advisor to governments Savoie provides new insights into how Canada works for Canadians *Substate Regionalism and the Federal System: A look to the North, Canadian regional experience* United States. Black,2015-03-31 Canada s engagement with post independence Africa presents a puzzle Although Canada is recognized for its activism where Africa is concerned critics have long noted the contradictions that

underlie Canadian involvement Focusing on the period following 2000 and by juxtaposing Jean Chrétien's G8 activism with the Harper government's retreat from continental engagement David R Black's *Canada and Africa in the New Millennium* illustrates a history of consistent inconsistency in Canada's relationship with Africa Black combines three interpretive frames to account for this record the tradition of good international citizenship Canada's role as a benign face of Western hegemonic interests in Africa and Africa's role as the basis for a longstanding narrative concerning Canada's ethical mission in the world To examine Africa's place in Canada's foreign policy and Canada's place in Africa Black focuses on G8 diplomacy foreign aid security assistance through peace operations and training and the increasingly controversial impact of Canadian extractive companies Offering an integrated account of Canada's role in sub-Saharan Africa Black provides a way of understanding the nature and resilience of recent shifts in Canadian policy He underscores how Africa though marginal to Canadian interests as traditionally conceived has served as an important marker of Canada's international role
