Finding Proof of Jesus James L. Kearns,2016-03-09 What if God spoke to you in an audible voice What if you saw an image of Jesus Christ on the Cross in a mirror and it delivered you from demonic oppression What if you had seen these great miracles Would your life still be the same What if you have absolute proof of the existence of God and you want to share that with the World This book is designed to help you witness to others about the existence of God and how they can be saved From the testimony of the author to the other seven great proofs for the existence of God you will find many scientific answers to prove the existence of God and how to use them to witness to those who just do not believe and even to the hardened atheist that will use straw men to trip you up in your witness This is a book every Christian and non believer alike should read and study **Finding Truth in Life and Love: One Man's Journey** George Kyriacou,2022-04-26 Finding Truth in Life and Love One Man s Journey Wow what a title but I hear you say the great thinkers of our time can explain Love Life and the Universe so why have you bothered writing a book Stephen Hawking says the universe can and will create itself from nothing Richard Dawkins explanation of life is We are survival machines robot vehicles blindly programmed to preserve the selfish molecules known as genes And as for love science has proven that love is just a bunch of chemical reactions So what can I offer on the subject at hand All these intelligent people indeed have more to say on the subject with all their knowledge gained through degrees and doctorates What can I add to the subject with my most prized qualification being my 100 yards swimming certificate from primary school Well indeed I do not have a lot of knowledge but I do consider that life has taught me to be wise You may ask what the difference is between knowledge and wisdom Well knowledge is knowing that a tomato is a fruit wisdom is not putting tomatoes in your fruit salad Reading some of the explanations by the world s greatest minds like Stephen Hawking when he says the universe will create itself from nothing I get the uneasy feeling that someone is

messing with the fruit salad This uneasiness and my stubborn enquiring nature have set me on a half century discovery for truth The earth is travelling at 67 000 miles per hour through space Is someone driving What about all the religions of the world Are some or all of them true What is the truth in any case Does the truth matter Why don t we abandon the truth and all invent our reality to suit our lives **The Search for Truth** Lawrence Konn,2013-07-29 Aliens to zombies amid a spirited romance populated the pages of The First Second Coming as it explored why people search the skies for messiahs and UFOs The Search for Truth takes on the science vs religion debate Marlene Martindale and Chris Larson are now married have an infant daughter live in a small town and are prospering from Chris expanding business that serves the neopagan community Marlenes desire for spirituality has taken her from being a secular humanist to a follower of modern witchcraft and her dream is to legitimize and popularize the faith by establishing a Wiccan religious center that can be a trip destination for worship instruction and even fun As if the fi nancial and human capital required to plan and build the religious center were not enough other life events insert themselves for better or worse such as The discovery that infant Olivia has inherited a blindness causing condition that may or may not be curable A lovably odd astrophysicist whose sister and Marlene were once dear friends tries to reunite the two women now that the sister seems to have beaten back a deadly cancer Marlene restarts her psychotherapy practice aided by a new computer tool to treat her UFO encounter clients Her first client however is someone shed rather forget Eye opening developments unfold for the kindly alien Guests And more From Darwins evolution to genetics to the search for the god particle to modern Wicca to the search for God in a less enigmatic universe come join in the search for truth *Logical Implications and Hidden Agendas* Randall Osborne,2021-07-02 The meaning of life what does that really mean It comes down to finding your life s purpose that defining moment when you understand that your life goals need to focus on things that are bigger than yourself Self love and self doubt can be equally destructive Purpose comes from finding that sweet spot where you can be confident and humble at the same time Then we can identify the things in life that give us fulfillmentto have the ability to see where we fit into the puzzle of life and do what we were meant to do This book is meant to be a map to guide us along the journey to that goal It can help you stay focused and avoid the distractions that lead to confusion and apathy Start at the beginning and fight the urge to jump ahead and skip crucial steps in the process It just requires commitment and objectivity Then what may now seem unattainable becomes very realistic *Tourism Support Services* Patrick Kalasa Kalifungwa,2025-06-02 Tourism can thrive anywhere in the World on Land on sea and in the Air Certain parameters have to exist to facilitate its establishment and growth We have tried to explore various aspects that require being in place to support tourism development and growth The development of technology and transport infrastructure such as jumbo jets low cost airlines and more accessible airports have made many types of tourism to be more affordable Airplanes facilitate tourism mobility and receipts The more planes you land at an airport the more visitors you receive The ultimate goal of tourism promotion and marketing is an increase in

visitors and investments The tourism Industry is unlike any other industries because Instead of a physical product you are selling a place and all the things it has to offer services You are competing with the entire world every time you promote tourism in a given destination and this high level of competition demands a creative and unique approach The variability among living organisms from all sources including inter alia terrestrial marine and other aquatic ecosystems and ecological complexes support tourism development Natural environment or wilderness wild animals rocks birds forest and in general those things that have not been substantially altered by human intervention support tourism activities Therefore support services have to complement the sustenance of tourism at various levels
