A New Deal for Native Art Jennifer McLerran, 2022-08-16 As the Great Depression touched every corner of America the New Deal promoted indigenous arts and crafts as a means of bootstrapping Native American peoples But New Deal administrators' romanticization of indigenous artists predisposed them to favor pre-industrial forms rather than art that responded to contemporary markets In *A New Deal for Native Art* Jennifer McLerran reveals how positioning the native artist as a pre-modern Other served the goals of New Deal programs and how this sometimes worked at cross purposes with promoting native self-sufficiency She describes federal policies of the 1930s and early 1940s that sought to generate an upscale market for Native American arts and crafts And by unraveling the complex ways in which commodification was negotiated and the roles that producers consumers and New Deal administrators played in that process she sheds new light on native art's commodity status and the artist's position as colonial subject In this first book to address the ways in which New Deal Indian policy specifically advanced commodification and colonization McLerran reviews its multi-pronged effort to improve the market for Indian art through the

Indian Arts and Crafts Board arts and crafts cooperatives murals museum exhibits and Civilian Conservation Corps projects Presenting nationwide case studies that demonstrate transcultural dynamics of production and reception she argues for viewing Indian art as a commodity as part of the national economy and as part of national political trends and reform efforts McLerran marks the contributions of key individuals from John Collier and Rene d Harnoncourt to Navajo artist Gerald Nailor whose mural in the Navajo Nation Council House conveyed distinctly different messages to outsiders and tribal members Featuring dozens of illustrations A New Deal for Native Art offers a new look at the complexities of folk art revivals as it opens a new window on the Indian New Deal

Chicano Folklore Rafaela Castro, 2001-11-15 Originally published under title *Dictionary of Chicano folklore* Santa Barbara Calif ABC CLIO c2000

Exhibiting Mestizaje Karen Mary Davalos, 2001 In this authoritative study Davalos challenges the sometimes hidden sometimes blatant assumptions that underlie the practice of creating museum exhibits and asks what happens when people of Mexican American descent put themselves in command of the collection display and interpretation of their cultural products Advancing a Chicana feminist interpretation Davalos carefully explores both the history of nineteenth and twentieth century museum practices and the more recent phenomenon of physically locating Mestizo Chicano art within insider spaces such as ethnically or racially specific cultural institutions and alternative galleries Just as public museums instruct visitors about who does and who does not belong to a nation's cultural legacy Davalos makes clear that exhibitions in so called minority museums are likewise shaped by notions of difference and nationalism and by the politics of identity and race Davalos pays particular attention to

museum and cultural centers in major Mexican diaspora communities including the Mexican Fine Arts Museum in Chicago and Galeria de la Raza in San Francisco Throughout she critically examines Chicano Mexican Mestizo and Mexican American subjectivities as they are expressed in curatorial decisions and practices in educational materials and catalog texts and in the performances and other public events that accompany museum exhibits That practice what Davalos calls exhibiting mestizaje produces complex representations of Mexican Americans Davalos s analysis shows clearly that the value of mestizaje and diaspora lies in their ability to create a cultural poetics from fluidity and conflict Davalos accomplishes the difficult task of discussing Chicano art as both aesthetic and political work She does not reduce artistic expression to political propaganda but neither does she examine aesthetic issues in isolation from the social processes that give them shape and meaning

these caricatures suggest about Latinos shifting place in the popular and political imaginary Noted scholar Arlene D vila illustrates the growing consensus among pundits advocates and scholars that Latinos are not a social liability that they are moving up and contributing and that in fact they are more American than the Americans But what is at stake in such a sanitized and marketable representation of Latinidad D vila follows the spin through the realm of politics think tanks Latino museums and urban planning to uncover whether they effectively challenge the growing fear over Latinos supposedly dreadful effect on the integrity of U S national identity What may be some of the intended or unintended consequences of these more marketable representations in regard to current debates over immigration With particular attention to what these representations reveal about the place and role of Latinos in the contemporary politics of race Latino Spin highlights the realities they skew and the polarization they effect between Latinos and other minorities and among Latinos themselves along the lines of citizenship and class Finally by considering Latinos in all their diversity including their increasing financial and geographic disparities D vila can present alternative and more empowering representations of Latinidad to help attain true political equity and intraracial coalitions
