Love in the Time of Self-Publishing Christine M. Larson, 2025-09-16 *Lessons in creative labor solidarity and inclusion under precarious economic conditions* As writers musicians online content creators and other independent workers fight for better labor terms romance authors offer a powerful example and a cautionary tale about self organization and mutual aid in the digital economy In *Love in the Time of Self Publishing* Christine Larson traces the forty year history of Romancelandia a sprawling network of romance authors readers editors and others who formed a unique community based on openness and collective support Empowered by solidarity American romance writers once disparaged literary outcasts became digital publishing's most innovative and successful authors Meanwhile a new surge of social media activism called attention to Romancelandia's historic exclusion of romance authors of color and LGBTQ writers forcing a long overdue cultural reckoning Drawing on the largest known survey of any literary genre as well as interviews and archival research Larson shows how romance writers became the only authors in America to make money from the rise of ebooks increasing their median income by 73 percent while other authors plunged by 40 percent The success of romance writers Larson argues demonstrates the power of alternative forms of organizing influenced by gendered working patterns It also shows how networks of relationships can amplify or mute certain voices Romancelandia's experience Larson says offers crucial lessons about

solidarity for creators and other isolated workers in an increasingly risky employment world Romancelandia's rise and near meltdown shows that gaining fair treatment from platforms depends on creator solidarity but creator solidarity in turn depends on fair treatment of all members

Feminist Criticism and Social Change (RLE Feminist Theory) Deborah Rosenfelt, Judith Newton, 2013-05-20 This lively and controversial collection of essays sets out to theorize and practice a materialist feminist criticism of literature and culture Such a criticism is based on the view that the material conditions in which men and women live are central to an understanding of culture and society It emphasises the relation of gender to other categories of analysis such as class and race and considers the connection between ideology and cultural practice and the ways in which all relations of power change with changing social and economic conditions By presenting a wide range of work by major feminist scholars this anthology in effect defines as well as illustrates the materialist feminist tendency in current literary criticism The essays in the first part of the book examine race ideology and the literary canon and explore the ways in which other critical discourse such as those of deconstruction and French feminism might be useful to a feminist and materialist criticism The second part of the book contains examples of such criticism in practice with studies of individual works writers and ideas An introduction by the editors situates the collected essays in relation both to one another and to a shared materialist feminist project *Feminist Criticism and Social Change* demonstrates the important contribution of materialist feminist criticism to our understanding of literature and society and fulfils a crucial need among those concerned with gender and its relation to criticism

Changing Places Beverly Sommers, 1985 *Changing Places* by Beverly Sommers released on Sep 24 1985 is available now for purchase

Feminisms Robyn R. Warhol, Diane Price Herndl, 1997 In the landmark 1991 edition of *Feminisms* Robyn Warhol and Diane Price Herndl assembled the most comprehensive collection of American and British feminist literary criticism ever to be published In this revised edition the editors have updated the volume in keeping with the expanded parameters of feminist literary discourse With the inclusion of more than two dozen new essays along with a major reorganization of the sections in which they appear Warhol and Price Herndl have again established the measure for representing the latest developments in the field of feminist literary theory

Believing that the feminist movement can only move forward where difference commands attention not dismissal or negativism they have continued the original collection's mission of providing a multiplicity of perspectives and approaches. This anthology contains three new sections: Conflict, Gaze, and Practice and includes more selections by and about women of color and lesbians. Aimed at academics and the general public alike, this collection is an indispensable guide to the range of practice on campus today in the field of feminist literary criticism.

Reading the Romance Janice A. Radway, 2009-11-18

Originally published in 1984, *Reading the Romance* challenges popular and often demeaning myths about why romantic fiction, one of publishing's most lucrative categories, captivates millions of women readers. Among those who have disparaged romance reading are feminists, literary critics, and theorists of mass culture. They claim that romances enforce the woman reader's dependence on men and acceptance of the repressive ideology purveyed by popular culture. Radway questions such claims, arguing that critical attention must shift from the text itself, taken in isolation, to the complex social event of reading. She examines that event from the complicated business of publishing and distribution to the individual reader's engagement with the text. Radway's provocative approach combines reader response criticism with anthropology and feminist psychology. Asking readers themselves to explore their reading motives, habits, and rewards, she conducted interviews in a midwestern town with forty-two romance readers whom she met through Dorothy Evans, a chain bookstore employee who has earned a reputation as an expert on romantic fiction. Evans defends her customers' choice of entertainment: reading romances, she tells Radway, is no more harmful than watching sports on television. "We read books so we won't cry" is the poignant explanation one woman offers for her reading habit. Indeed, Radway found that while the women she studied devote themselves to nurturing their families, these wives and mothers receive insufficient devotion or nurturance in return. In romances, the women find not only escape from the demanding and often tiresome routines of their lives but also a hero who supplies the tenderness and admiring attention that they have learned not to expect. The heroines admired by Radway's group defy the expected stereotypes: they are strong, independent, and intelligent. That such characters often find themselves to be victims of male aggression and almost always resign themselves to accepting conventional roles in life has less to do, Radway argues, with the women readers' fantasies and choices than with their need to deal with a fear of masculine dominance. These romance readers resent not only the limited choices in their own lives but the patronizing attitude that men especially express toward their reading tastes. In fact, women read romances both to protest and to escape temporarily the narrowly defined role prescribed for them by a patriarchal culture. Paradoxically, the books that they read make conventional roles for women seem desirable. It is this complex relationship between culture, text, and woman reader that Radway urges feminists to address. Romance readers, she argues, should be encouraged to deliver their protests in the arena of actual social relations rather than to act them out in the solitude of the imagination. In a new introduction, Janice Radway places the book within the context of current scholarship and offers both an explanation and critique of the study's limitations.
