Put Out Into The Deep Emilia Fransiska Dian Widhowati, PMY, God is Love To believe in this God of unconditional Love is a lived experience in each person and in each generation everywhere on the globe and all different cultures and historical periods In the beginning of the nineteenth century we notice in the south of the Netherlands a strong movement to renew and to actualise the Catholic faith in the concrete circumstances of poverty and political neglect In this way the Congregation of the Sisters of Charity Daughters of Mary and Joseph was founded on 7 July 1820 in s Hertogenbosch Similar to several other congregations in the same period St Vincent de Paul was their principal source of inspiration determined their charism and remained at the centre of their spirituality Religious life is essentially a lived experience of faith in which concrete persons touched by the incomprehensible Love of God dedicate their life in total surrender to this Love As a result they obey to the divine calling to be wholly transformed in love and to become docile instruments of God s overwhelming Charity towards all vulnerable persons young and old their brothers and sisters who are stripped of their human dignity humiliated and enslaved in many subtle ways In this Vincentian congregation this divine vocation of Charity was originally implemented as a specific service to the education of blind and deaf children but widened to the care of other forgotten groups like victims of trafficking in women and discrimination or subordination of women

Accidentally Overweight Dr. Libby Weaver, 2016-03-01 What leads the human body to get the message that it needs to store fat and what leads the human body to get the message that it needs to burn fat In a dynamic fresh approach to weight

loss acclaimed nutritional biochemist Dr Libby Weaver discusses the nine factors that cause us to either lose or gain weight. These factors include calories stress hormones sex hormones liver function thyroid function gut bacteria insulin alkalinity and emotions. Let's face it for many people it is not a lack of education that leads them to polish off a packet of chocolate biscuits after dinner but their biochemistry and emotions. *Accidentally Overweight* explores the role of these two factors in fat storage and optimal wellness. *Accidentally Overweight* was born out of the 14 years Dr Libby spent at university her strong scientific background in both nutrition and dietetics and her PhD in biochemistry. Libby has thousands of stories about how what she calls the calorie equation how much you eat versus how much you move is not the only determinant of our body shape and size. At the end of the day if it was truly as simple as the calorie equation everyone would be trim taut and terrific and there'd be no health consequences because of excess body weight. This is not just another diet book it is a life changing way of understanding your body and health.

Coming Back Home N. Thomas Johnson-Medland, 2018-03-06 If you have never been inside of a prison there are things you will not know about the community there. You may guess at them but that is not the same. What it feels like. What it sounds like. What goes on there these all define portions of what it is. These definitions or parameters of life inside come to you quite viscerally. You feel them in and through your skin before you actually give word or shape to understanding them. You sense before you think. The themes that come from a prison poet are varied. Most poems you would not have to know the poet was a prisoner to gain access to the import of the word pictures. Human experience while diverse shares some common archetypal qualities. But some will grow in meaning knowing where the poems were planted. I think themes about being captive are universal but when you know the poet is in a prison it can open you to listen differently. Is that a good thing I don't know. But it is true.
