Hammons, 2016-12-05 An important contribution to recent critical discussions about gender sexuality and material culture in Renaissance England this study analyzes female and male authored lyrics to illuminate how gender and sexuality inflected sixteenth and seventeenth century poets conceptualization of relations among people and things human and non human subjects and objects Pamela S Hammons examines lyrics from both manuscript and print collections including the verse of authors ranging from Robert Herrick John Donne and Ben Jonson to Margaret Cavendish Lucy Hutchinson and Aemilia Lanyer and situates them in relation to legal theories autobiographies biographies plays and epics Her approach fills a crucial gap in the conversation which has focused upon drama and male authored works by foregrounding the significance of the lyric and women s writing Hammons exposes the poetic strategies sixteenth and seventeenth century English women used to assert themselves as subjects of property and economic agents in relation to material items ranging from personal property to real estate despite the dominant patriarchal ideology insisting they were ideally temporary passive vehicles for men s wealth The study details how women imagined their multiple complex interactions with the material world the author shows that how a woman poet represents herself in relation to material objects is a flexible fiction she can mobilize for diverse purposes Because this book analyzes men s and women s poems together it isolates important gendered differences in how the poets envision human subjects use control possession and ownership of things and the influences effects and power of things over humans It also adds to the increasing evidence for the pervasiveness of patriarchal anxieties associated with female economic agency in a culture in which women were often treated as objects

Convicts and the Arts Professor Max Howell, Dr Lingyu Xie, 2013-11-01 There are a considerable number of books on the art of the convicts so Convicts Art has been covered reasonably well but art is only once facet of the arts that has been examined to any extent This book concerns itself with Convicts the Arts This book then endeavors to look

at the convicts contribution to the arts and demonstrates without doubt that the convicts made a significantly broader contribution to the culture of Australia than previously thought There is a common misconception that all convicts were immediately institutionalised in a cell and convict culture was solely a prison culture It needs reinforcing that when the First Fleet arrived there were no prisons in Australia no cells where they could put the convicts The early governors and principal authorities quite logically endeavoured to use whatever skills the convicts had So artists generally forgers were placed with those who were interested in recording a visual history of this new land Among the convicts were bricklayers house painters jewelers silversmiths goldsmiths and so on and some of them made significant contributions to the emerging society Some of these contributions will be developed herein This work endeavors to examine the convicts contribution to the arts in Australia in areas like the writing of novels poetry autobiographies sculpture theatre music architecture jewelry the press decorative arts and pottery

Conflicting Femininities in Medieval German Literature Karina Marie Ash,2016-05-23 Drastic changes in lay religiosity during the High Middle Ages spurred anxiety about women forsaking their secular roles as wives and mothers for religious ones as nuns and beguines This anxiety and the subsequent need to model an ideal of feminine behavior for the laity is particularly expressed in the German versions of Latin and French narratives Using thirteenth century penitentials monastic exempla and sermons Karina Marie Ash clarifies how secular wifhood was recast as a quasi religious role and in German epics and romances from the late twelfth and early thirteenth centuries how female characters are adapted to promote the salvific nature of worldly love in ways that echo the pastoral reevaluation of women at that time Then she argues that mid and late thirteenth century German literature not only reflects this impulse to idealize women s roles in lay society but also to promote an alternative model of femininity that deploys ways of privileging secular roles for women over religious ones These continuously evolving readaptations of female protagonists across cultures and across centuries reflect fictive solutions for real historical concerns about women that not only complement contemporary pastoral and legal reforms but are also unique to medieval German literature
