II The third section of the book is the most important We will look at what the New Testament teaches about who Jesus is and about God s plan of salvation for the world and then we will look to the people and events of the Old Testament for illuminating picture illustrations We will call this section of the book Photo Album III *Reflections of the Self* Sandeep Trichal,2018-11-16 It needs immense focus and determination to write a memoir not to mention the discipline and a routine However the most difficult part of writing a memoir is coming to terms with the self And discovering the self is such a complex process There are layers and layers of the self that have to be exposed and the end product is the nakedness that is described in the form of words in this memoir Sometimes it is easy to peel off these layers of prejudices and memories some biases and some emotions but the final outcome is not something that is the gospel truth It is so because there is nobody to question you on the sort of line of thinking and words that you choose to represent the body of a memoir in the sense that everything preordained by the way one s neural networks are wired That s why I titled this memoir as reflections of the self as the true nature of the self cannot possibly be determined merely by words and just by living one life It takes several iterations when one truly understands the real self and perhaps that is what liberation or Moksha is all about **Rooted in Love: Daily Meditations for Strength and Resilience** Vanessa S. Mystical Love in the German Baroque Theology Poetry Music identifies the cultural and devotional conventions underlying expressions of mystical love in poetry and music of the German baroque It sheds new light on the seemingly erotic overtones in settings of the Song of Songs and dialogues between Christ and the faithful soul in late 17th and early 18th century cantatas by Heinrich Sch tz Dieterich Buxtehude and Johann Sebastian Bach While these compositions have been interpreted solely as a secularizing tendency within devotional music of the baroque period Isabella van Elferen demonstrates that they need to be viewed instead as intensifications of the sacred Based on a wide selection of previously unedited or translated 17th and 18th century sources van Elferen describes the history and development of baroque poetic and musical love discourses from Sch tz s early works through Buxtehude s cantatas and Bach s cantatas and Passions This long and multilayered discursive history of these compositions considers the love poetry of Petrarch European reception of petrarchan imagery and traditions its effect on the madrigal in Germany and the role of Catholic medieval mystics in baroque Lutheranism Van Elferen shows that Bach s compositional technique based on the emotional characteristics of text and music rather than on the depiction of single words allows the musical expression of mystical love to correspond closely to contemporary literary and theological conceptions of this affect Alchemy of Love Michael Samways,2014-05-30
