Dainotto,2015-04-15 What is it about Tony Soprano that makes him so amiable For that matter how is it that many of us secretly want Scarface to succeed or see Michael Corleone as ultimately a hero What draws us into the otherwise horrifically violent world of the mafia In *The Mafia* Roberto M Dainotto explores the irresistible appeal of this particular brand of organized crime its history and the mythology we have developed around it Dainotto traces the development of the mafia from its rural beginnings in Western Sicily to its growth into a global crime organization alongside a parallel examination of its evolution in music print and on the big screen He probes the tension between the real mafia its violent often brutal reality and how we imagine it to be a mythical potpourri of codes of honor family values and chivalry But rather than dismiss our collective imagining of the mafia as a complete fiction Dainotto instead sets out to understand what needs and desires or material and psychic longing our fantasies about the mafia the best kind of the bad life are meant to satisfy Exploring the rich array of films books television programs music and even video games portraying and inspired by the mafia this book offers not only a social economic and political history of one of the most iconic

funds this trend occasions as social workers educated with public money abandon community service in increasing numbers

Teaching What Matters Steve A. Banno Jr., 2022-04-13 The desire to be happy and live a good life has been a constant throughout history. In these incredibly important adolescent years, creating opportunities and encouraging teenagers to open their hearts to the world, to others, and to themselves is the most worthy and important endeavor adults can provide to them. Teaching What Matters arrives at the right time. Rates of anxiety, depression, and chronic stress for teenagers and young adults are on the rise. Social-emotional learning, along with teaching to the whole child, has seen increased interest from parents, educators, principals, businesses, the general public, and even government agencies. Teaching What Matters is written by a life-long teacher for any practitioner interested in fostering social and emotional skills into an existing curriculum or classroom. This book distills Banno's transformative and widely popular high school course into a guidebook that empowers teenagers to explore the science of happiness and altruism. Teaching What Matters is infused with practical lessons, learning objectives, overarching reflection and discussion questions, summations of emerging research in positive psychology, and other academic disciplines, assessments, and teaching strategies. Teaching What Matters will provide the agency for teenagers to enhance happiness and kindness in their lives and in the lives of others.

Piorkowski,2007-10-10 Countless experts offer us advice on how to create the perfect relationship fostering the unrealistic expectation that forming an intimate bond will be a painless experience Unfortunately few experts are willing to confront the powerful challenges and emotions inherent within close relationships today In contrast to other intimacy books Too Close for Comfort vividly describes the surprising dangers damage to self esteem inadequacies and immaturities that characterize the contemporary state of romantic intimacy Too Close for Comfort compassionately explores the risks and misunderstandings that occur within many intimate relationships Romantic partners tend to hurt each other not only by insensitivity and neglect but also by criticism abuse and betrayal most of which spring from insecurity Dr Piorkowski a noted consulting psychologist and educator focuses on the vulnerability both partners experience in intimacy due to the emergence of strong unrealistic needs that are almost impossible to satisfy The author contends that people avoid the perils of intimacy by donning one or more defensive masks ranging from acting

superior to mysterious comical to withdrawn self sufficient to dependent in an effort to protect themselves from emotional exposure Presenting a fascinating range of clinical examples she sensitively depicts the fears of intimacy that limit contact namely psychological concerns about loss of control or autonomy feelings of disappointment and abandonment or of being attacked and made to feel guilty Depicting women s reliance on verbal expression to achieve an emotional connection versus men s dependence on physical contact Dr Piorkowski brilliantly elucidates the complex barriers to intimacy especially the chasms of misunderstanding created by vast sexual differences and attitudes While this book is unique in its exposition of the dangers in intimacy its message is not pessimistic
