lesser extent Africa These plays recreated the battles that consolidated Britain's hold on overseas territories dramatically depicted western humanitarian intervention in indigenous cultural practices celebrated images of imperial supremacy and occasionally criticized the sexual and material excesses that accompanied the processes of empire building An active participant in the real world drama of empire the Victorian theatre produced popular images that reflected interrogated and reinforced imperial policy Indeed it was largely through plays and spectacles that the British public vicariously encountered the sights and sounds of the distant imperial periphery Empire as it was seen on stage was empire as it was popularly known the repetitions of character types plot scenarios and thematic concerns helped forge an idea of empire that though largely imaginary entertained informed and molded the theatre going British public *Mortis Vampire Series: Bundle 2* J.C.
