Italian Americans Eric Martone, 2016-12-12 The entire Italian American experience from America's earliest days through the present is now available in a single volume. This wide-ranging work relates the entire saga of the Italian American experience from immigration through assimilation to achievement. The book highlights the enormous contributions that Italian Americans, the fourth largest European ethnic group in the United States, have made to the professions, politics, academy, arts, and popular culture of America. Going beyond familiar names and stories, it also captures the essence of everyday life for Italian Americans as they established communities and interacted with other ethnic groups. In this single volume, readers will be able to explore why Italians came to America, where they settled, and how their distinctive identity was formed. A diverse array of entries that highlight the breadth of this experience, as well as the multitude of ways in which Italian Americans have influenced U.S. history and culture, are presented in five thematic sections. Featured primary documents range from a 1493 letter from Christopher Columbus announcing his discovery to excerpts from President Barack Obama's 2011 speech to the National Italian American Foundation. Readers will come away from this book with a broader understanding of and greater appreciation for Italian Americans' contributions to the United States. **The Fifth Column Series: Books 1-4** Nathan M. Farrugia, 2017-04-18 The entire Fifth Column series of techno thrillers is now in one value-packed box: *The Chimera Vector*, *The Seraphim Sequence*, *The Phoenix Variant*, and the bonus short story *The Phoenix Ascent*. Damien and Jay don't exist. Officially. Unofficially, they're black operatives with an impossible mission. One of their agency's best operatives has gone rogue, and they're sent to stop her. But when Damien and Jay start to experience alternate memories and missing gaps in time, they realize there's more to this mission than they were supposed to know. And their hunt for the truth will take them to some dangerous places. If you love conspiracies and covert ops, this book is for you. What readers are saying: I COULDN'T PUT IT DOWN. Nathan Farrugia is in a class by himself. You can't help but enjoy this adventure. What an amazing series. Plenty of action, thrills, gut-wrenching pace, cool weapons, gadgets, and well-written story. Can I give this book 10 stars? It kept me on the edge of my seat from the first page to the last. The Fifth Column series is a tour de force. This amazing series deserves a 5-star review. Really humorous, lots of action, and the characters are so much fun. Loved it. Fast-paced, entertaining read. I picked up a copy of *The Chimera Vector* thinking it would be a standard adventure novel. I was wrong. From the sands of the Middle East to the streets of New York, Nathan Farrugia has taken the techno-action-spy novel pioneered by David Morrell and given it steroids. Farrugia weaves an amazing tale of power, deceit, and double crosses.

Espionage at its finest intrigue that will tighten your gut and light every nerve on fire The Chimera Vector goes far beyond science fiction and becomes a fast paced mystery thriller that defies early detection of where we are headed This is going down as one of the best series I ve read And that s saying something Filled with intense action with enough sci fi and thriller to make me grin like I found the girl of my dreams Loved it High paced action thriller it definitely is You think you know where it is going then the plot twists again It really kept me turning the pages to see what was going to happen next An excellent fast paced series that merges science science fiction and adventure in one well written read that will make it impossible to put down Oh Wow What a book I found The Chimera Vector to be well written thoroughly entertaining and at times unbearably suspenseful I was literally holding my breath All the action that I really enjoyed in the first one and hoped would continue the sequel blew that out of the ballpark Amazing book even better than the first if that s possible Love all the characters Be warned This series is totally addictive Don t start this unless you re ready for a wild action packed ride About the author Nathan M Farrugia is an Australian technothriller writer and author of the USA Today bestselling Helix and Fifth Column series Nathan is known for placing himself in dangerous situations including climbing rooftops in Russia and being hunted by special forces trackers in the United States He studies Systema a little known martial art and former secret of Russian special forces Beyond his army training Nathan has trained under USMC SEAL team Spetsnaz and Defence Intelligence instructors and the wilderness and tracking skills of the Chiricahua Apache scouts and Australian Aboriginals Nathan is currently in Malta co writing the sequel to the critically acclaimed video game Metro Exodus by 4A Games Also by Nathan M Farrugia Helix 1 Helix Helix 2 Exile Helix 3 Interceptor Helix 4 Anomaly Helix 5 Inversion Helix 6 Exclave Helix 7 Purity Helix 8 Kill Switch Helix 9 Countervail ZERO The Chimera Vector The Seraphim Sequence The Phoenix Variant The Phoenix Ascent Keywords technothriller techno thriller conspiracy conspiracies espionage pulp military thriller hard boiled hero intrigue complete series vigilante noir crime series starter action fast paced adventure assassin bargain cheap novella genetic genes super soldiers enhanced special forces operatives operator black ops black operation covert secret agent helix fifth column farrugia jason bourne bourne altered carbon matt reilly matthew reilly a g riddle winter world mark dawson greig beck splinter cell net force cyber storm matthew mather konkoly cyberpunk russian hackers systema jeremy robinson michael grumley russell blake ramez naam daniel suarez ludlum biopunk superhero hacking

Enlightenment and Political Fiction Cecilia Miller, 2016-03-22 The easy accessibility of political fiction in the long eighteenth century made it possible for any reader or listener to enter into the intellectual debates of the time as much of the core of modern political and economic theory was to be found first in the fiction not the theory of this age Amusingly many of these abstract ideas were presented for the first time in stories featuring less than gifted central characters The five particular works of fiction examined here which this book takes as embodying the core of the Enlightenment focus more on the individual than on social group Nevertheless in these same works of fiction this individual has responsibilities as well as rights and these

responsibilities and rights apply to every individual across the board regardless of social class financial status race age or gender Unlike studies of the Enlightenment which focus only on theory and nonfiction this study of fiction makes evident that there was a vibrant concern for the constructive as well as destructive aspects of emotion during the Enlightenment rather than an exclusive concern for rationality *Before the Dawn: A Story of the Fall of Richmond* Joseph Altsheler, 2019-05-08
