comprehensive Recommended **Writing the Urban Jungle** Joseph McLaughlin, 2000 Much has been written about the effects of British culture on colonized people but this study suggests that the influence worked both ways Focusing on the relationship between literature and metropolitan culture it discusses the cultural confusion caused by bringing the foreign home *Worlding the Western* Neil Campbell, 2022-09-13 *Worlding the Western* views the fiction of the Western United States as a focal point for a reexamination of the consequences of the exceptionalism and closed borders of the Trump Era At a time of bounded individualism new nativism climate emergency and migration crises author Neil Campbell argues that fiction offers opportunities to challenge the dark side of globalization He proposes worlding as a different and more open form of politics Diversity disparity and opposition are central to the dynamic frictional fiction considered in this book The American West provides a powerful test case in which these features are present and yet historically have often been masked or denied in the rush toward unanimity and nation building *Worlding* is therefore a positive critical concept through which to view the notion of a single world under pressure
