**The Big Heart** Mulk Raj Anand,2015-03-10 The Big Heart is a moving tale of conflict love and passion centred on a group of craftsmen trying to come to grips with automation that threatens their livelihood and traditional way of life Ananta a coppersmith returns to his home town of Amritsar after having worked in the more industrialised cities of Bombay and Ahmedabad Like most people of his craft he has difficulty making a living as the introduction of machines is throwing the craftsmen out of work The coppersmiths face both destitution and a break up of their whole society based on age old traditions and customs Yet Ananta can see both the utility and the inevitability of the machines and the need for the coppersmiths to band together so that power of the machine could offer a new life for those whom it threatens But unsettled tense and suspicious as the coppersmiths are a spark of demagoguery culminates in violence and wanton destruction which ends in sudden unexpected tragedy The Big Heart is a memorable work It is passionate earthy and urgent It s also timeless in that it is an evocative story of the churn and roil that change and modernity always create in their wake In Ananta Mulk Raj Anand gives us an unforgettable character He is virile and passionate brave strong and tender of large appetites yet caring and generous of spirit Though unlettered Ananta intuitively grasps that the conflict created by the coming of the machines can only be resolved by a spirit of understanding and accommodation on all sides Thus a big heart alone can help society meet the existential challenge that change throws up especially for those less prepared for it Equally Anand draws a vivid portrait of the Punjab and its people his language infused with the clamour sights and smells of the land
