The Business Guide to Free Information Technology Including Free/Libre Open Source Software Tim Jowers, 2006-10-01 The Guide summarizes computer software for over 30 business areas. The best software packages for each area are presented in plain English. This book answers the question of What is available. Anyone starting a business will quickly see how to capitalize on these in business. Anyone already in business learns what packages can be added to improve an existing business. Choose an area of interest such as accounting time tracking shared calendars payroll HR POS cash registers online storefront ERP project management messaging groupware email servers document management workflow remote desktops remote file access VPN customer management sales CRM audio visual attorneys physicians spreadsheets word processors computer telephones contact managers presentations spam control web servers database systems web sites blogs forums and others. The reader gains immediate knowledge of what software can be used in business.

Software Development, 2005

Training College Students in Information Literacy, 2006 The report profiles the information literacy efforts of a broad range of North American colleges including Syracuse University the University of North Carolina at Chapel Hill the University of Windsor Ulster County Community College the University of North Texas the University of California Berkeley the University of Southern California at Los Angeles the University of North Carolina Wilmington Southeastern Oklahoma University Central Connecticut State University and Seattle Pacific University. Participants discuss how they promote information literacy at their institutions how they win support of key faculty and administrators and how they develop courses guidelines tutorials and standards. Other major issues include student assessment instructor training integration of info literacy into other curriculums grants and institutional financial support the impact of new educational technologies and the role of learning and computer centers in supporting the info literacy effort among other issues. Indiana University library

officials discuss info literacy efforts for specialized populations such as athletes while librarians at the University of California Berkeley explain their grant funded information literacy outreach program that reaches all corners of the University University of North Texas librarians relate how they are developing special classrooms to ready themselves for the likely move towards more formal information literacy classes while faculty at Ulster County Community College explain how the college developed a required information literacy course that is delivered through traditional means and through the college s distance learning program Instructional library faculty at North Carolina State Wilmington explain the political process of getting a required information literacy course approved at their university while Seattle Pacific University librarians discuss the challenges of student assessment As North American colleges move towards mandated information literacy courses this study can help information literacy coordinators to reduce the time and effort involved in developing courses and tutorials and assist them in dealing with in house politics and in finding useful institutional models and best practices

Evaluating Training Programs Donald Kirkpatrick, James Kirkpatrick, 2006-01-01 An updated edition of the bestselling classic Donald Kirkpatrick is a true legend in the training field he is a past president of ASTD a member of Training magazine s HRD Hall of Fame and the recipient of the 2003 Lifetime Achievement Award in Workplace Learning and Performance from ASTD In 1959 Donald Kirkpatrick developed a four level model for evaluating training programs Since then the Kirkpatrick Model has become the most widely used approach to training evaluation in the corporate government and academic worlds Evaluating Training Programs provided the first comprehensive guide to Kirkpatrick s Four Level Model along with detailed case studies of how the model is being used successfully in a wide range of programs and institutions This new edition includes revisions and updates of the existing material plus new case studies that show the four level model in action Going beyond just using simple reaction questionnaires to rate training programs Kirkpatrick s model focuses on four areas for a more comprehensive approach to evaluation Evaluating Reaction Evaluating Learning Evaluating Behavior and Evaluating Results Evaluating Training Programs is a how to book designed for practitioners in the training field who plan implement and evaluate training programs The author supplements principles and guidelines with numerous sample survey forms for each step of the process For those who have planned and conducted many programs as well as those who are new to the training and development field this book is a handy reference guide that provides a practical and proven model for increasing training effectiveness through evaluation In the third edition of this classic bestseller Kirkpatrick offers new forms and procedures for evaluating at all levels and several additional chapters about using balanced scorecards and Managing Change Effectively He also includes twelve new case studies from organizations that have been evaluated using one or more of the four levels Caterpillar Defense Acquisition University Microsoft IBM Toyota Nextel The Regence Group Denison University and Pollack Learning Alliance
