Wood,2002 Every stage in the design of a new web site is an opportunity to meet or miss deadlines and budgetary goals Every stage is an opportunity to boost or undercut the site s usability This book tells you how to design usable web sites in a systematic process applicable to almost any business need You get practical advice on

managing the project and incorporating usability principles from the project's inception. This systematic usability process for web design has been developed by the authors and proven again and again in their own successful businesses. A beacon in a sea of web design titles, this book treats web site usability as a preeminent practical and realizable business goal, not a buzzword or abstraction. The book is written for web designers and web project managers seeking a balance between usability goals and business concerns. Examines the entire spectrum of usability issues including architecture, navigation, graphical presentation, and page structure. Explains clearly the steps relevant to incorporating usability into every stage of the web development process from requirements to tasks analysis, prototyping and mockups to user testing, revision, and even postlaunch evaluations. Encyclopedia of Distributed Learning Anna DiStefano, Kjell Erik Rudestam, Robert Silverman, 2003-11-06. This volume will appeal to a wide array of readers from novices to those already working in the field. Recommended for all collections. CHOICE Reference literature has been hard put to keep pace with its distance learning changes, so the appearance of an Encyclopedia is most welcome. Recommended for academic and public libraries. LIBRARY JOURNAL. In today's fast-paced world with multiple demands on time and resources, as well as pressures for career advancement and productivity, self-directed learning is an increasingly popular and practical alternative in continuing education. The Encyclopedia of Distributed Learning defines and applies the best practices of contemporary continuing education designed for adults in corporate settings, Open University settings, graduate coursework, and in similar learning environments. Written for a wide audience in the distance and continuing education field, the Encyclopedia is a valuable resource for deans and administrators at universities and colleges, reference librarians in academic and public institutions, HR officials involved with continuing education training programs in corporate settings, and those involved in the academic disciplines of Education, Psychology, Information Technology, and Library Science. Sponsored by The Fielding Graduate Institute, this extensive reference work is edited by long-time institute members bringing with them the philosophy and authoritative background of this premier institution. The Fielding Graduate Institute is well known for offering mid-career professionals opportunities for self-directed, mentored study with the flexibility of time and location that enables students to maintain commitments to family, work, and community. The Encyclopedia of Distributed Learning includes over 275 entries, each written by a specialist in that area, giving the reader comprehensive coverage of all aspects of distributed learning, including use of group processes, self-assessment, the life-line experience, and developing a learning contract. Topics Covered: Administrative Processes, Policy, Finance and Governance, Social and Cultural Perspectives, Student and Faculty Issues, Teaching and Learning Processes and Technologies, Technical Tools and Supports. Key Features: A to Z organization plus Reader's Guide, groups of entries by broad topic areas. Over 275 entries, each written by a specialist in that
