*Radical* Cindi Strauss, 2020-02-25 This essential survey of Italian Radical design a movement that interrogated

modern living against the turbulent political climate of the 1960s is lavishly illustrated with new photography including rarely seen prototypes and limited production pieces      Television Policies of the Labour Party 1951-2001 Des Freedman,2004-08-02 Des Freedman explores Labour's divided response to the development of commercial television in the 1950s and assesses the impact of Wilson's governments on television in the 1960s His key argument is that Labour has always been a vigorous but ultimately unreliable advocate of television      *EAGE, 1951-2001* European Association of Geoscientists and Engineers,2001      **Becoming couture** Chiara Faggella,2024-12-03 Becoming couture is the first book to examine the history of the Italian fashion industry during the global transition brought about by the Second World War It draws on a wide range of primary sources some of them newly unearthed to demonstrate that the Italian fashion industry in the Republican era continued to rely on business practices and professionals established during Fascism Analysing changes in promotional discourses and press coverage the book traces the shift that occurred when manufacturers were encouraged to expand their exports of accessories to include sportswear knitwear and moda boutique This ultimately led to the legitimisation of Italian dressmaking as creatively independent of French influences and therefore worthy of the label couture      **The International Organization for Migration, 1951-2001** Marianne Ducasse-Rogier,International Organization for Migration,2001 The International Organization for Migration IOM is a global intergovernmental agency which aims to promote balanced migration carried out with respect for human rights and the rule of law This book charts the history of the organisation over the last fifty years and provides a broad overview of the IOM's origins development and programmes It considers how the changes in migratory patterns have challenged governments and societies particularly in recent years It discusses the themes and elements that have remained constant and which in many cases are receiving renewed attention These include migration as an engine for social and economic development and the importance of research and communication to the effective management of migration      **Who's who in Italy** ,2007      **Il Modo Italiano** Montreal Museum of Fine Arts,2006 Italian design marked a highly distinctive mark on the way that the form of objects is perceived in contemporary society Italian design has spanned the whole of the twentieth century leaving a highly distinctive mark on the way that the form of objects of everyday use is perceived in industrial and contemporary society This Italian way has succeeded through a complex and hesitant process of industrial innovation and technological updating in developing an independent and multifaceted culture of design capable of marrying the country's rich craft tradition with an often fiercely resisted aspiration to modernity made up of flashes of improvisation and irony and associated with an arduous bent for experimentation In this sense the history of Italian design has not yet been subjected to an exhaustive interpretation of the cultural and artistic dimensions of the phenomenon and in particular little has been said so far about the synergy between artistic experimentation and innovative design that has characterized it throughout the twentieth century The exhibition and this catalogue set out to offer a first overview of these links through an exploration of the different ways of seeing

interpreting and representing industrial society in Italy on the part of the architects artists and designers who lived through its emergence and who to some extent invented it The exhibition with around 400 works chosen from among the most representative of artistic research and the culture of design in Italy in the twentieth century is arranged chronologically with four sections that define the different periods in the philosophical economic and aesthetic discourse that has accompanied the recent history of art and design in Italy The survey brings to light the philosophies of design and the aesthetics that found a strong and dialectical expression right through the last century in Italy and that are at the root of the country's characteristic and lively cultural debate between art and design This catalogue is published in conjunction with *Il modo italiano Italian Design and Avant garde in the 20th Century* an exhibition produced by the Montreal Museum of Fine Arts in collaboration with the Royal Ontario Museum Toronto and the Mart Museo di Arte Moderna e Contemporanea di Trento e Rovereto

**Un oceano di stile** AA. VV., 2023-10-13T00:00:00+02:00 Il volume propone originali contributi interdisciplinari sull'influenza della cultura italiana moderna e dei prodotti italiani nella cultura del consumo nel gusto e negli stili di vita degli Stati Uniti del secondo dopoguerra I diversi capitoli esaminano quali oggetti di moda architettura editoria design musica cibo di altri linguaggi e settori produttivi italiani siano stati introdotti e quali dinamiche pratiche e strategie di significazione abbiano governato la loro commercializzazione e circolazione negli Stati Uniti degli anni Cinquanta e Sessanta Il volume identifica gli stili di modernità associati a manufatti culturali e icone individuali italiane come stelle dello spettacolo artisti designer e autori e i discorsi intertestuali attorno all'Italia agli italiani e alla qualità dei prodotti italiani diffusi oltreoceano

Musica Britannica 1951-2001 Stainer & Bell, 2001      Una rotta transatlantica Federico Deambrosis, 2022-11-01 Andare alla ricerca dell'architettura italiana nell'Argentina dei lunghi anni Cinquanta implica un difficile esercizio di distinzione Le difficoltà non si devono soltanto ai molti tratti comuni tra fondo e figura ma soprattutto a una identità della cultura progettuale italiana che appare plurale non univoca talvolta sfumata o persino contraddittoria Il saggio propone un metodo aperto e implementabile di avvicinamento a questo tema caleidoscopico di cui vengono isolate alcune facce esemplari osservate da prospettive diverse e talvolta complementari Ne risulta in filigrana una riflessione sulla relatività e l'ambiguità delle categorie nazionali se applicate alle culture del progetto del secondo Novecento
