

A detailed illustration of a woodworker's bench. The bench is covered with various tools including chisels, planes, and a hand saw. There are several wood shavings scattered around, indicating recent work. A large, polished wooden block is in the foreground. The background shows more tools and a wooden surface. The overall scene is a rich, warm brown color palette.

How to Sharpen Carving Tools Richard Bütz,Rick Butz,Ellen Butz,1997 Two tomes for almost every woodworking collection take solid approaches to their subjects By executing the 15 projects the Bridgewaters propose you can create instant antiques that some finishing expertise could make indistinguishable from real antiques Most of the 15 require very few materials and could be done by the average weekend warrior in an afternoon A couple however do require patience and skill and ought to be thoroughly checked out to avoid getting in over one s head The book s discrete section of color photographs is welcome although a single photo of each finished project in the chapter about it would have been more convenient The Butzes book might appeal more broadly if it covered sharpening saw blades and bits But experienced woodworkers know that sharp tools are better and safer and the techniques of sharpening the tools associated with woodcarving and lathe work are essential so there is the audience carvers and wood turners who want to know well how to sharpen their chisels and gouges The many photographs of sharpening processes further help prevent average woodworkers from ruining their tools edges something worth several times the cost of the book Jon Kartman 96p
