Madoc The Making Of A Myth:

Madoc Gwyn A. Williams, 1979 **Madoc : the Making of a Myth** O. A. A. Fadipe-Ogundugba, 1979 **American Vikings** Martyn Whittock, 2023-11-07 A vivid and illuminating new history separate fact from fiction myth from legend exploring the early Vikings settlements in North America Vikings are an enduring subject of fascination The combination of adventure mythology violence and exploration continues to grip our attention As a result for more than a millennium the Vikings have traveled far and wide not least across the turbulent seas of our minds and imaginations The geographical reach of the Norse was extraordinary For centuries medieval sagas first recorded in Iceland claimed that Vikings reached North America around the year 1000 This book explores that claim separating fact from fiction and myth from mischief to assess the enduring legacy of this claim in America The search for American Vikings connects a vast range of different areas from the latest archaeological evidence for their actual settlement in North America to the myth making of nineteenth century Scandinavian pioneers in the Midwest and from ancient adventurers to the political ideologies in the twenty first century It is a journey from the high seas of a millennium ago to the swirling waters and dark undercurrents of the online world of today No doubt the warlike Vikings would have understood how their image could be weaponized In the same way they would probably have grasped how their dramatic violent passionate and discordant mythologies could appeal to our era and cultural setting They might though have been more surprised at how their image has been commercialized and commodified A vivid new history by a master of the form *American Vikings* explores how the Norse first sailed into the lands and then into the imaginations of America *Literature and Authenticity, 1780-1900* Michael Davies, 2016-05-06 Individually and collectively these essays establish a new direction for scholarship that examines the crucial activities of reading and writing about literature and how they relate to authenticity Though authenticity is a term deep in literary resonance and rich in philosophical complexity its connotations relative to the study of literature have rarely been explored or exploited through detailed critical examination of individual writers and their works Here the notion of the authentic is recognised first and foremost as central to a range of literary and philosophical ways of thinking particularly for nineteenth century poets and novelists Distinct from studies of literary fakes and forgeries this collection focuses on authenticity as a central paradigm for approaching literature and its formation that bears on issues of authority self reliance truth originality the valid and the real and the genuine and inauthentic whether applied to the self or others Topics and authors include the spiritual autobiographies of William Cowper and John Newton Ruskin and travel writing British Romantic women poets William Wordsworth and P B Shelley Robert Southey and Anna Seward John Keats Lord Byron Elizabeth Gaskell Henry David Thoreau Henry Irving and Joseph Conrad The volume also includes a note on Professor Vincent Newey with a bibliography of his critical writings **The Naval History of Wales** J.D. Davies, 2013-07-01 Based on extensive research The Naval History of Wales tells a compelling story that spans nearly 2 000 years from the Romans to the present Many Welsh men and women

have served in the Royal Navy and the navies of other countries Welshmen played major parts in voyages of exploration in the navy's suppression of the slave trade and in naval warfare from the Viking era to the Spanish Armada in the American Civil War both world wars and the Falklands War Comprehensive enlightening and provocative *The Naval History of Wales* also explodes many myths about Welsh history naval historian J D Davies arguing that most Welshmen in the sailing navy were volunteers and that relative to the size of national populations proportionately more Welsh seamen than English fought at Trafalgar Written in vivid detail this volume is one that no maritime or Welsh historian can do without *The Medieval Expansion of Europe* J. R. S. Phillips, 1998 Between the year 1000 and the middle of the fourteenth century a remarkable series of events unfolded as Europeans made contact with a very substantial part of the inhabited world much of it never previously known to or suspected by them Leif Ericsson and other Vikings from Greenland discovered North America European crusading armies established themselves in Syria and Palestine Marco Polo and other Italian merchants and missionaries such as John of Monte Corvino penetrated the dominions of the Mongol great Khans as far as China the Vivaldi brothers sought to open a sea route to India Jaime Ferrer was lured by dreams of locating the source of West African gold and the Atlantic island groups the canaries Madeira and the Azores were all discovered For this Clarendon Paperback edition Professor Phillips has added a new Foreword and Conclusion as well as a bibliographical essay surveying recent work in what is becoming a thriving area of research *Romantic Medievalism* E. Fay, 2001-12-17 Nineteenth century medievalism is usually associated with Scott's world of *Ivanhoe* but *Romantic Medievalism* argues that Scott's is a conservative use of the past and that radical poets such as the young Coleridge Keats and Shelley used the medieval to critique and change rather than validate the present These poets identified with the troubadour of courtly love a disempowered figure often politically at odds with the establishment figure of the knight **Literature, Nationalism, and Memory in Early Modern England and Wales** Philip Schwyzer, 2004-10-21 The Tudor era has long been associated with the rise of nationalism in England yet nationalist writing in this period often involved the denigration and outright denial of Englishness Philip Schwyzer argues that the ancient insular and imperial nation imagined in the works of writers such as Shakespeare and Spenser was not England but Britain Disclaiming their Anglo Saxon ancestry the English sought their origins in a nostalgic vision of British antiquity Focusing on texts including *The Faerie Queene* English and Welsh antiquarian works *The Mirror for Magistrates* Henry V and *King Lear* Schwyzer charts the genesis development and disintegration of British nationalism in the sixteenth and early seventeenth centuries An important contribution to the expanding scholarship on early modern Britishness this study gives detailed attention to Welsh texts and traditions arguing that Welsh sources crucially influenced the development of English literature and identity **Romanticism in National Context** Roy Porter, Mikulas Teich, 1988-05-27 Special emphasis is placed on the interplay between Romantic culture and social political and economic change in this study of the course of Romanticism in various European countries **Wales, the Welsh and the Making of America** Vivienne

Sanders,2021-07-15 The work is written in an accessible fashion It uses biographies to give readers an interesting and useful overview of the history and development of the United States It could give Welsh readers a sense of pride in the achievements of Welsh people and their descendants It clarifies for American readers the motivation and achievements of those of their ancestors who came from Wales and demonstrates how valuable immigrants can be *Rewriting Early America* Christopher K. Coffman,2018-11-27 Recent poems and fictions set in the early Americas are typically read as affirmations of cultural norms as evidence of the impossibility of genuine engagement with the historical past or as contentious repudiations of received histories Inspired particularly by Mihai Sparescu's arguments regarding literary playfulness as an opening to peace *Rewriting Early America* The Prenatal Past in Postmodern Literature adopts a different perspective with the goal of demonstrating that many recent literary texts undertake more constructive and hopeful projects with regard to the American past than critics usually recognize While honoring writers pervasive critiques of hegemony this volume trades a preoccupation with antagonism for an interest in restoration and recuperation It describes how texts by John Barth John Berryman Susan Howe Toni Morrison Paul Muldoon Thomas Pynchon and William T Vollmann harness the ambiguities of the colonial past to find sociocultural possibilities that operate beyond the workings of power and outside the politics of difference Throughout this book remains devoted to uncovering the moments at which contemporary writers proffer visions of American communities defined not by marginalization and oppression but by responsive understanding and inclusion **Saints & Sinners** Antti P. Balk,2008 This unique look at history elaborately recounts the birth of human civilization through the vehicle of ancient Egyptian deities albeit in light of the most recent knowledge on archaeology anthropology comparative religion linguistics sociology and general history It moves quickly but seamlessly to Greece via Crete revealing the relatively young age of Continental European and by extension all Western culture science art and religion and their highly derivative nature a point subtly repeated throughout this stunningly wide ranging work A book of contrasts it constantly compares not only the Saints and the Sinners but the East and the West be the issues dealt with political or religious in most cases the one cannot be separated from the other It does not however presume to pass judgement only to relate the events as they happened the facts as they stand even if many of them are little known ones conspicuous by their absence in standard school history books *Into the Ocean* Kristjan Ahnson,2015-02-26 That Gaelic monasticism flourished in the early medieval period is well established The Irish School penetrated large areas of Europe and contemporary authors describe North Atlantic travels and settlements Across Scotland and beyond Celtic speaking communities spread into the wild and windswept north marking hundreds of Atlantic settlements with carved and rock cut sculpture They were followed in the Viking Age by Scandinavians who dominated the Atlantic waters and settled the Atlantic rim With *Into the Ocean* Kristjan Ahnson makes two dramatic claims that there were people in Iceland almost a century before Viking settlers first arrived c AD 870 and that there was a tangible relationship between the early Christian Irish

communities of the Atlantic zone and the Scandinavians who followed them Ahronson uses archaeological paleoecological and literary evidence to support his claims analysing evidence ranging from place names in the Scottish islands to volcanic airfall in Iceland An interdisciplinary analysis of a subject that has intrigued scholars for generations Into the Ocean will challenge the assumptions of anyone interested in the Atlantic branch of the Celtic world *Robert Southey and the Contexts of English Romanticism* Lynda Pratt,2016-04-08 Lynda Pratt's collection of specially commissioned essays is the first edited volume devoted to the multiple connections between Robert Southey 1774-1843 and English Romantic culture A major and highly controversial personage in his own day Southey has until recently been the forgotten member of the Lake School Archipelagic English John Kerrigan,2008-02-07 John Kerrigan's unique study of 17th century anglophone literature explores remarkable work produced in Wales Scotland and Ireland and shows how preoccupied Shakespeare Milton and Marvell were with the interactions between the peoples of the British Irish archipelago This major book resets the terms of the debate for scholars of the period **Transactions of the Royal Historical Society: Volume 14** Aled Jones,2005-05-05 The Transactions of the Royal Historical Society publish an annual collection of major articles representing some of the best historical research by some of the world's most distinguished historians **The Invention of Tradition** Eric Hobsbawm,Terence Ranger,2012-03-26 Many of the traditions which we think of as very ancient in their origins were not in fact sanctioned by long usage over the centuries but were invented comparatively recently This book explores examples of this process of invention the creation of Welsh and Scottish national culture the elaboration of British royal rituals in the nineteenth and twentieth centuries the origins of imperial rituals in British India and Africa and the attempts by radical movements to develop counter traditions of their own It addresses the complex interaction of past and present bringing together historians and anthropologists in a fascinating study of ritual and symbolism which poses new questions for the understanding of our history **Afrocentrism** Stephen Howe,1999-08-17 For centuries racist colonial and Eurocentric bias has blocked or distorted knowledge of Africans their histories and cultures resulting in a counter mythology claiming the innate superiority of African descended peoples In this provocative study historian Stephen Howe challenges this Afrocentric rewriting of African history 16 photos Copyright Libri GmbH All rights reserved English Romanticism and the Celtic World Gerard Carruthers,Alan Rawes,2003-05-15 English Romanticism and the Celtic World explores the way in which British Romantic writers responded to the national and cultural identities of the four nations England Ireland Scotland and Wales The essays collected here by specialists in the field interrogate the cultural centres as well as the peripheries of Romanticism and the interactions between these They underline Celticism as an emergent strand of cultural ethnicity during the eighteenth century examining the constructions of Celticness and Britishness in the Romantic period including the ways in which the Celtic countries viewed themselves in the light of Romanticism Other topics include the development of Welsh antiquarianism the Ossian controversy Irish nationalism Celtic landscapes Romantic form and Orientalism The collection

covers writing by Blake Wordsworth Scott Byron and Shelley and will be of interest to scholars of Romanticism and Celtic studies *Claiming Cambria* Shawna Lichtenwalner, 2008 By investigating Romantic era negotiations of Welsh culture both by writers seeking to further the assimilation of the Welsh and by those seeking to protect and preserve a distinctive cultural identity for the Welsh this book traces the effects of differing historiographic approaches to identity formation allowing for a better understanding of how cultural material can be productively reworked in order to gain a specific end BOOK JACKET
