Bildungsroman The selected coming of age novels present further transformations of the female Bildungsroman The classic heroine of eighteenth and nineteenth century Bildung narratives reappears in twentieth century novels as a modern girl who experiences a significant rise of feminist consciousness In more recent works she becomes a postfeminist girl who questions victim feminism and tests the potential of girl power to subvert the patriarchal tradition Relating the postfeminist developments of the girl heroine to the influence of contemporary media culture the book explores whether these literary representations of girlhood incorporate antifeminist backlash messages It will be of interest to scholars and students in the fields of literary and girls studies particularly those who want to see new trends and issues in young adult fiction in the context of a literary tradition *Sex, Art, and American Culture* Camille Paglia, 2011-08-31 A collection of twenty of Paglia's out spoken essays on contemporary issues in America's ongoing cultural debate such as Anita Hill Robert Mapplethorpe the beauty myth and the decline of education in America

Unmaking Mary Chine McDonald, 2025-03-13 Astute smart witty and brave A radical deeply thoughtful and essential intervention Lucy Jones author of *Matrescence* A deeply valuable reflection on motherhood Rowan Williams For two thousand years the Virgin Mary has been depicted throughout art literature and culture as symbolising the perfect mother chaste beautiful meek mild and white These supposed virtues and symbols have penetrated not just Christianity but wider popular culture and contributed to harmful views about motherhood and what it is to be a woman In this part memoir part social and theological commentary Chine McDonald deconstructs the myth of perfect motherhood and shines a light on the dark side of parenting From birth trauma to post natal depression from infertility to the mental load the motherhood penalty and pressures on women to be and have it all especially in the church this book attempts to liberate motherhood from the chains in which it has been placed reconstructing a more authentic grace filled way forward for the most important job in the world *Unmaking Mary* will include a foreword written by Beth Allison Barr author of *The Making of Biblical Womanhood*

The Mother in Psychoanalysis and Beyond Rosalind Mayo, Christina Moutsou, 2016-10-04 The question of what it means to be a mother is a very contentious topic in psychoanalysis and in wider society *The Mother in Psychoanalysis and Beyond* explores our relationship to the maternal through psychoanalysis philosophy art and political and gender studies Over two years a group of psychotherapists and members of the public met at the Philadelphia Association for a series of seminars on the Maternal In the discussions that followed a chasm opened up slowly and painfully between the idealised longings and fantasies we all share and the realities of maternal experiences here were met the great silences of love loss longing memories desire hatred and ambivalence This book is the result of this bringing together in conversation and reflections of what so often seems unsayable about the Mother It examines how issues of personal and gender identity are shaped by the ideals of separation from the mother the fears and anxiety of merging with the mother and how this has often led in psychoanalysis and society to holding mothers responsible for a variety of personal and social ills and problems in which maternal vulnerability is denied and silenced There

are two main themes running throughout the book *Matricide and Maternal Subjectivity* On the theme of matricide several contributors discuss the ways in which the discourse and narratives of the Mother have been silenced on a sociocultural level and within psychoanalysis and philosophy in favour of discourses that promote independence autonomy power and the avoidance and denial of our fundamental helplessness and vulnerability On the theme of maternal subjectivity several chapters look at the actual experience of mothering and or our relationship to our mother to highlight the ways in which the maternal is intimately connected with human subjectivity *The Mother in Psychoanalysis and Beyond* provides new and provocative thinking about the maternal and its place in various contemporary discourses It will appeal to psychoanalysts psychotherapists and psychologists of different schools scholars and advanced students of art gender studies politics and philosophy as well as anyone interested in maternity studies and the relationship between the maternal and human subjectivity

Relational theologies such as feminist theology ecotheology and liberation theologies of various kinds turn our traditional starting point for theology on its head They ask what it is that we experience This book aims to explore the concept of the emerging divine within human and non human relationality **The Universal Vampire** Barbara Brodman, James E. Doan, 2013-03-08

Since the publication of John Polidori's *The Vampyre* 1819 the vampire has been a mainstay of Western culture appearing consistently in literature art music notably opera film television graphic novels and popular culture in general Even before its entrance into the realm of arts and letters in the early nineteenth century the vampire was a feared creature of Eastern European folklore and legend rising from the grave at night to consume its living loved ones and neighbors often converting them at the same time into fellow vampires A major question exists within vampire scholarship to what extent is this creature a product of European cultural forms or is the vampire indeed a universal perhaps even archetypal figure In this collection of sixteen original essays the contributors shed light on this question One essay traces the origins of the legend to the early medieval Norse draugr an undead creature who reflects the underpinnings of *Dracula* the latter first appearing as a vampire in Anglo Irish Bram Stoker's 1897 novel *Dracula* In addition to these investigations of the Western mythic literary and historic traditions other essays in this volume move outside Europe to explore vampire figures in Native American and Mesoamerican myth and ritual as well as the existence of similar vampiric traditions in Japanese Russian and Latin American art theatre literature film and other cultural productions The female vampire looms large beginning with the Sumerian goddess Lilith including the nineteenth century Carmilla and moving to vampiresses in twentieth century film literature and television series Scientific explanations for vampires and werewolves constitute another section of the book including eighteenth century accounts of unearthing decapitation and cremation of suspected vampires in Eastern Europe The vampire's beauty attainment of immortality and eternal youth are all suggested as reasons for its continued success in contemporary popular culture **Feminism and Power** Mary Caputi, 2013-05-16

Feminism and Power the Need for Critical Theory is a six chapter manuscript which offers an important critique of power feminism The latter having produced such spinoffs as *grrrl power choice babe lipstick and stiletto* feminism encourages women to be strong self sufficient feisty and independent While I have no argument with much of that tough minded ideal I ask whether this brave new girl doesn't too readily acquiesce in a neo liberal ideology whose underlying tenets derive from American rugged individualism At its worst this strain within Third Wave feminism contains no critique of capitalism no distance on neoliberal theory no effort to address the injustices contained in globalization's asymmetries and the industrialized North's exploitation

of developing countries Feminism and Power the Need for Critical Theory therefore argues that the critical theories of Theodor Adorno and Jacques Derrida have much to offer feminism and a feminist understanding of female empowerment Its pages rely on Adorno s assertion that it is only by allowing the sufferer to speak that we can unveil social truth rather than be duped by the bravado of victory culture Similarly it demonstrates how Derrida s insistence on the trace as well as the asymmetries of friendship and hospitality lead feminism away from the perils of contented triumphalism The book promotes listening as a paradigmatic feminist gesture rather than always speaking up and out *Sexism and Sin-Talk* Rachel Sophia Baard,2020-01-01 Early feminist theologians criticized the Christian doctrine of sin for its focus on female sexual purity and its enabling of the marginalization and oppression of women Others have questioned whether the entire theological category of sin should be abandoned in favor of other ways of talking about the human predicament In this new book Rachel Baard argues for a feminist critique of traditional sin talk alongside a constructive reinterpretation of the doctrine of sinone that can be life affirming for all persons She claims that the Christian idea of sinthat tragic flaw at the core of human experienceprovides one of the best tools for understanding the evils of sexism patriarchy and traditional sin talk itself She likewise provides a new rhetoric of sin talk one that accounts for the diverse experiences of the human family not simply those of powerful men **The Gendered Body in South Asia** Meenakshi Malhotra,Krishna Menon,Rachana

Johri,2023-09-14 This book situates the discourse on the gendered body within the rapidly transitioning South Asian socio economic and cultural landscape It critically analyzes gender politics from different disciplinary perspectives including psychoanalysis post structuralism post colonialism and law among others Enriched by contributions from well known South Asian feminist scholars this book discusses themes such as democracy and dissent citizenship and violence and how the female body has historically been used in these discussions as a shield and a weapon It also focuses on technology and misogyny the politics of veiling and unveiling the body of the Muslim women in contemporary India as well as bodies which are marginalized or labelled transgressive or monstrous The chapters in the volume showcase the complexities convergences and divergences which exist in the conception and understanding of the gendered body sexuality and gender roles in different socio cultural spaces in South Asia and how women negotiate these boundaries Topical and comprehensive this book will be useful for scholars and researchers of gender studies sociology political sociology social anthropology cultural studies post colonial studies and South Asian studies *The Crane Bag Book of Irish Studies: 1982-1985* Mark Patrick

Hederman,Richard Kearney,1982 Catholic Women Writers Mary Reichardt,2001-07-30 Women have been writing in the Catholic tradition since early medieval times yet no single volume has brought together critical evaluations of their works until now The first reference of its kind Catholic Women Writers provides entries on 64 Catholic women writers from around the world and across the centuries Each of the entries is written by an expert contributor and includes a biography of the author a critical discussion of her works especially her Catholic and women s themes an overview of her critical reception

and a bibliography of primary and secondary sources Authors writing in all genres including fiction autobiography poetry children s literature and essays are represented The entries give special attention to the authors use of Catholic themes structures traditions culture and spirituality The writers surveyed range from Doctors of the Church to mystics and visionaries to those who employ Catholic themes primarily in historical and cultural contexts to those who critique the tradition An introductory essay places the writers within the historical and literary contexts of women s writing in the Catholic tradition and the volume closes with a selected general bibliography

Women, Activism and Social Change Maja Mikula, 2006-01-16 Throughout history women have participated in and sometimes initiated rebellions to defend the welfare of their family community class race or ethnic group This volume presents original research on women s activism in Asia Europe Australia and Latin America It explores how women have advanced social change and their influence on and response to existing transformations in society Using an interdisciplinary approach the authors examine women s activities and conditions in diverse social and political contexts from revolutionary societies to status quo societies to societies in decline With its primary focus on agency and social change this book deconstructs patriarchal discourses and unearths aspects of female agency in an array of cultural historical and geopolitical contexts Chapters on movements in China Japan Australia Croatia Russia and a range of other countries both contribute to our understanding of change in those societies and seek to locate women at the center of politically aware movements Although not exclusively a book about feminist activism this essential collection is motivated by the feminist desire to restore to history a range of women s experiences This book introduces new ways of thinking across boundaries identities and complexities in a still essentially patriarchal world It will be of great interest to students and researchers in the fields of gender studies activism and comparative politics

Moral Powers, Fragile Beliefs Joseph Carlisle, James Carter, Daniel Whistler, 2011-02-17 *The Word of a Woman?* J. Jordan, 2004-08-18 The notion that women lie about rape is a prevalent belief with pervasive influence This book is unique in combining police file data with interviews obtained from both rape survivors and detectives in order to critically explore how this belief affects police officers responses to women who report rape Examination of this material is located within a broader analysis of the historical and socio cultural environment and illustrates how rape investigations continue to be conducted within the context of pervasive beliefs and stereotypes regarding both the nature of rape and the nature of women
