Internal Logic Maggie Taylor, 2022-01-26 Maggie Taylor's digital creations are emblematic afterimages that invite transport and are unforgettable Taylor's images are built layer by layer and object by object through a disciplined studio process of trial and error It is only through looking at dozens of these images and spending time with them that one begins to unravel the artist's sensibilities and distinct fascinations that emerge through the repetition of certain images and tropes Internal Logic highlights Taylor's sense of what makes an image work and offers insights into the shape and contours of her inspirations Her deep archive of images that return to her art are a lexicon through which to communicate her multi-layered imaginings Each image contains the keys to understanding the corpus of other images

Roe, 2005-11-29 Sustainability is highly topical but no one has yet examined its relationship to landscape architecture in any detail Contributions from leading academics and professionals in the field Will be regarded as the definitive work on the subject Breadth of approach subject examined from planning design science and management perspectives **Revisiting Austria** Gundolf Graml, 2020-04-09 Following the transformations and conflicts of the first half of the twentieth century Austria's emergence as an independent democracy heralded a new era of stability and prosperity for the nation Among the new developments was mass tourism to the nation's cities spa towns and wilderness areas a phenomenon that would prove immensely influential on the development of a postwar identity Revisiting Austria incorporates films marketing materials literature and first person accounts to explore the ways in which tourism has shaped both international and domestic perceptions of Austrian identity even as it has failed to confront the nation's often violent and troubled history **Performing Farmscapes** Susan C. Haedicke, 2021-12-06 This book argues that the performance based work in the featured case studies contributes to the construction of food democracy where the public takes back decision making in shaping the food system It explores how contemporary artists translate scientific research about local and global agricultural issues into life stories that inform and engage their audiences and in so doing transform passive food consumers into proactive food citizens The pairing of performing and farmscapes complex webs of farmlands and storylines enables artists to use embodied practices to encourage audiences to imagine a just and sustainable agri food system and to collaborate on making it a reality The book arranges the case studies on a trajectory that moves from projects that foreground knowledge acquisition to ones that emphasize social engagement by creating conversations and coalitions between farming and nonfarming communities to a final one that pairs protest art and political activism to achieve legally binding changes in the agricultural landscape **Maggie O'Farrell** Elaine Canning, 2023-12-28 Bringing together cultural analysis and textual readings on critically acclaimed bestseller and winner of the prestigious Women's Prize for Fiction Maggie O'Farrell this collection covers her nine novels her memoir I Am I Am I Am two children's books and features an exclusive interview with the author herself The first full length study of O'Farrell's work this book offers critical explorations from her earliest works to the award winning Hamnet and most recent best selling novel The Marriage Portrait With a timeline of her life and works as well as suggested further reading the themes explored include grief and sacrifice longing
