Magic and Divination in Ancient Palestine and Syria Ann Jeffers, 1996 Magic and Divination in the Old **Testament** Solomon Nigosian, 2008-07-25 Explores the practices and rituals associated with magic and divination among the ancient Israelites as documented in the Old Testament **Daniel's Mysticism of Resistance in Its Seleucid Context** Timothy L. Seals, 2022-10-03 In Daniel's Mysticism of Resistance in Its Seleucid Context Timothy L Seals proffers a postcolonial interpretation of the book of Daniel investigating certain texts that constitute Daniel's mystical way or practice Daniel uses mysticism to resist the repressive script of Antiochus IV outlawing the Jewish religion in 167 BCE In his use of non violence to resist the imperial power of the Seleucids Daniel stands in the non violent passive resistant tradition of both Mahatma Gandhi and Martin Luther King Jr Daniel uses mysticism both to resist imperial intrusions into his humanity and to decolonize his mind in the aftermath of colonization In this endeavor mysticism proves to be world affirming Geheimnisse der oberen und der unteren Welt: Magie im Islam zwischen Glaube und Wissenschaft Sebastian Günther, Dorothee Pielow, 2018-10-08 Die Geheimnisse der oberen und der unteren Welt The Secrets of the Upper and the Lower World is a substantial new collection of essays on magic in Islamic cultural history Both comprehensive and innovative in its approach this book offers fresh insights into an important yet still understudied area of Islamic intellectual history The seventeen chapters deal with key aspects of Islamic magic including its historical developments geographical variants and modern day practices The general introduction identifies and problematizes numerous sub topics and key practitioners theoreticians in the Arabo Islamic context This along with terminological and bibliographical appendices makes the volume an unparalleled reference work for both specialists and a broader readership Contributors Ursula Bsees Johann Christoph B rgel Susanne Enderwitz Hans Daiber Sebastian G nther Mahmoud Haggag Maher Jarrar Anke Joisten Pruschke Fabian K s Ulrich Marzolph Christian Mauder Tobias N nlist Khanna Omarkhali Eva Orthmann Bernd Christian Otto Dorothee Pielow Lutz Richter Bernburg Johanna Schott Johannes Thomann Magic in the Ancient Eastern Mediterranean Nina Nikki, Kirsi M.J. Valkama, 2020-12-14 Magic in the Ancient Eastern Mediterranean Cognitive Historical and Material Perspectives brings together articles with the shared conviction that the category of magic remains useful in religious studies and provides new insights to biblical and related texts and artifacts Historically magic has been considered in both scholarly and popular discourse to be questionable obscure and potentially subversive 19th century scholars of religion viewed magical beliefs and practices as primitive and inferior compared to Judeo Christian forms of worship which were considered true religion More recently the category has been defended especially by scholars of the cognitive science of religion who find it useful for delineating a set of beliefs and practices fundamental to all forms of religion The volume joins current scholarship in refraining from using the concept as an othering device and in arguing that it can still serve as a helpful analytical tool In addition to analyzing the discourse on magic in both ancient literature and modern scholarship the articles provide individual

examples of how literary and material culture attest to the existence of magical beliefs and practices in sources from the Ancient Near East to the Byzantine Period The book is divided into three parts The contributions in the first part approach magic from the theoretical perspective of cognitive studies ritual studies and cultural evolution while the rest of the book focuses on how magic and magicians are understood in ancient sources The second part discusses a specific set of textual material dealing with blessings and curses The third part of the volume discusses the world of various destructive celestial beings from which one and one s loved ones had to be defended as well as the multitude of protective beings such as angels
