National Geographic Explorer [Ways to the West](#) Tim Sullivan, 2015-08-09 In *Ways to the West* Tim Sullivan embarks on a car-less road trip through the Intermountain West exploring how the region is taking on what may be its greatest challenge: sustainable transportation. Combining personal travel narrative, historical research and his professional expertise in urban planning, Sullivan takes a critical yet optimistic and often humorous look at how contemporary Western cities are making themselves more hospitable to a life less centered on the personal vehicle. The modern West was built by the automobile but so much driving has jeopardized the West's mystic hold on the American future. At first, automobility heightened the things that made the West great but love became dependence and dependence became addiction. Via his travels by bicycle, bus and train through Las Vegas, Phoenix, Denver, Boise, Salt Lake City and Portland, Sullivan captures the modern transportation evolution taking place across the region and the resulting ways in which contemporary Western communities are reinterpreting classic American values like mobility, opportunity, adventure and freedom. Finding a West created, lost and reclaimed, *Ways to the West* will be of great interest to anyone curious about sustainable transportation and the history, geography and culture of the American West. **Trailhead**, 2000 *Subject Guide to Children's Books in Print* 1997 Bowker Editorial Staff, R.
