Sex, Drugs, Death, and the Law David A. J. Richards, 1986 Among the most commonly argued legal questions are those involving victimless crimes consensual adult sexual relations including homosexuality and prostitution the use of drugs and the right to die How can they be distinguished from proper crimes and how can we as citizens judge the complex moral and legal issues that such questions entail David Richards a teacher of law in the areas of constitutional and criminal law and a moral and legal philosopher concerned with the investigation of legal concepts applies an interdisciplinary approach to the question of overcriminalization he draws on legal and philosophical arguments and links the subject to history psychology social science and literature To demonstrate how gross and unjust overcriminalization has developed Professor Richards explores basic assumptions that often underlie the common American sense of proper criminalization

Sex Work in Contemporary Russia Emily Schuckman Matthews, 2023-02-13 Sex Work in Russia weaves together a wide range of materials to examine the figure of the female sex worker in Russia from the early twentieth century to the present day This book offers readers both an expansive and nuanced discussion of the significance of this archetypal female who appears with remarkable frequency in literature film and other cultural productions Emily Schuckman Matthews explores the ways in which the fictional sex worker and her real life counterpart has become a symbolic representative of social and moral instability economic volatility political social and ideological revolutions and changing concepts of gender sexuality and the nation itself Focus is given to the movement of the female sex worker from marginal foil to a hero in her own right even finding a voice of her own in recent years Works featuring this alluring and complex figure reveal critical insights into the changing position of women and other marginalized people in a volatile Russia

Depressive Realism Colin Feltham, 2016-09-13 Depressive Realism argues that people with mild to moderate depression have a more accurate perception of reality than non depressives Depressive realism is a worldview of human existence that is essentially negative and which challenges assumptions about the value of life and the institutions claiming to answer life's problems Drawing from central observations from various disciplines this book argues that a radical honesty about human suffering might initiate wholly new ways of thinking in everyday life and in clinical practice for mental health as well as in academia Divided into sections that reflect depressive realism as a worldview spanning all academic disciplines chapters provide examples from psychology psychotherapy philosophy and more to suggest ways in which depressive realism can critique each discipline and academia overall This book challenges the tacit hegemony of contemporary positive thinking as well as the standard assumption in cognitive behavioural therapy that depressed individuals must have cognitive distortions It also appeals to the utility of depressive realism for its insights its pursuit of truth as well its emphasis on the importance of learning from negativity and failure Arguments against depressive realism are also explored This book makes an important

contribution to our understanding of depressive realism within an interdisciplinary context It will be of key interest to academics researchers and postgraduates in the fields of psychology mental health psychotherapy history and philosophy It will also be of great interest to psychologists psychotherapists and counsellors *The Sexual Experience* Benjamin J. Sadock, Harold I. Kaplan, Alfred M. Freedman, 1976 Another undergraduate textbook and dated but I suppose an argument could be made for retaining this one as there is some considerable discussion of homosexuality P Thorslev *The Prostitute and the Prophet* Yvonne Sherwood, 2004-12-30 The only consensus that has been reached on Hosea 1 3 is that it is a notoriously problematic text Sherwood unpicks this rather vague statement by examining the particular complexities of the text and frictions between the text and reader that conspire to produce such a disorientating effect Four dimensions of the problem are considered the conflict between text and reader over the improper relationship between Hosea and Gomer the bizarre prophetic sign language that conscripts people into a cosmic charade the text s propensity to subvert its central theses and the emergent tensions between the feminist reader and the text Aiming to bring together literary criticism and biblical scholarship this book provides lucid introductions to ideological criticism semiotics deconstruction and feminist criticism and looks at the implications of these approaches not only for the book of Hosea but for biblical studies in general
