Alexander, Dan K. Utley, 2012-09-24 Each of the wars fought by Texans spawned the creation of scores of military sites across the state from the lonely frontier outpost at Adobe Walls to the once bustling World War II shipyards of Orange Today although vestiges of the sites still exist many are barely discernible their once proud martial trappings now faded by time neglect the elements and most of all public apathy In *Faded Glory A Century of Forgotten Texas Military Sites Then and Now* Thomas E. Alexander and Dan K. Utley revisit twenty nine sites many of them largely forgotten associated with what was arguably the most tumultuous hundred year period in a five century span of Texas history Whether in the war with Mexico the American Civil War in clashes between Indians and the frontier army or in two worldwide conflicts fought on foreign shores Texas and Texans have often answered the call to arms Beginning in 1845 and continuing through 1945 the Lone Star State and its people were fully involved in seven major conflicts In this thoroughly researched and absorbing guide Alexander and Utley recount the full story of the sites from their days of fame to the present Comparing historic sketches paintings and period photographs of the original installations with recent photographs they illustrate how time has dealt with these important places Providing maps to aid readers in locating each site the authors close with a resounding call for preservation and interpretation for future generations The descriptions and images restore at least in the mind's eye a touch of vitality and color to these forgotten and disappearing sites Thanks to *Faded Glory A Century of Forgotten Texas Military Sites Then*
