Association of Orientalist Librarians, 1986 **Memoirs of Fatemeh Pakravan** (مذکرات فاطمه پاکرavan), Habib Ladjevardi, 1998 The project was launched at Harvard's Centre for Middle East Studies. It provides scholars endeavouring to study the contemporary political history of Iran with primary source material consisting of personal accounts of 132 individuals who played major roles in important political events and decisions in Iran from the 1920s to the 1970s or witnessed these events and decisions from close range. Fatemeh Pakravan was the daughter of Javad Farifteh and Olya Brilevski who was half Polish and half Russian. Mrs Pakravan maintained a diverse career while raising four children. This practice was highly unusual for an Iranian woman in the 1940s. She was director of the Najmiyeh Hospital and head of maternity at the Bank Melli Hospital, teacher of French at the Institute for Foreign Languages of Tehran University, head of planning and development of the National Tourist Organization and an active member of the Red Lion and Sun Association. Iran's Red Cross Hassan Pakravan son of Fathollah and Emineh was born in Tehran on 4 August 1911. He began his career at the Tehran Military Academy and served in a number of military, political and diplomatic posts including adjutant in the Intelligence Department of the Second Division, military attaché in Pakistan 1949-50, chief of army intelligence 1951-53, deputy chief of the State Intelligence and Security Organization in charge of external affairs 1957-61, deputy prime minister and chief of the State Intelligence and Security Organization 1961-65, minister of information 1965-66, ambassador to Pakistan 1966-69, ambassador to France 1969-73 and senior counsellor to the Ministry of Court 1974-79. He was executed by the revolutionary court in 1979. Historia Anthropologia Y Fuentes Orales , (مذکرات شاهزاده قاجار) Prince Ḥamid Qājār, 1996 The project was launched at Harvard's Centre for Middle East Studies. It provides scholars endeavouring to study the contemporary political history of Iran with primary source material consisting of personal accounts of 132 individuals who played major roles in important political events and decisions in Iran from the 1920s to the 1970s or witnessed these events and decisions from close range. Prince Hamid Kadjar was the grandson of Mohammad Ali Shah Qajar, reigned 1907-9, nephew of Ahmad Shah, reigned 1909-25, and son of Crown Prince Mohammad Hassan Mirza 1909-25 and Mohtaram al Saltaneh Razzaghi, the second of five wives married to the Crown Prince. He was born in Tabriz on April 23 1918. In October 1925 the Iranian Majles parliament disposed the Qajars after 140 years of rule. On the same day Prince Hamid's father, who was holding fort in Tehran during Ahmad Shah's extended stay in Europe, was expelled from the country. He headed for Paris and joined the rest of his family. At the age of seven he was sent to England to live and study under the guardianship of a prominent English family. In 1942, as the Second World War engulfed Europe, Prince Hamid volunteered for the Royal Navy and was commissioned as a sub-lieutenant. Prince Hamid lived his years of retirement with his wife in London. After a brief illness he died on May 5 1998 and was buried in Brookwood Cemetery in Surrey. In an obituary the Times of London May 9 1988 said: 'Though very much a Persian in appearance, Prince Hamid had a bluff and breezy British quarterdeck manner combined with a shrewd insight into both British and Iranian affairs. He excelled as a raconteur and had a wide circle of British friends.' **Iran in World History**

Richard C. Foltz, 2016 One of the world's most ancient and enduring civilizations Iran has long played a central role in human events and continues to do so today This book traces the spread of Iranian culture among diverse populations ranging from the Mediterranean to the Indian Ocean and along the Silk Roads as far as China from prehistoric times up to the present day From paradise gardens and Persian carpets to the mystical poetry of Rumi and Hafez Iran's contributions have earned it a place among history's greatest and most influential civilizations Encompassing the fields of religion literature and the arts politics and higher learning this book provides a holistic history of this important culture *Handbook of Political Science Research on the Middle East and North Africa* Bernard Reich, 1998-05-21 Facilitating research on Middle Eastern and North African politics this volume is a major reference work A series of chapters describe the post World War II research on the politics of the states and of the Palestinians of the region The literature on international relations of the region is reviewed and the approach to political economy is discussed Written by the foremost experts on their respective subjects the chapters also identify the gaps in the literature and fruitful areas for future research The chapter references constitute a bibliographical treasure for those seeking to study the politics of the region Annotations enable the reader to better select works for further research This volume provides a complete analysis of the state of the field an agenda for future research and a detailed annotated bibliography of the best research published **Eminent Persians** Abbas Milani, 2022-08-01 As the 25th anniversary of the Islamic Revolution approached Abbas Milani realized that very little if any attention had been given to the entire prerevolutionary generation Political upheavals and a tradition of neglecting the history of past regimes have resulted in a cultural memory loss erasing the contributions of a generation of individuals Eminent Persians seeks to rectify that loss Milani's groundbreaking portrait of modern Iran reveals the country's rich history through the lives of the men and women who forged it Consisting of 150 profiles of the most important innovators in Iran between World War II and the Islamic Revolution the book includes politicians entrepreneurs poets artists and thinkers who brought Iran into the modern era with brilliant success and sometimes terrible consequences The biographies and essays weave a richly textured tapestry of lives ideas and events that reveals the true story of these decades in the life of a nation The two volumes are divided into sections on politics economics and culture each accompanied by an introductory essay that places the individual stories in their broader historical context Drawn from interviews extensive archival material and private correspondence Eminent Persians is a treasure trove of original documents many appearing in print for the first time Detailed sketches of personalities and personal foibles offer a compelling and highly readable account of this remarkable period of history on a human scale **Bulletin**, 1987 *Hard Times in the Lands of Plenty* Benjamin Smith, 2011-05-02 That natural resources can be a curse as well as a blessing is almost a truism in political analysis In many late developing countries the resource curse theory predicts the exploitation of valuable resources will not result in stable prosperous states but rather in their opposite Petroleum deposits for example may generate so much income that rulers will have little need to establish efficient tax

extracting bureaucracies leading to shallow poorly functioning administrations that remain at the mercy of the world market for oil Alternatively resources may be geographically concentrated thereby intensifying regional ethnic or other divisive tensions In *Hard Times in the Land of Plenty* Benjamin Smith deciphers the paradox of the resource curse and questions its inevitability through an innovative comparison of the experiences of Iran and Indonesia These two populous oil rich countries saw profoundly different changes in their fortunes in the period 1960 1980 Focusing on the roles of state actors and organized opposition in using oil revenues Smith finds that the effects of oil wealth on politics and on regime durability vary according to the circumstances under which oil exports became a major part of a country s economy The presence of natural resources is he argues a political opportunity rather than simply a structural variable Drawing on extensive primary research in Iran and Indonesia and quantitative research on nineteen other oil rich developing countries Smith challenges us to reconsider resource wealth in late developing countries not as a simple curse or blessing but instead as a tremendously flexible source of both political resources and potential complications
