Painting in the Far East Laurence Binyon,1923 *Painting in the Far East* Laurence Binyon,2015-06-16 Excerpt from *Painting in the Far East An Introduction to the History of Pictorial Art in Asia Especially China and Japan* The first edition of this book was published five years ago In the interval much has happened A quantity of new material has been brought to light interest in the subjects has everywhere grown and widened In most of the countries of the West collectors are beginning to collect seriously and studiously and no longer with a haphazard curiosity specimens of the classic art of China and Japan Museums begin to realise that these things are worthy of acquisition for their own sake and not merely as illustrations of ethnography or religion At this moment an entire museum exclusively devote to the art of Eastern Asia and built expressly for the purpose is being opened at Cologne The example will doubtless be followed It is a sign of the times It is now possible therefore in Europe and America to get some first hand acquaintance with Asian painting both of early and modern times But as I pointed out in the preface to the first edition of this book the student who cannot make the journey to the Far East will find indispensable the immense series of reproductions published in Japan About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Modernity of English Art, 1914-30 David Peters Corbett,1997 The modernity of English art reconceptualises the history of English painting from 1914 to the end of the 1920s Whereas most accounts have tended to see the period as marked by a tension between the native tradition and Modernism this ground breaking book rethinks the 1920s by situating both Modernist and non Modernist painters within a wider cultural history Established figures such as Paul Nash Edward Wadsworth and Wyndham Lewis as well as lesser known artists like Charles Sims John Armstrong and Ethelbert White are discussed and illustrated in a series of innovative readings within this context The modernity of English art offers a new account of painting in England after 1914 and argues for a strongly revisionist view of the significance of the modern during this important but neglected period in English art
