Macdonald,Chris Newman,Lauren A. Harrington,2017 This is the first specific coverage of musteloid conservation biology written and edited by world renowned specialists in the field Raccoon John Smith John Sparks,2005-12-23 Lexington Kentucky has the honor of being the birthplace of one of the first genuinely homegrown American Christian faiths the Disciples of Christ Established in 1832 by the union of two Christian groups led by Alexander Campbell and Barton W Stone their descendent churches are now referred to by religious scholars as the Stone Campbell movement In the state s best tradition this historic movement soon acquired its own larger than life legend Raccoon John Smith the flamboyant frontier preacher of the southern Kentucky mountains Smith moved to the lowland Bluegrass and braved considerable odds to preach and establish the self described pure nondenominational Christianity of Stone and Campbell throughout the state and beyond The 1832 union of Stone and Campbell s churches was in fact formalized not by Stone and Campbell but by Stone together

with Smith who represented Campbell's constituency in Kentucky. Raccoon John Smith occupies a well-deserved place both in Kentucky and Stone Campbell history. All previous biographical studies have been colored by the religious faith he embraced and the legends that evolved around him; however, rather than giving an accurate account of Smith's life, In Raccoon John Smith Elder John Sparks fills this void in the literature about Smith using historical sources to present a faithful portrait of a seminal frontier preacher and colorful figure in early Kentucky history. **Dramas and Works Prepared for Oral Delivery**

Library of Congress. Copyright Office, 1947. History of Rabies in the Americas, Volume III Charles E.

Rupprecht, 2025-07-14. History of Rabies in the Americas Volume III Reflections Reports Retrospectives and Revelations is a natural outgrowth of the prior two volumes which presented topical and spatio-temporal insights on this theme. Volume III offers contributions from those with first-hand experiences with this disease from groundbreaking discoveries in control and prevention to the first person to survive rabies without prior vaccination. This volume goes beyond the objectivity of science writing to offer personal narratives detailing individual impacts, the local and global contributions authors have made to detection, prevention, and control, and the long-reaching effects of colonization and disease translocation into this region. The introduction of rabies to the Americas occurred much later than the rest of the world, and the region has played a uniquely pivotal role in global understanding of this disease. Rather than rehashing the topics presented in the first two volumes, Volume III focuses on the leadership role the Americas has played in the words of those who experienced it first-hand.
