Rosetta Codex:

The Rosetta Codex Richard Paul Russo, 2005-12-06 Cale Alexandros was five years old when the path of his life was irrevocably altered. As the scion of a wealthy and powerful family, he enjoyed a privileged existence until his family's starship was attacked en route to Morningstar, the lone outpost of civilization on a savage planet known as Conrad's World. In an escape ship, Cale crash landed in the wilds and was picked from the wreckage by nomads. For years, Cale is forced to endure life as a slave, sold and shuffled from one group of brutish thugs to another until a trader recognizes a glimmer of promise in Cale's eyes and frees him. Cale travels far and wide, but he never forgets what happened long ago in the desert wastes when, in a strange ancient temple, he found a book with pages made of a strange metal and writings he could not identify. When he finally reaches Morningstar, he comes to realize that the book is a key to understanding a language never heard by mankind: an alien dialect. It also holds a secret that some people want to learn, a treasure that some want for themselves, and a revelation that some will do anything to control.
