Clack,2000-08-30 From the Middle Ages to the close of the 17th century alchemy was fundamental to Western culture as scores of experimenters sought to change lead into gold Though its significance declined with the rise of chemistry alchemy continued to captivate the imagination of writers and its images still appear in modern creative works This book examines the literary representation of alchemical theory and the metaphor of alchemical regeneration in the works of Edward Taylor Edgar Allan Poe Nathaniel Hawthorne and Margaret Fuller While Taylor used alchemical metaphors to illustrate the redeeming grace of God upon the soul these same metaphors were used by Poe Hawthorne and Fuller to depict a broader concept of redemption These later writers used alchemical imagery to describe both the regeneration of the individual and the possible transformation of society For Poe alchemy became a metaphor for the transforming power of imagination for Hawthorne it became a means of representing the redeeming power of love for Fuller it figured the reconciliation of gender opposites Thus these four American writers incorporated the idea of regeneration in their works and the tropes and metaphors of the medieval alchemists provided a fascinating way of imagining the transformative process **The Ancestral Power of Amulets, Talismans, and Mascots** Nigel Pennick,2021-05-04 Looks at the age old spiritual principles folklore and esoteric traditions behind the creation of magical objects as well as the use of numbers colors sigils

The Kabbalistic Mirror of Genesis David Chaim Smith, 2015-09-17 A bold line by line

reexamination of the first 3 chapters of Genesis that reveals the essential nature of mind and creativity Deconstructs each line of Genesis chapters 1-3 with esoteric methods derived from the oral teachings of the Kabbalah Reveals the sefirot the Tree of Life as the Divine blueprint of the creative process Explains how Genesis reveals the Divinity of mind and consciousness Hidden within the first three chapters of Genesis rests one of the greatest jewels of Western mystical literature For millennia religious literalism has dominated our understanding of the Bible imprisoning its subtle inner wisdom within the most coarse and superficial aspects of the narrative Generations have been led to believe that Genesis 1-3 is only a primitive proto cosmic history a mythological explanation of the human moral disposition a religious fairy tale But by accepting the text as pure kabbalistic metaphor the mystical content of Genesis springs forth revealing the Divine nature of creativity as well as a new understanding of the human mind Deconstructing each line of Genesis 1-3 with esoteric methods derived from the oral teachings of the Kabbalah David Chaim Smith reveals how the ten sefirot collectively known as the Tree of Life are not simply a linear hierarchy They are a unified interdependent whole with ten interactive functions forming the template through which creative diversity manifests Through acts of creation and creativity the mind expresses its Divine nature Through our Divine creative power we are able to touch upon Ain Sof the infinite the lifeblood of all creative expression Smith's line by line examination of Genesis 1-3 reveals a complete model not only of Divine creativity but also of the predicament of the human mind of the Divine nature of consciousness as well as our inability to recognize the mind's Divinity With this new interpretation which removes the concept of a Creator God we are able to transcend the contrasting notions of being and non being at the heart of conventional habits of perception and awaken a new mystical understanding of Unity and the fathomless depth of Divinity

Alchemist of the Avant-Garde John F. Moffitt, 2012-02-01 Acknowledged as the Artist of the Century Marcel Duchamp 1887-1968 left a legacy that dominates the art world to this day Inventing the ironically d'gag attitude of ready made art making Duchamp heralded the postmodern era and replaced Pablo Picasso as the role model for avant garde artists John F Moffitt challenges commonly accepted interpretations of Duchamp's art and persona by showing that his mature art after 1910 is largely drawn from the influence of the occult traditions Moffitt demonstrates that the key to understanding the cryptic meaning of Duchamp's diverse artworks and writings is alchemy the most pictorial of all the occult philosophies and sciences

Wisdom's Children Arthur Versluis, 1999-09-30 The first book in English to provide an in depth introduction to the Christian theosophic tradition that began with Jacob Boehme Wisdom's Children brings us into a startling new world of experiential spirituality that is in fact the Christian equivalent of Sufism and Kabbalism With biographic introductions to major theosophers and detailed discussions of theosophic authors such as John Pordage Jane Lead Dionysius Freher and Johann Gichtel as well as a survey of their major theosophic cosmological and metaphysical teachings this book is an indispensable guide to the hidden history of Protestantism and its ramifications today With chapters discussing theosophy in relation to Gnosticism magic astrology alchemy and other Western esoteric traditions

Wisdom's Children is situated solidly in its historical context using primary works from the tradition itself. The book also provides unexpected insights into how this modern gnostic tradition speaks to us today and suggests how this tradition could spark a new Renaissance to link spirituality, the arts, and the sciences in a new and encompassing vision. *Like Season'd Timber* Edmund Miller, Robert DiYanni, 1987. *Like Season'd Timber* explores new areas for the study of George Herbert. Essays offering new light on Herbert's biography and his relation to the arts are followed by studies of the less familiar works and of Herbert's relation to his poetic contemporaries. The last section of the book explores Herbert's influence on a number of major writers since the revival of interest in the early nineteenth century. Contributors include such major scholars of seventeenth-century literature as Joseph Holmes, Summers, Jerome Mazzaro, and the late Amy M. Charles, and also a range of younger scholars with specialized backgrounds in the subjects of their particular essays. *The Emblem in Early Modern Europe* Peter M. Daly, 2016-12-05. The emblem was big business in early modern Europe, used extensively not only in printed books and broadsheets but also to decorate pottery, metalware, furniture, glass, and windows, and numerous other domestic, devotional, and political objects. At its most basic level, simply a combination of symbolic visual image and text, an emblem is a hybrid composed of words and picture. However, as this book demonstrates, understanding the precise and often multiple meaning, intention, and message emblems conveyed can prove a remarkably slippery process. In this book, Peter Daly draws upon many years' research to reflect upon the recent upsurge in scholarly interest in, and rediscovery of, emblems following years of relative neglect. Beginning by considering some of the seldom-asked but important questions that the study of emblems raises, including the importance of the emblem, the truth value of emblems, and the transmission of knowledge through emblems, the book then moves on to investigate more closely focussed aspects such as the role of mnemonics, mottoes, and visual rhetoric. The volume concludes with a review of some perhaps inadequately considered issues such as the role of Jesuits, who had a role in the publication of about a quarter of all known emblem books, and questions such as how these hybrid constructs were actually read and interpreted. Drawing upon a database containing records of 6,514 books of emblems, and impressing this study suggests new ways for scholars to approach important questions that have not yet been satisfactorily broached in the standard works on emblems. *Dialogue*, 1994. A journal of Mormon thought. *The Chemical Choir* P. G. Maxwell-Stuart, 2012-03-01. **An Introduction to the Symbolic Literature of the Renaissance, Journal for the Academic Study of Magic 2** Dave Evans, Various, 2004-05. This volume is a multidisciplinary peer-reviewed print publication covering all areas of magic, witchcraft, paganism, and all geographical regions and all historical periods.
