The essays in *Discourses of Cultural China in the Globalizing Age* examine the discourses of Cultural China from a glocalization perspective and attempt to understand contemporary Cultural China by recording describing and explaining its current discourses. The book also analyses how the interpretation of Cultural China is connected with its past and how its discourses are reconstructed with those of other cultures in the age of accelerated globalization. The chapters here provide fresh empirical data and thought provoking assessments of current discursive patterns in the Greater China region. This book is the second title in the *Studying Multicultural Discourses* series which promotes a new multiculturalist orientation in discourse studies. *Discourses of Cultural China in the Globalizing Age* is ideal for students researchers and scholars who would like to know more about the discursive practice and changes in one of the fastest growing regions in the world.
