beginning of time physical and human processes have altered British Columbia's landscape. Geographers seek to understand these processes and this text provides students with the basic tools and techniques of their craft. Completely revised and expanded for the 2020s, the fourth edition of *Geography of British Columbia* contains extensive urban content to reflect BC's transition from a resource dependent economy to a more service oriented one. It presents ideas and concepts in a clear and concise way, includes a comprehensive glossary of key terms, has more than 125 informative maps, diagrams, graphs, tables and photos, includes suggested readings and discussion questions for each chapter. In an era of climate change, it is more important than ever to understand the complex interaction between human influence on the landscape and the earth's ever changing physical processes. This book provides students with the tools, techniques and knowledge they'll need. *The Alpine Journal*, 1925

**British Canada at 150 years: 1867-2017** Mike Fletcher, 2017-01-11 British Canada at 150 Years 1867-2017 explores the formation of Canada and its British Heritage. It includes over 25 Frontier Era black and white photographs and lists many important places by Province and Territory that would appeal to readers or visitors who are interested in Canada's heritage. After Mike lived in the Prairie Provinces where he collected photographs from the archives of Indian, Inuit and the early pioneers' ways of life, he wanted to explore the strong British connection to the heritage of Canada. The book explains that there are 6 key stages of commitment and enterprise that have been noted throughout the Frontier Era, which resulted in the making of Canada into a nation. These include visionaries, investors, frontiersmen and women, First Nations guides, pioneers and business innovators. While the focus is on significant and interesting stories about Canada, there is also a strong recognition in most of the chapters of the role that people born in Britain and Ireland had in the growth of the second largest country in the world, which was accomplished in cold and harsh frontier conditions, which are not experienced by many other places.

**Country Roads of British Columbia** Liz Bryan, 2011-02-01 Join Liz Bryan on 18 picturesque journeys through the diverse landscapes of the British Columbia Interior. Winding through sagebrush and forest, grassland plateaus and mountain valleys beside river canyons and multicoloured volcanic rocks, these road trips reveal the rich variety of the province's geology and natural history and show how the strands of human history are closely interwoven with the land. First Nations fur traders, explorers, gold miners, ranchers and homesteaders all have left their mark. *Country Roads of British Columbia* is an invitation to celebrate the province's scenic heartland and to learn a little of the history of this westernmost province. Driving instructions and maps complement the text, and Bryan's colour photographs show just how beautiful British Columbia is.

*Vanishing British Columbia* Michael Kluckner, 2011-11-01 The old buildings and historic places of British Columbia form a kind of roadside memory a tangible link with stories of settlement change and abandonment that reflect the great themes of our history With small towns declining and old rural properties changing so little of the history of these places has been recorded in museums or archives and so much of it may disappear as families disperse and memories dim More than a decade ago Michael Kluckner began painting these dots on his personal map of the province in a watercolour sketchbook In 1999 after he put a few of the sketches on his website a network of correspondents emerged that eventually led him to the family letters photo albums and memories all from a disappearing era of the province *Vanishing British Columbia* is a record of these places and the stories they tell It combines engaging and insightful historical commentary with over 160 of the author's original paintings It has an exceptional assortment of historic imagery including old postcards architectural plans and photographs The study of roadside memory demonstrates the visceral connection that people especially those who are part of the rural to urban diaspora of modern times have for the sites of their family memories On a grander scale this approach leads to a broader understanding of more abstract historical themes and of the province's history and culture It also presents a compelling argument for stewardship of regional history in the face of urbanization and globalization
