Beckett, Derrida, and the Event of Literature Asja Szafraniec, 2007 The late Jacques Derrida's notion of literature is explored in this new study Starting with Derrida's self-professed inability to comment on the work of Samuel Beckett whom Derrida nevertheless considered one of the most interesting and exemplary writers of our time Asja Szafraniec argues that the shared feature of literary works as Derrida understands them is a double juridical economical gesture and that one aspect of this notion the juridical is more hospitable to Beckett's oeuvre than the other She then discusses other contemporary philosophical approaches to Beckett including those of Gilles Deleuze Stanley Cavell and Alain Badiou The book offers an innovative analysis of Derrida's approach to literature as well as an overview of current philosophical approaches to contemporary literature and a number of innovative readings of Beckett's work

Structures of Memory Jennifer A. Jordan, 2006 Structures of Memory turns to the landscape of contemporary Berlin particularly places marked by the presence of the Nazi regime in order to understand how some places of great cruelty or great heroism are forgotten by all but eyewitnesses while others become the site of public ceremonies museums or commemorative monuments

The Material Image Brigitte Peucker, 2007 Focusing on intermediality The Material Image situates film within questions of representation familiar from the other arts What is meant by figuring the real How is the real suggested by visual metaphors and what is its relation to illusion How is the spectator figured as entering the text and how does the image enter our world The film's spectator is integral to these concerns Cognitive and phenomenological approaches to perception alike claim that spectatorial affect is real even when it is film that produces it Central to the staging of intermediality in film tableaux moments in film also figure prominently in the book Films by Scorsese Greenaway Wenders and Kubrick are seen to address painterly photographic and digital images in relation to effects of the real Hitchcock's films are examined with regard to modernist and realist effects in painting Chapters on Fassbinder and Haneke analyze the significance of tableau for the body in pain while a final chapter on horror film explores the literalism of psychopathic tableau Here too art and the body images and the real are juxtaposed and entwined in a set of relations

The Aesthetic Paths of Philosophy Alison Ross, 2007 Ross argues that the thinking of Heidegger Lacoue Labarthe and Nancy must be understood as ways of addressing the problem of presentation as framed by and inherited from Kant's Critique of Judgment

Deleuzian Concepts Paul Patton, 2010-05-19 Patton's book is an important and innovative contribution to Deleuze studies and to contemporary debates in philosophy and

the humanities His arguments are convincing and stimulating they open the way for a new and sober reading of Deleuze and bring him into dialogue with the tradition of political liberalism and pragmatism His use of the concept of the event to understand the history of colonization gives the reader a compelling example of what the political function of philosophy is or could be Paola Marrati The Johns Hopkins University Book Jacket *Mediated Memories in the Digital Age* José van Dijck,2007 This book studies how our personal memory is transformed as a result of technological and cultural transformations digital photo cameras camcorders and multimedia computers inevitably change the way we remember and affect conventional forms of recollection **The Unthought Debt** Marlène Zarader,2006 Drawing on Heidegger s corpus the work of historians and biblical specialists and contemporary philosophers like Levinas and Derrida Zarader brings to light the evolution of an impens or unthought thought that bespeaks a complex debt at the core of Heidegger s hermeneutic ontology Zarader argues forcefully that in his interpretation of Western thought and culture Heidegger manages to recognize only two main lines of inheritance the Greek line of philosophical thinking and the Christian tradition of faith From this perspective Heidegger systematically avoids any explicit or meaningful recognition of the contribution made by the Hebraic biblical and exegetical traditions to Western thought and culture Zarader argues that this avoidance is significant not simply because it involves an inexcusable historical oversight but more importantly because Heidegger s own philosophical project draws on and develops themes that appear first and fundamentally within the very Hebraic traditions that he avoids betraying an unthought debt to Hebraic tradition *The Honor of Thinking* Rodolphe Gasché,2007 The Honor of Thinking evaluates the concepts and discourses of critique theory and philosophy in light of the exigencies of what Martin Heidegger and the French post Heideggerian thinkers have established about the nature and the tasks of thinking Urbanisation, Citizenship and Conflict in India Tommaso Bobbio,2015-06-19 Urbanisation is rapidly changing the geographic and social landscape of India and indeed Asia as a whole Issues of collective violence urban poverty and discrimination become crucial factors in the redefinition of citizenship not only in legal terms but also in a cultural and socio economic dimension While Indian cities are becoming the centres of a culture of exclusion against vulnerable social groups a long term perspective is essential to understand the patterns that shaped the space politics economy and culture of contemporary metropolises This book takes a critical longer term view of India s economic transition The idea that urban growth goes hand in hand with the modernisation of the country does not account for the fact that increasingly higher portions of the urban population are comprised of lower income groups casual labourers and slum dwellers Using the case study of Ahmedabad this book investigates the history of city and of its people over the twentieth century It analyses the contrasting relationship between urban authorities and the inhabitants of Ahmedabad and examines instances of antagonism and negotiation amongst people groups and between the people and the public authority that have continuously shaped transformed and redefined life in the city This book offers an important tool for understanding the bigger context of the conflicts the social and cultural issues that

accompanied the broader process of urbanisation in contemporary India It will be of interest to scholars of Urban History studies of collective violence and South Asian Studies *Romanticism After Auschwitz* Sara Emilie Guyer,2007 Romanticism After Auschwitz reveals how one of the most insistently anti romantic discourses post Holocaust testimony remains romantic and proceeds to show how this insight compels a thorough rethinking of romanticism The Belated Witness Michael G.
