Royal Commission Provincial Economic Inquiry, 1934 *The State and Economic Knowledge* Mary O. Furner, Barry Supple, 1990-08-31 This book addresses an important but inadequately recognized dimension of the activities of the modern state the role it plays in producing the theoretical and practical knowledge necessary for economic policy making Over time governments in modern societies have assumed the ultimate responsibility for ensuring the economic well being of their citizens and for protecting their competitive positions in the international economy To perform their various coordinating functions effectively and to maintain legitimacy governments have found it necessary to rely on accurate information regarding economic conditions and trends and on empirically based theories or models that allow officials to anticipate the economy's performance under specified conditions The traditional assumption which this collection of essays challenges is

that despite this profound dependence governments have generally acted as passive consumers of whatever ideas economists in the private sector and professions had to offer This book brings together papers that reveal the ways in which modern states have helped to generate new economic knowledge and how that process interacts with economic changes specific political institutions and ideological contexts **Bulletin of the British Library of Political and Economic Science** British Library of Political and Economic Science,1913 **Corporate Control** Nora Loreto,2025-05-06 How deep does corporate dominance go in Canada The second book in Nora Loreto s landmark series dives into the corporate web spun around Canada s economy society and politics The joke goes that Canada is three mining companies in a trench coat Or three oil companies in a trench coat Or three telecom companies in a trench coat It s funny because it s almost true a handful of corporations exert a disproportionate amount of power over Canadian democracy Corporate profits are at a record high and the divide between the rich and the poor has never been wider Canadians are struggling with affordability the housing crisis and wages that don t cover basic needs The combination of these forces is a pressure cooker that politicians have promised to tackle except they can t they are too restricted by corporate power to confront the roots of the problems Canadians face The first book in the Canada in Decline series examines the rise and fall of Canada s social safety net In this next volume Loreto goes further identifying why Canadian politicians seem impotent in the face of corporate Canada **The Impact of Political Economy** Piet Naudé,Michael Welker,John Witte Jr.,2023-06-23 In our late modern pluralistic societies there are tensions and complementarities between a plurality of individual and social claims and activities to shape societal life and a constructive pluralism of what is known as social systems The latter provide normative codes and powers emanating from the areas of law religion the family the market the media education academic research health care defense and politics A better understanding and steering of this complex division of powers is crucial for the common good and for freedom and peace In this volume a multi disciplinary team of experts from Germany Italy Australia the UK the USA and South Africa bring their conceptual empirical and historical insights to bear in three broad sections The moral dimension of social systems The interaction of religion law and education with political systems and The moral mal formation evident in case studies on the global financial crisis and social media **Agricultural Economics Literature** ,1941 Public and Private Enforcement of Securities Laws Michael Legg,2022-02-10 This book undertakes unique case studies including interviews with participants as well as empirical analysis of public and private enforcement of Australian securities laws addressing continuous disclosure Enforcement of laws is crucial to effective regulation Historically enforcement was the province of a government regulator with significant discretion public enforcement However more and more citizens are being expected to take action themselves private enforcement Consistent with regulatory pluralism public and private enforcement exist in parallel with the capacity to both help and hinder each other and the achievement of the goals of enforcement in a range of areas of regulation The rise of the shareholder class action in Australia backed by litigation funding or lawyers has given rise to enforcement overlapping
