Volume II Martin Bernal,2020-02-14 Winner of the 1990 American Book Award What is classical about Classical civilization In one of the most audacious works of scholarship ever written Martin Bernal challenges the foundation of our thinking about this question Classical civilization he argues has deep roots in Afroasiatic cultures But these Afroasiatic influences have been systematically ignored denied or suppressed since the eighteenth century chiefly for racist reasons The popular view is that Greek civilization was the result of the conquest of a sophisticated but weak native population by vigorous Indo European speakers Aryans from the North But the Classical Greeks Bernal argues knew nothing of this Aryan model They did not see their institutions as original but as derived from the East and from Egypt in particular In an unprecedented tour de force Bernal links a wide range of areas and disciplines drama poetry myth theological controversy esoteric religion philosophy biography language historical narrative and the emergence of modern scholarship This volume is the second in a three part series concerned with the competition between two historical models for the origins of Greek civilization Volume II is concerned with the archaeological and documentary evidence for contacts between Egypt and the Levant on the one hand and the Aegean on the other during the Bronze Age from c 34000 BC to c 1100 BC These approaches are supplemented by information from later Greek myths legends religious cults and language The author concludes that contact between the two regions was far more extensive and influential than is generally believed In the introduction to this volume Bernal also responds to some reviews and criticism of Volume I of Black Athena Prehistoric Belief Mike Williams,2011-11-08 Unlike modern people those in prehistory were adept at entering trance what we now call shamanism This gave access to alternative realms where people met and befriended entities that they thought of as spirits To the people of the past the otherworld of trance and the spirits that resided there were as real to them as anything else they encountered Until recently this otherworldly realm was closed to archaeology there was no way to reconstruct ancient thought This changed with the advent of modern neurology For the first time we can now enter the minds of those who lived thousands of years ago and begin to unravel their lives the world as they would have believed it to be In this bold and groundbreaking book Dr Williams tackles all the big subjects in archaeology the spread of humans from Africa the rise of social groups the adoption of agriculture the construction of monuments the emergence of metal and the fall of the Celtic tribes Showing that belief was

central to these epic changes as well as influencing the most mundane everyday task a new understanding of our prehistoric past emerges Whilst being extensively researched a fast paced and engaging narrative makes this a page turning read Evocative vignettes supplement the text and take readers back in time to experience for themselves the sights smells and sounds of the past This is a new way to approach prehistory putting people and the beliefs that they held centre stage For without understanding people s beliefs we will never comprehend their world Eat Not this Flesh Frederick J.

Simoons,1994 Examines the use and avoidance of flesh foods including beef pork chicken and eggs camel dog horse and fish from antiquity to the present day Simoons finds that the recurrent theme of maintaining ritual purity good health and well being underlies diet habits He emphasizes that only a full range of factors can explain eating patterns and stresses the interplay of religious moral hygienic ecological and economic factors in the context of human culture From publisher description Mythic Discourses Frog,Anna-Leena Siikala,Eila Stepanova,2012-12-31

Mythic discourses in the present day show how vernacular heritage continues to function and be valuable through emergent interpretations and revaluations At the same time continuities in mythic images motifs myths and genres reveal the longue dur e of mythologies and their transformations The eighteen articles of Mythic Discourses address the many facets of myth in Uralic cultures from the Finnish and Karelian world creation to Nenets shamans offering multidisciplinary perspectives from twenty eastern and western scholars The mythologies of Uralic peoples differ so considerably that mythology is approached here in a broad sense including myths proper religious beliefs and associated rituals Traditions are addressed individually typologically and in historical perspective The range and breadth of the articles presenting diverse living mythologies their histories and relationships to traditions of other cultures such as Germanic and Slavic all come together to offer a far richer and more developed perspective on Uralic traditions than any one article could do alone **Books on Asia from the Near East to the Far East**

Eleazar Birnbaum,1971-12-15 This is a selected annotated list of some 2 000 books on Asia in English and French currently in print chosen with the aim of providing a long term historical perspective for the general reader The list is presented in four main parts Asia as a whole the Islamic world India South and Southeast Asia the Far East Subdivisions cover such topics as general and reference works history social science and law history of literature literature in translation religion and ideas arts crafts architecture and science and the lands in modern times **From Scythia to Camelot** C. Scott

Littleton,Linda A. Malcor,2013-10-23 This volume boldly proposes that the core of the Arthurian and Holy Grail traditions derived not from Celtic mythology but rather from the folklore of the peoples of ancient Scythia what are now the South Russian and Ukrainian steppes Also includes 19 maps Atheism as a Positive Social Force Raymond W. Converse,2003

Recent disasters have raised new questions concerning the role of religion in society Converse does not oppose religion per se he outlines the growth of religion from a modern historical perspective and shows how atheism can be applied as a positive alt **The Elder Pliny on the Human Animal** Pliny (the Elder.),2005-03-17 Publisher description **Black**

Athena Martin Bernal, 1987 What is classical about Classical civilization In one of the most audacious works of scholarship ever written Martin Bernal challenges the whole basis of our thinking about this question Classical civilization he argues has deep roots in Afroasiatic cultures But these Afroasiatic influences have been systematically ignored denied or suppressed since the eighteenth century chiefly for racist reasons Volume II is concerned with the archaeological and documentary evidence for contacts between Egypt and the Levant on the one hand and the Aegean on the other during the Bronze Age from c 3400 B C to c 1100 B C

Rgvedic Society Enric Aguilar I Matas, 2023-11-27 It is generally supposed that the Vedic tradition emerged from certain Brahmanic circles of poets priests and theoreticians who depended economically very much on a kind of pastoral aristocracy As against this point of view the book maintains the theory that the Vedic tradition was mainly connected with the warrior world in particular with certain groups of seers that surrounded the warrior chiefs called sris and strongly opposed the pastoral aristocracy and their priesthood What emerges from this approach is that the Vedic tradition in spite of its apparent unity of themes images and even sentences is not a tradition based on consensus or on a harmonious development of thought from one end to the other but rather a tradition that reveals a troubled background a background of passionate rivalries The book reconsiders the debate surrounding the antagonistic ideologies of pastoral and agricultural peoples and represents a new contribution to the discussion about similarities and differences between the Iranian and the Indo Aryan cultures

A History of Christianity in Asia, Vol. I Samuel Hugh Moffett, 2014-07-30 The story of Christianity in the West has often been told but the history of Christianity in the East is not as well known The seed was the same the good news of Jesus Christ for the whole world which Christians call the gospel But it was sown by different sowers it was planted in different soil it grew with a different flavor and it was gathered by different reapers It is too often forgotten that the faith moved east across Asia as early as it moved west into Europe Western church history tends to follow Paul to Philippi and to Rome and on across Europe to the conversion of Constantine and the barbarians With some outstanding exceptions only intermittently has the West looked beyond Constantinople as its center It was a Christianity that has for centuries remained unashamedly Asian A History of Christianity in Asia makes available immense amounts of research on religious pluralism of Asia and how Christianity spread long before the modern missionary movement went forth in the shelter of Western military might Invaluable for historians of Asia and scholars of mission it is stimulating for all readers interested in Christian history
