Royal Marine Commando In Action:

Lethal Shot Robert Driscoll, 2019-05-30 Rob Driscoll former sergeant with 42 Commando Royal Marines served tours in Iraq Kuwait and Kosovo A born leader of fighting men he also endured three tours in Afghanistan The third of those will go down in history as one of the UK military's darkest hours for it marked the first time a British serviceman has been tried for a murder on the battlefield since the Second World War That man was Marine A Sergeant Alexander Blackman Rob Driscoll's friend and fellow NCO in 42 Commando and on the day in question they were commanding patrols within a few hundred yards of each other Few men know what really went on that day in Helmand Province Rob Driscoll is one and like Blackman knew only too well the privations and frustrations of fighting an ubiquitous and tenacious enemy without sufficient resources and support Yet Lethal Shot is more than a compelling insight into one of the most controversial and divisive cases in recent military history It is a clear eyed account of life on active service with the Royal Marines of incursions into war torn countries where chaos and anarchy ruled and of men risking their lives daily only too often to find that they would not be backed up by politicians at home In charting its author's career as a Royal Marine Commando it unflinchingly demonstrates the real life horrors of engaging at close quarters with enemies such as the Taliban Rob Driscoll received a Mention in Despatches for his last tour of Afghan the citation reading He never bows to fatigue or danger and there is no doubt that his remarkable acts of selflessness saved a number of lives for which he deserves significant formal recognition

The Green Beret: The Story Of The Commandos, 1940-1945 Lt. Hilary St. George Saunders, 2016-01-18 I am not worried about the fighting I know you re fairly bloody minded But I want to speak of discipline during the battle You must get ashore if you have to swim and I hope some of you will return as you ll be very useful for the next show The words of a Commando officer to his men before they stormed the beaches of Sicily under heavy machine gun fire sum up the swashbuckling devil may care spirit of the toughest fighting men produced the Commandos For their raids and battles far behind enemy lines in France North Africa Sicily Italy and Burma the men in the Green Beret have become a legend This book shows how this legend was forged

When Shall Their Glory Fade? James Dunning, 2011-04-11 Written by a Commando veteran of World War II this is a remarkable vivid and honest account of the battles and actions behind the award of the thirty eight Battle Honours that were awarded to the Army Commandos by Her Majesty the Queen in 1958 These Battle Honours are emblazoned on the Commando Flag that hangs in Westminster Abbey in London almost opposite the tomb of the Unknown Warrior The story of each honour is presented in the most direct way using the stories and experiences of the commandos officers and men who actually took part in the fighting It should be emphasised that the operations mentioned as battle honours recognised only those deemed to be thoroughly outstanding feats of arms and represent only a fraction of the raids and battles fought by the Commandos in their five years of active service The formation of the Commandos was due to Winston Churchill who proposed their formation in a directive dated 18 June 1940 which advocated limited offensive action against the enemy s extended and vulnerable coastline This compilation includes photographs of training and combat in Norway Dieppe Normandy Flushing and many more locations

True Stories Of The Commandos Robin Hunter, 2013-03-31 Raised in the dark post Dunkirk days of 1940 to carry the war to the enemy in five short and violent years the British Army Commandos established a reputation that has made the name Commando the mark of the fighting man The Commandos began as small scale raiders but their operations grew in size and destruction as the war progressed until in the end there were four full Commando Brigades superb units which fought in every theatre of war from Norway to Burma from the coast of France to the islands of Yugoslavia The Commandos were disbanded in 1945 46 but reformed in the 1970s and in 1982 about 1000 army Commandos set sail to fight in the Falklands War The long and proud history of the army contains accounts of many fine and distinguished units but few can equal and none exceed the story of the British Army Commandos

Voices of Victory Geraint Jones,2025-04-24 Enthralling and enlightening A wonderful look into the personal experiences that heart and soul of the fighting soldier towards the end of the Second World War John Nichol Sunday Times bestselling author of *The Unknown Warrior* From the bestselling author of *D Day The Unheard Tapes* comes a revealing new history of the final bloody battles against Nazi Germany Published for the 80th anniversary of VE Day and based on audio interviews with those who fought their way to victory this is a compelling and immersive account of a crucial period in the Second World War February 1945 Eight months have passed since the D Day landings when the Allies gained their foothold in North West Europe Since then the British Army has fought near continuously against the German military Now they stand ready for their final test the battle for the German homeland Drawing on the sound archive of the Imperial War Museums and other personal accounts military historian Geraint Jones brings this this often overlooked period of the war vividly to life in the words of British soldiers who were there from war weary men who have survived many months of combat to new recruits facing Hitler s fanatics for the first time In *Voices of Victory* we join the soldiers battling to break through the Siegfried Line and clear the Reichswald forest where fighting was from one tree to the next At the crossing of the Rhine we go into action with the commandos and jump behind enemy lines with the Paras We are taken into the horror of Belsen when the concentration camp is liberated hear from the witnesses of the forgotten battles of April and end the war deep in Germany with victory in Europe **Up Close and Personal** David Lee,2006-04-01 An in depth analysis of what it was really like to fight at the sharp end in every theater of the Second World War from the author of *Beachhead Assault* In 1947 US General S L A Marshall controversially wrote that out of every one hundred combat soldiers only fifteen to twenty five actually fired their weapons at

the enemy because of the innate human reluctance to take another's life. Others maintained the opposite view that soldiers enjoyed killing. David Lee demonstrates that the situation was far more complex than either of these positions, arguing that the crucial factor for a unit's success in battle was the type of training it received. To illustrate this, Lee covers actions from each theater of the war in depth and with comprehensive coverage of weapons and tactics. First there is the story of what happened when a battalion of British soldiers trained in the traditional manner came up against the Waffen SS whose training was formidable and bore close resemblance to the Commandos. The success of No 4 Commando at Dieppe is covered to show how this was put into effect. For the desert war there is a detailed look at how a rifle battalion held the sniper position against overwhelming odds and how that same battalion was virtually wiped out when it later went to Italy. For the Far East, Lee explains how hatred of the Japanese Army gave impetus to British soldiers fighting at Kohima and American soldiers at Iwo Jima. And finally there is the story of one US infantry regiment on D Day.

The Routledge Atlas of the Second World War Martin Gilbert, 2014-03-05. In *The Routledge Atlas of the Second World War*, Martin Gilbert graphically charts the war's political, military, economic, and social history through 247 maps. Each map has been specially drawn for this atlas, many of them covering topics that have not previously been mapped. The atlas covers all the major events from the German invasion of Poland in September 1939 to the defeat of Japan in August 1945, including the Blitz, the Fall of France, Pearl Harbor, the naval Battles of the Atlantic, the Indian Ocean, and the Pacific, Dieppe, Stalingrad, Midway, the Normandy Landings, the bombing of Warsaw, London, Coventry, Hamburg, Dresden, Tokyo, Hiroshima, and Nagasaki, the Burma Railway, concentration camps, and slave labour camps, and prisoner of war camps in Europe, the Americas, and the Far East. Focusing on the human and inhuman aspects of the war, *The Routledge Atlas of the Second World War* includes examination of military, naval, and air campaigns on all the war fronts: the war on land, at sea, and in the air. The economic and social aspects of the war, the global nature of the war in armed combat and in suffering, the impact of the war on civilians both under occupation and as deportees and refugees, the aftermath of the war, the post-war political and national boundaries, war graves, and the human cost of the war on every continent.

Commando Tactics Stephen Bull, 2011-06-13. British commandos are among the most celebrated soldiers of the Second World War. Their daring, ingenuity, and bravery have given rise to an almost legendary reputation that makes it difficult to appreciate fully their role and their true value as fighting men. Stephen Bull, in this in-depth study of commando tactics and history, seeks to dispel the myths and the misunderstandings that surround them and he places these elite troops of 70 years ago in the context of their times. He also demonstrates that the idea of the commando took time to develop and that commando operations were far from always successful. Commando tactics, amphibious, mountain, close quarter, were forged through the often painful experience of raids and combined operations. And commando tactics and organization remained in a state of flux throughout the war as new situations and challenges arose. Stephen Bull's vivid account will be essential reading for anyone who is interested in commando fighting techniques and the early history of
