British Steam Military Connections: London,

Midland and Scottish Railway Steam Locomotives Keith Langston, 2019-08-30 This British Railways history explores the long held tradition of naming steam locomotives in honor of the military The naming of steam locomotives was a beloved British tradition since the first railway locomotives appeared in 1804 Many of the names were chosen in honor of military personnel regiments squadrons naval vessels aircraft battles and associated historic events This volume looks specifically at the steam locomotives with military inspired names that were built by the London North Eastern Railway which joined the British Railways stock in 1948 A large number of the company's Jubilee class locomotives were given names with a military connection as were a small number of Black Five class engines Famously the majority of the much admired Royal Scot class of engines carried names associated with the military in general and regimental names in particular Many of the nameplates were adorned with ornate crests and badges Long after the demise of mainline steam rescued nameplates have become prized collectors items This generously illustrated publication highlights the relevant steam locomotives and explains the origins and social history surrounding their military names *LMS/BR Class 7 4-6-0 Rebuilds* David Clarke, 2014-02-28 A comprehensive look at the LMS BR Class 7 4 6 0 rebuilt locomotives including the rebuilt Jubilees the rebuilt Patriots and the rebuilt Royal Scots The book includes hundreds of photographs and feedback from the original crews that operated the engines Contents include Origins of the rebuilt Class 7s in the 1940s and the design of the 2A boiler Differences between the classes Liveries names and name plates Detailed allocation tables Rebuilt Class 7s to the rescue the severe winter of 1962 3 Decline of the Class 7s and withdrawal in the 1960s Preservation of the Class 7 rebuilds Essential reading for all locomotive enthusiasts illustrated with 240 colour photographs and includes feedback from the original crews Britain's Railways Through the Seasons David Goodyear, 2023-01-31 The four seasons pass by like a gliding ship each signalled by a transformation of changing colors and hues of light thus providing a form of marker to these passages of time Living in the temperate zone we experience four distinct seasons The railway scene reflects such in its own special character cold winter air enhances the bountiful steam escaping from the hissing steam locomotive impatiently awaiting its departure while autumn enchants with trees that exude a variety of hues which embellish any image of even the most mundane suburban train Springtime blossom and wild flowers bestow railway cuttings with a bounty of generous bright colors while coastal railways often look most inviting on warm sunny days as they pass alongside azure seas and golden beaches The seasons each add their own dimension for the photographer to encapsulate and railways passing through the ever changing landscape provide their own tribute to this inspirational tapestry As readers travel through each season so they are invited to share this awe and constant source of inspiration from nature's kaleidoscope of color Photographs are provided with captions

and reflective commentary to enlighten the knowledgeable rail enthusiast alongside those who equally enjoy such a portrait of landscape and scenery through the seasons The range of photographs ranges from the mid 1980 s to the present with the majority from the last two decades

LONDON MIDLAND & SCOTTISH Bill Horsfall,2014 The London Midland Scottish Railway the LMS Great Britain s largest from 1923 1947 has been extensively chronicled but an update is long overdue This unique work achieves it and much more combining detailed information scattered over books and magazines through decades into a concise overview of what the company was about and how it worked Its analyses of locomotive stock provide a further insight into methods of operation The LMS pioneering work in both steam and diesel traction plus that in other fields put it ahead of Britain s other three railways and for this it is here accorded the recognition it deserves Fascinating amusing anecdotes give an insight into the staff s work ethic and into contemporary social conditions Key decisions by the LMS Executive to overcome the rivalry of its two largest constituents resulted in the appointment of an engineer who would create not only modern efficient locomotives and rolling stock but also an effective and unified design team which would actually outlive the company and provide the spine of the four nationalized railways from 1948 The technical details such as wheel notation 4 4 0 etc boiler pressures and valve gears are well within the ambit of railfans and complete the picture of this Britain s greatest railway
