Royal Image:

The Royal Image Thomas N. Corns, 1999-06-28 This volume deals with the crisis in the representation of the monarchy that was provoked by the execution of Charles I

The Royal Image and the English People Nicola Smith, 2017-07-12 This title was first published in 2001 For the English people the image of the monarchy is deeply bound up with the idea of nationhood This book surveys aspects of England's royal heritage dialogue from the late middle ages to the 19th century It concentrates on monumental sculpted portraits because that was the way in which the image of the monarchy was customarily presented in the most immediate and permanent form at large scale in the public arena The aim of such memorials was to consolidate and commemorate shared loyalties and beliefs focusing on the monarchs They were sometimes protected by railings more often than just by their talismanic value There was widespread resistance to the idea that Oliver Cromwell should be commemorated by public memorial The English generally remained uncomfortable with the idea of republicanism The monarchical government of the middle ages thought to be sanctioned by God was very different from the figurehead the monarchy has become

Tudor Political Culture Dale Hoak, 2002-06-20 This book consists of twelve interdisciplinary essays on the ideas images and rituals of Tudor and early Stuart society Through the exploitation of new manuscript material or hitherto untapped artistic sources the authors open up new perspectives on the ideas institutions and rituals of political society The evidence of art and literature and new techniques for the discovery of lost mentalities are used to explore key aspects of Tudor political culture including royal iconography funereal symbolism parliamentary elections political vocabularies kinship and family at court and in the country and the architecture of urban authority In his Introduction the editor uses the example of Henry VIII's historic break with Rome to suggest the seamless links between politics and political culture by presenting it against the backdrop of early Tudor memories of Henry V the cult of chivalry and the invasion of France 1513 and the pre Reformation imagery of imperial kingship

Six Renaissance Men and Women Elisabeth Salter, 2018-01-18 The English Renaissance is frequently defined in the context of the Elizabethans and early Stuarts but here we focus on the early Renaissance and the important cultural transitions of the late medieval early Tudor period In this innovative study Elisabeth Salter reconstructs the lives and experiences of six men and women of the early Renaissance and leads us on a quest to reconstruct their lost cultural worlds The six men and women are all figures from the margins of the royal courts during the reigns of Henry VII and Henry VIII Gilbert Banaster present at the court of Henry VII in the guise of writer and musician The Anonymous Witness spectator to the marriage of Prince Arthur and Katherine of Aragon William Cornish playwright and musician at Henry VIII's household Elizabeth Philip silk trader to the royal court Dame Katherine Styles whose biography is recreated through her will and William Buckley Educator and Schoolmaster to King Edward VI Salter presents an exemplary model of how it is possible to reconstruct biography from sometimes fragmentary sources The connections drawn between these six individuals display ample evidence for the cultural

innovation and sophistication of these courts in terms of pageantry music the visual arts fashions in luxury consumption scientific discovery and literary invention When all six lives are added together as a whole the book will lead the reader to a richer understanding of the cultural context of the early English Renaissance *The Construction of the Assyrian Empire* S. Yamada,2021-10-01 In numerous ambitious expeditions Shalmaneser III of Assyria 859 824 lay the foundation of the subsequent remarkable military advance to the West of the Neo Assyrian empire While systematically scrutinizing and analyzing all accounts of these western campaigns Shigeo Yamada not only discusses the historiographical problems encountered together with their impact on the jigsaw of ninth century Ancient Near East history but also offers new results and an original historical reconstruction Ample attention is given to the campaigns economic and ideological aspects The book will serve as a useful reference for all students interested in Assyrian historiography and the history of Assyria and Syria Palestine It includes an appendix on a new edition of the Kurkh Monolith based on the author s collation Mortals, Deities and Divine Symbols: Rethinking Ancient Images from the Levant to Mesopotamia Benjamin Sass,Laura Battini,2025-05-29 Dedicated to Tallay Ornan a scholar distinguished in ancient Western Asian iconographic studies It is divided into her major themes New Discoveries and Approaches The Human World The Divine World This discusses iconological and textual problems in a chronological span from the third to first millennia BCE **Tales of Royalty** Elisabeth Wagner-Durand,Julia Linke,2020-07-20 The volume sheds light on Ancient Near Eastern kingship by focusing on its constant urge for legitimation Thus it highlights specific aspects like royal building activities warfare and wisdom and frames these into material and textual expressions that take the powerful form of narratives The contributions made in this volume look for specific topoi of kingship and examine which shapes they took and why The publication determines which narrative topoi have once been selected to legitimize kingship which media have been chosen to transmit these narratives and what kind of narrative strategies have been applied To consider both texts and images in the same margin the book is based on a dual approach referring to certain narrative themes both philological and archaeological material will be presented By joining diverse perspectives of scholars of material culture and texts and their various approaches the publication promises new and special insight into the connection of narration and legitimation in Mesopotamia It reflects Ancient Near Eastern kingship and its narrative strategies from a interdisciplinary and transmedial point of view and gives new insights into the matter of royal legitimation **Royal Imagery in Medieval Georgia** Antony Eastmond,2010-11-01 Initially the book traces the production and interpretation of royal imagery over three centuries from the revival of the Georgian monarchy in the ninth century to its culmination in the reign of Queen Tamar 1184 1213 on the eve of the Mongolian invasions Specifically the book concentrates on the five surviving images of Queen Tamar These portraits provide untapped evidence of the ways in which artistic traditions were transformed by the need to legitimize the accession of a woman to power Eastmond also challenges the typically held view that the role of patronage in the functioning and development of royal imagery was

centrally controlled He proposes instead that it was manipulated by members of the court to promote both local and royal interests *The Symbolic Language of Royal Authority in the Carolingian World (c.751-877)* Ildar H. Garipzanov,2008 This book is not a conventional political narrative of Carolingian history shaped by narrative sources capitularies and charter material It is structured instead by numismatic diplomatic liturgical and iconographic sources and deals with political signs images and fixed formulas in them as interconnected elements in a symbolic language that was used in the indirect negotiation and maintenance of Carolingian authority Building on the comprehensive analysis of royal liturgy intitlature iconography and graphic signs and responding to recent interpretations of early medieval politics this book offers a fresh view of Carolingian political culture and of corresponding roles that royal imperial courts larger monasteries and human agents played there *Art of the Ancient Near East* Kim Benzel,2010 Provides the cultural archaeological and historical contexts for a selection of thirty works of art in the Metropolitan Museum s collection Slipcase *A History of British Royal Jubilees* June Woolerton,2022-09-22 As Queen Elizabeth II became the only British Monarch to rule for seventy years she marked the historic moment with a simple message promising to continue her lifetime of service But while her Jubilee day was quiet it was merely the start of a year long celebration that would see millions around the world join the royal party Jubilees have become regular events in The Queen s long reign but they are a relatively modern idea which only really took hold in the reign of King George III Initially rejected by many as a frivolity the first royal Jubilee became a huge success It was a beguiling mix of pageantry religious devotion and popular celebrations including street parties that has been copied in the Jubilees that followed Queen Victoria enjoyed two successful celebrations including Britain s first Diamond Jubilee which helped re establish her popularity and consolidate the Monarchy King George V turned to the joy of a Jubilee to re invigorate his country as it recovered from war and economic woes In the reign of his granddaughter Elizabeth II Jubilees have been transformed into modern media events celebrated globally In *A History of British Royal Jubilees* we trace the ever evolving story of these popular celebrations bringing each of them to life and looking at how they changed the image of royalty and the country itself This is the story of how Jubilee celebrations have become vital to the success of Britain s Royal Family and to its place at the heart of a nation *Royal Bronze Statuary from Ancient Egypt* Marsha Hill,2004 Egyptian bronze statuary has proven particularly intractable to chronological investigations This study exploits clues offered by bronze royal statuettes to make identifications or stylistic assignments A fuller understanding of the artistic milieu and role of small royal bronze statuary results **Strange Royal Traditions** Amelia Khatri,AI,2025-02-12 *Strange Royal Traditions* explores the fascinating and often bizarre customs upheld by royal families throughout history and across the globe It examines how seemingly odd practices such as sneezing being a capital offense in some courts or the elaborate rituals surrounding royal births served essential roles in reinforcing social hierarchies and legitimizing rule The book isn t just a catalog of strange traditions it delves into the reasons behind them uncovering the beliefs and values that underpinned these royal customs and

shaped historical events The book progresses by first examining the origins and evolution of royal traditions It then focuses on legal oddities like sumptuary laws dictating dress and elaborate rituals surrounding life events such as marriages and coronations By taking a comparative approach *Strange Royal Traditions* highlights universal themes in royal behavior while also showcasing unique cultural variations in royal life The book uses historical documents anthropological studies and accounts of royal life to support its arguments making it valuable for anyone interested in history and culture Royal Representations Margaret Homans, 2015-03-10 Queen Victoria was one of the most complex cultural productions of her age In *Royal Representations* Margaret Homans investigates the meanings Victoria held for her times Victoria s own contributions to Victorian writing and art and the cultural mechanisms through which her influence was felt Arguing that being seeming and appearing were crucial to Victoria s rule Homans explores the variability of Victoria s agency and of its representations using a wide array of literary historical and visual sources Along the way she shows how Victoria provided a deeply equivocal model for women s powers in and out of marriage how Victoria s dramatic public withdrawal after Albert s death helped to ease the monarchy s transition to an entirely symbolic role and how Victoria s literary self representations influenced debates over political self representation Homans considers versions of Victoria in the work of Elizabeth Barrett Browning George Eliot John Ruskin Margaret Oliphant Lewis Carroll Alfred Lord Tennyson and Julia Margaret Cameron

Royal Divine Coronation Iconography in the Medieval Euro-Mediterranean Area Mirko Vagnoni, 2020-12-15 In the last decades historians and art historians have created an active historiographical debate about one of the most fascinating and studied iconographic themes of the Middle Ages the royal divine coronation Indeed in the specific case of some Ottonian and Salian illuminations it has been proposed that their function was not only political or to legitimize power as traditionally suggested *Herrscherbilder* but also liturgical and religious *Memorialbilder* This has led to a complete rethinking of the meaning of this iconographic theme the divine coronation of the king would not symbolically allude to his earthly power but to the wholly devotional hope of receiving the crown of eternal life in the afterlife If this academic debate has been concentrated above all on Ottonian and Salian royal images this Special Issue of *Arts* would like to deal with this topic by stimulating the analysis of royal divine coronation and blessing scenes in religious and liturgical context mosaics frescos or paintings placed in cathedrals or monastic churches and illuminations of liturgical texts with a wider geographical and temporal setting that is the European and Mediterranean kingdoms in the period from the 12th to the 15th centuries The Progresses, Processions, and Royal Entries of King Charles I, 1625-1642 Siobhan Keenan, 2020 The first study to explore the progresses of Charles I offering a full account of the king s travels Throwing new light on Charles accessibility to his subjects Keenan argues that he was not as distanced as has often been argued but was well aware of the importance of public ceremony and more widely travelled than his ancestors **Kings and Usurpers in the Seleukid Empire** Boris Chrubasik, 2016-10-20 *Kings and Usurpers in the Seleukid Empire* *The Men who would be King* focuses on ideas of kingship

and power in the Seleukid empire the largest of the successor states of Alexander the Great Exploring the question of how a man becomes a king it specifically examines the role of usurpers in this particular kingdom those who attempted to become king and who were labelled as rebels by ancient authors after their demise by placing these individuals in their appropriate historical contexts through careful analysis of the literary numismatic and epigraphic material By writing about kings and rebels literary accounts make a clear statement about who had the right to rule and who did not and the Seleukid kings actively fostered their own images of this right throughout the third and second centuries BCE However what emerges from the documentary evidence is a revelatory picture of a political landscape in which kings and those who would be kings were in constant competition to persuade whole cities and armies that they were the only plausible monarch and of a right to rule that advanced and refuted on so many sides simply did not exist Through careful analysis this volume advances a new political history of the Seleukid empire that is predicated on social power redefining the role of the king as only one of several players within the social world and offering new approaches to the interpretation of the relationship between these individuals themselves and with the empire they sought to rule In doing so it both questions the current consensus on the Seleukid state arguing instead that despite its many strong rulers the empire was structurally weak and offers a new approach to writing political history of the ancient world

Royal Capitalism Puangchon Unchanam, 2020-01-14 Thanks to its active role in national politics the market economy and popular culture the Thai crown remains both the country's dominant institution and one of the world's wealthiest monarchies Puangchon Unchanam examines the reign of Thailand's King Bhumibol Adulyadej or Rama IX 1946-2016 and how the crown thrived by transforming itself into a distinctly bourgeois monarchy that co-opted middle class values of hard work frugality and self-sufficiency The kingdom positioned itself to connect business elites patronize local industries and form strategic partnerships with global corporations Instead of restraining or regulating royal power white collar workers joined with the crown to form a dynamic symbiotic force that has left the lower classes to struggle in their wake Unchanam presents a surprising case study that kings and queens live long and large in cooperation with the bourgeoisie's interests and ideology

Picturing Royal Charisma: Kings and Rulers in the Near East from 3000 BCE to 1700 CE Arlette David, Rachel Milstein, Tallay Ornan, 2023-05-04 This book assesses how Middle Eastern leaders manipulated visuals to advance their rule from around 4500 BC to the 19th century AD In nine fascinating narratives it showcases the dynamics of long-lasting Middle Eastern traditions dealing with the visualization of those who stood at the head of the social order

Renewing Royal Imagery Arlette David, 2020-09-25 In Renewing Royal Imagery Akhenaten and Family in the Amarna Tombs Arlette David offers a systematic in-depth analysis of the visual presentation of ancient Egyptian kingship during Akhenaten's reign circa 1350 BC in the elite tombs of his new capital domain of his god Aten and attempts to answer two basic questions how can Amarna imagery look so blatantly Egyptian and yet be intrinsically different And why did it need to be so
