Rubia Continuity And Change:

Medieval Pharmacotherapy, Continuity and Change Helena M. Paavilainen, 2009 The development of medical drug therapy in medieval times can be seen as an interplay between tradition and innovation This book follows the changes in the therapy from the Arabic medicine of Ibn S n Avicenna to Latin medical scholasticism aiming to trace both the continuity and the development in the theory and practice of medieval drug therapy In this delicate balance between change and continuity a crucial role was played by the scientific community through critical rejection or acceptance of new ideas The drug choices were in most cases rational also from the point of view of contemporary medical theory The method used in the book for studying these choices could promote the development of a novel methodology for historical ethnopharmacology The Oxford Handbook of Autism and Co-Occurring Psychiatric Conditions Susan W. Paniagua-Zambrana, Zaal Kikvidze, 2025-04-23 Natural resources and associated biological diversity provide the basis of livelihood for humans particularly in the rural areas and mountain regions around the world Over centuries indigenous peoples traditional societies and local communities have developed their own specific knowledge regarding plant use management and conservation The history of plant use by humans as food and to treat diverse ailments dates back to ancient civilizations Even though the advent of allopathic medicine has somehow minimized the role of medicinal plants in favor of synthetic drugs a number of modern drug discoveries have been based on medicinal plants used by indigenous peoples Ethnobiology is the burgeoning interdisciplinary scientific field which covers all types of interactions between plants and people and Eastern Europe is recognized as a plant diversity hot spot This new Major Reference Work on the Ethnobotany of Mountain Regions of Eastern Europe Carpathians covers in detail the mountains and valleys of this region which are known to be rich in unique medicinal and food plant species Local communities residing in the mountain regions of Eastern Europe possess unique knowledge of surrounding resources which is the result of many years of interaction with and selection of the most desirable and pervasive plant species present In this context this major reference work provides comprehensive information on cross culture variation in the traditional uses of plants as food medicine and for cultural purposes among these diverse communities residing in Eastern Europe The key areas of focus include plant diversity in the Carpathians cross cultural variation in traditional uses of plant species by these communities high value medicinal and food plant species and threats and conservation status of plant species and traditional knowledge *Ethnobotany of Northern Africa and Levant* Rainer W. Bussmann, Mostafa Elachouri, Zaal Kikvidze, 2024-11-15 Research in recent years has increasingly shifted away from purely academic research and into applied aspects of the discipline including climate change

research conservation and sustainable development It has by now widely been recognized that traditional knowledge is always in flux and adapting to a quickly changing environment Trends of globalization especially the globalization of plant markets have greatly influenced how plant resources are managed nowadays While ethnobotanical studies are now available from many regions of the world no comprehensive encyclopedic series focusing on the worlds mountain regions is available in the market Scholars in plant sciences worldwide will be interested in this dynamic content The field and thus the market of ethnobotany and ethnopharmacology has grown considerably in recent years Student interest is on the rise attendance at professional conferences has grown steadily and the number of professionals calling themselves ethnobotanists has increased significantly Various societies of such professionals include the Society for Economic Botany the International Society of Ethnopharmacology the Society of Ethnobiology the International Society for Ethnobiology and many regional and national societies in the field that currently have thousands of members Growth has been most robust in BRIC countries The objective of this new MRW on Ethnobotany of Mountain Regions is to take advantage of the increasing international interest and scholarship in the field of mountain research We anticipate including the best and latest research on a full range of descriptive methodological theoretical and applied research on the most important plants for each region Each contribution will be scientifically rigorous and contribute to the overall field of study

Crisis in Europe, 1200-1500 Harilaos Kitsikopoulos,2012-03-15 Agrarian Change and Crisis in Europe 1200 1500 addresses one of the classic subjects on economic history the process of aggregate economic growth and the crisis that engulfed the European continent during the late Middle Ages This was not an ordinary crisis During the period 1200 1500 Europe witnessed endemic episodes of famine and a wave of plague epidemics that amounted to one of its worst health crises rivaled only by the Justinian plague in the sixth century These challenges called into question the production of goods and services and the distribution of wealth opening the possibility of fundamental systemic change This book offers an empirical synthesis on a host of economic demographic and technological developments which characterized the period 1200 1500 It covers virtually the entire continent and places equal emphasis both on providing a solid factual framework and comparing and contrasting various theoretical interpretations The broad geographical and conceptual scope of the book renders it indispensable not only for undergraduate students who take courses relating to the economic and social life of the Middle Ages but also to more advanced scholars who often specialize in only one country or region Handbook of Autism and

Pervasive Developmental Disorders, Diagnosis, Development, Neurobiology, and Behavior Fred R. Volkmar,Rhea Paul,Ami Klin,Donald J. Cohen,2005-04-29 Now expanded to two volumes this invaluable reference work provides a comprehensive review of all information presently available about these disorders drawing on findings and clinical experience from a number of related disciplines such as psychiatry psychology neurobiology pediatrics etc The Handbook covers descriptive and diagnostic characteristics biological contributions intervention techniques legal and social issues The Third Edition is updated to include the newest work in animal models genetics neuropsychological processes screening and assessment methods Integration in Multicultural England Jörg Friedrichs,2025-07-24 Positive relations between Muslims and non

Muslims are important for the future in Britain and beyond By studying community relations this book takes an innovative approach that moves beyond mapping British Muslims or British Islam Instead J rg Friedrichs discusses the actual ways Muslims and non Muslims relate or fail to relate where it matters most namely in diverse inner cities Is Britain a multicultural country is it moving towards greater integration or is this a false dichotomy Given their unique everyday experience inner city residents prove to be experts when it comes to community relations To give them a voice and learn from their experience the book takes us on a tour of diverse English inner cities Reassuringly the grassroots perspective of residents is consistent with a vision of integration in multicultural England Residents are concerned not so much about hot button issues like extremism or terrorism Instead their minds are set on practical matters how to coexist peacefully in

stressful urban environments and how to find love and raise families when norms diverge Caught between grievance and aspiration inner city residents from any background express disappointment at Muslim and non Muslim parents sending their children to different schools They also discuss whether governance should be community blind or community based and if Britain is ready for a Muslim Prime Minister In all of this Muslim and non Muslim residents acknowledge that we live in a multicultural society For most however it does not follow that we should adopt multiculturalism as an ideology Instead most people crave and support a move towards greater integration
