Semiotexte Usa 13:

Baudrillard and Signs Gary Genosko, 2002-03-11 This book relates Baudrillard's work to contemporary social theory. The author traces the connections between Baudrillard's work and Marx and Marxism, Lefebvre and structuralist method, the works of Saussure, Bataille, Barthes, Foucault, Mauss, Peirce, McLuhan and the Prague School. The result is an authoritative and stimulating account of Baudrillard and modern social theory.

Baudrillard Live Mike Gane, 2002-11 In this collection of Baudrillard's most important interviews, the reader gains a unique and accessible overview of his key ideas.

Digital Modernism Heritage Lexicon Cristiana Bartolomei, Alfonso Ippolito, Simone Helena Tanoue Vizioli, 2021-08-11 The book investigates the theme of Modernism 1920-1960 and its epigones as an integral part of tangible and intangible cultural heritage which contains the result of a whole range of disciplines whose aim is to identify, document and preserve the memory of the past and the value of the future. Including several chapters, it contains research results relating to cultural heritage more specifically Modernism and current digital technologies. This makes it possible to record and evaluate the changes that both undergo: the first one from a material point of view, the second one from the research point of view, which integrates the traditional approach with an innovative one. The purpose of the publication is to show the most recent studies on the modernist lexicon 100 years after its birth, moving through different fields of cultural heritage from different forms of art to architecture, from design to engineering, from literature to history, representation and restoration. The book appeals to scholars and professionals who are involved in the process of understanding, reading and comprehension, the transformation that the places have undergone within the period under examination. It will certainly foster the international exchange of knowledge that characterized Modernism.

The Body of Nature and Culture R. Giblett, 2008-10-14 This book explores the relationship of human bodies with natural and cultural environments, arguing that these categories are linked and intertwined. It argues for an environmentally sustainable and healthy relationship between the body and the earth.

American Paraliterature and Other Theories to Hijack Communication Blake Stricklin, 2021-03-30 A critical account of the 1975 Schizo Culture conference which Michel Foucault called the last countercultural event of the 1960s and its direct and indirect connection to American experimental literature.

Deleuze, Marx and Politics Nicholas Thoburn, 2003-09-02 A critical and provocative exploration of the political, conceptual and cultural points of resonance between Deleuze's minor politics and Marx's critique of capitalist dynamics, engaging with Deleuze's missing work, *The Grandeur of Marx*. This book explores the core categories of communism and capital in conjunction with a wealth of contemporary and historical political concepts and movements from the lumpenproletariat and anarchism to Italian autonomy and Antonio Negri's immaterial labour and the refusal of work. This book will serve as an introduction to Deleuze's politics and the contemporary vitality of Marx for students and will challenge scholars in the fields of social and political theory, sociology and cultural studies.

Symbolic Exchange and Death Jean Baudrillard, 1993-12-07

This is easily Baudrillard's most important work. It is a key intervention in the debates on modernity and postmodernity and the site of his postmodern turn. Anyone who wants to understand the complexity and provocativeness of Baudrillard's richest period must read this text. Douglas Kellner *Mistress Spirit* Clayton Eshleman, 1989 **Contemporary Perspectives on Rhetoric** Sonja K. Foss, Karen A. Foss, Robert Trapp, 2014-04-04 The anniversary edition marks thirty years of offering an indispensable review and analysis of thinkers who have exerted a profound influence on contemporary rhetorical theory. I. A. Richards, Ernesto Grassi, Chaim Perelman and Lucie Olbrechts-Tyteca, Stephen Toulmin, Richard Weaver, Kenneth Burke, Jürgen Habermas, bell hooks, Jean Baudrillard and Michel Foucault. The brief biographical sketches locate the theorists in time and place, showing how life experiences influenced perspectives on rhetorical thought. The concise explanations of complex concepts are clear, engaging, insightful and highly accessible, serving as an excellent primer for reading the major works of these scholars. The critical commentary is carefully chosen to highlight implications and to place the theories within a broader rhetorical context. Each chapter ends with a complete bibliography of works by the theorists. **Normal Sex** Samuel Ace, 1994 Forceful, fluid prose poems as the author writes the recreated life of her boyish youth. **Back Issues** Gary Genosko, 2019-06-12 Using independent critical and cultural theory journals that cross the Canada-US border as key examples, this book shows how to interpret the original practices of periodicals by tracing editorial diasporas and transitions to electronic publishing. *Back Issues* explains the role of independent theory journals in the institutional formation of critical theory and cultural studies in Canada and the US by focusing on two seminal publications: Paul Piccone's *Telos* and Arthur Kroker's *Canadian Journal of Political and Social Theory*. Editorial transits across the international border figure largely as do founding conferences, interpersonal flare-ups and the conviviality of academic communities and pre-gentrified urban bohémias. Both commensurable and incommensurable relationships between journal projects are analysed and a hitherto unwritten history of critical and cultural theory in Canada is broached. **The Visual in Performance Practice**, 2020-04-14 This volume was first published by Interdisciplinary Press in 2011. Papers from the first global conference of Performance Visual Aspects of Performance Practice 2010 evoke the multi-role, collaborative sense of a jointly crafted production of new discoveries from theory, concept and design to realization, reflection and audience reception. **The Idea of the Avant Garde** Marc James Léger, 2019-10-15 The concept of the avant garde is highly contested: whether one consigns it to history or claims it for present day or future. This first volume of *The Idea of the Avant Garde And What It Means* Today provided a lively forum on the kinds of radical art theory and partisan practices that are possible in today's world of global art markets and creative industry, entrepreneurialism. This second volume presents the work of another 50 artists and writers exploring the diverse ways that avant gardism develops reflexive and experimental combinations of aesthetic and political praxis. The manifest strategies, temporalities and genealogies of avant garde art and politics are expressed through an international, intergenerational and interdisciplinary convocation of ideas that covers the fields of film, video, architecture
