Semiotics In Poland 18941969:

Semiotics in Poland 1894-1969 J. Pelc,2012-12-06 In the Introduction to the Polish language version of the present book I expressed the hope that Polish studies in semiotics would before long be numerous enough to make possible another anthology on semiotics in Poland containing material published since 1970 That hope has in fact come true The fact that semiotic research has been gaining momentum in this country is reflected in the growing interest in the discipline in expanding international contacts and in the steady increase in the number of publications Thus 1972 saw the setting up of the Department of Logical Semiotics headed by the present writer at Warsaw University Institute of Philosophy The seminar on semiotics which I started in 1961 had met more than two hundred times by the end of 1976 since 1968 meetings have been held jointly with the Polish Semiotic Society Another seminar confined to university staff and concerned with logical semiotics which was initiated in 1970 had met more than fifty times by the end of 1976 The former seminar often plays host to foreign visiting professors so far scholars from Australia Belgium Britain Canada Czechoslovakia France the German Democratic Republic Italy the Netherlands the Soviet Union and the United States have attended

The Lvov-Warsaw School and Contemporary Philosophy K. Kijania-Placek,Jan Wolenski,2012-12-06 This collection celebrates the centenary of the Lvov Warsaw school established by Kazimierz Twardowski in Lvov in 1895 This school belongs to analytic philosophy and successfully worked in all branches of philosophy The Warsaw school of logic became perhaps the most important part of Twardowski s heritage Lesniewski Lukasiewicz and Tarski leading Polish logicians achieved results which essentially influenced the development of contemporary logic A close connection of logic and philosophy was a typical feature of the Lvov Warsaw school The papers included in the collection deal with all directions of

research undertaken by Polish analytic philosophers Special attention is paid to logic and comparisons with other philosophical movements particularly with Brentanism which was one of the sources of the Lvov Warsaw school **Time: A Philosophical Analysis** T. Chapman, 1982-07-31 This book is intended as an exposition of a particular theory of time in the sense of an interrelated set of attempted solutions to philosophical problems about it Generally speaking there are two views about time held by philosophers and some scientists interested in philosophical issues The first called the A theory after McTaggart's expression A determinations for the properties of being past present or future is often thought to be closer to our commonsense view of time or to the concept of time presupposed by ordinary language It includes at least the following theses a Logic ought really to include tensed quantifiers for existence on one of its important usages means present existence More generally we can't reduce all tensed locutions to tenseless ones b The distinction between past present and future is an objective one It is not for example dependent on our consciousness of change some A theorists hold also that the distinction in effect is an absolute one **Bibliography of Semiotics, 1975-1985** Achim Eschbach, Gabi Willenberg, 1986

Knowledge, Language and Silence Anna Brożek, Jacek Jadacki, 2015-12-22 Izydora Dmbska 1904-1982 was a Polish philosopher a student of Kazimierz Twardowski and his last assistant Her output consists of almost 300 publications The main domains of her research were semiotics epistemology and broadly understood methodology as well as axiology and history of philosophy Dmbska's approach to philosophical problems reflected tendencies that were characteristic of the Lvov Warsaw School She applied high methodological standards but has never limited the domain of analyzed problems in advance The present volume includes twenty eight translations of her representative papers As one of her pupils rightly wrote Dmbska's works may help everyone to think clearly Her attitude of an unshaken philosopher may help anyone to hold oneself straight and if necessary to get up after a fall Ingardeniana III Anna-Teresa Tymieniecka, 2012-12-06 In the footsteps of Ingardeniana II this volume marks the 20th anniversary of Roman Ingarden's death partly focusing upon his thought partly bringing his aesthetics into the present day framework of research It might have appeared puzzling to the followers of our *Analecta Husserliana* why within the original horizon encircled by the research work of our International Society of Phenomenology and Literature whose research work is devised in a diametrically opposed direction to that of Roman Ingarden there is steadfastly running through our discussions a line of Ingardenian reflection The reason as I have pointed out in the introduction to *Ingardeniana II* expertly edited by Hans Rudnik is clear Ingarden's analysis of the intentional structures of works of art offers in its distinct and clear cut forms an objective correlate as well as a point of reference to the vast conundrum of issues concerning the creative endeavor of the writer poet artist in their struggle to endow life with its specifically human significance a conundrum that in our research we are trying to disentangle elucidating its mysterious ramifications their sources and dynamic virtualities As a matter of fact Ingarden's thought newly interpreted and originally expanded occupies a legitimate place in the present collection We find here in the first place an original

expansion of Ingarden's aesthetic theory in the monograph of Iadwiga Smith followed by the essays of Władysław Osadnik, Yushiro Takei and Charles Rzepka. Bibliographie Internationale de Sociologie 1980, 1982. Each Bibliography lists and annotates the most important works published during the year.
