Today's U.S. Marines Emma Bernay, Emma Carlson Berne, 2013 Marines are expected to be in constant state of preparedness ready to fight abroad Four Guardians Jeffrey W. Donnithorne, 2021-02-02 Exploring the profound differences between what the military services believe and how they uniquely serve the nation When the US military confronts pressing security challenges the Army Navy Air Force and Marine Corps often react differently as they advise and execute civilian defense policies Conventional wisdom holds that these dynamics tend to reflect a competition for prestige influence and dollars Such interservice rivalries however are only a fraction of the real story In *Four Guardians* Jeffrey W. Donnithorne argues that the services act instead as principled agents interpreting policies in ways that reflect their unique cultures and patterns of belief Chapter length portraits of each service highlight the influence of operational environment nature and political history nurture in shaping each service's cultural worldview The book also offers two important case studies of civil military policymaking one the little known story of the creation of the Rapid Deployment Joint Task Force in the early 1980s the other the four year political battle that led to the passage of the Goldwater Nichols Act in 1986 Donnithorne uses these cases to demonstrate the principled agent framework in action while amply revealing the four services as distinctly different political actors Combining crisp insight and empirical depth with engaging military history *Four Guardians* provides practical utility for civil military scholars national security practitioners and interested citizens alike This timely work brings a new appreciation for the American military the complex dynamics of civilian control and the principled ways in which the four guardian services defend their nation *U.S. Marines in Iraq, 2004-2008* Marine Corps University (U.S.). History Division, 2010 The selections in this collection include journalistic accounts scholarly essays and

Marine Corps summaries of action Our intent is to provide a general overview to educate Marines and the general public about this critical period in the history of the U S Marine Corps the United States and Iraq Many of the conclusions are provisional and are being updated and revised as new information and archival resources become available The accompanying annotated bibliography provides a detailed overview of where current scholarship on the period currently stands Foreword

The Globe and Anchor Men Mark Ryland Folse,2024-04-18 Throughout the World War I era the United States Marine Corps efforts to promote their culture of manliness directed attention away from the dangers of war and military life and towards its potential benefits As a military institution that valued physical mental and moral strength the Marines created an alluring image for young men seeking a rite of passage into manhood Within this context the potential for danger and death only enhanced the appeal Mark Ryland Folse s The Globe and Anchor Men offers the first in depth history of masculinity in the Marine Corps during the World War I era White manhood and manliness constituted the lens through which the Marines of this period saw themselves how they wanted the public to see them and what they believed they contributed to society Their highly gendered culture helped foster positive public relations allowing Marines to successfully promote the potential benefits of becoming a Marine over the costs even in times of war By examining how the Marine Corps culture public image and esteem within U S society evolved Folse demonstrates that the American people measured the Marines usefulness not only in terms of military readiness but also according to standards of manliness set by popular culture and by Marines themselves The Marines claimed to recruit the finest specimens of American manhood and make them even better strong brave and morally upright They claimed the Marine would be a man with a wealth of travel and experience behind him He would be a proud and worthy citizen who had earned respect through his years of service training and struggle in the Marine Corps Becoming a Marine benefited the man and the new Marine benefited the nation As men became manlier the country did too
