Semple Math Level 1 Teacher's Manual Janice L. Semple, Linda Lee, 2005 The Level 1 Teacher's Manual focuses on addition while developing many related skills Each of the 52 lessons begins with a measurable objective and includes a clear teaching activity numerous optional games activities and ideas for teacher made supplemental materials Added sections such as special problems and older students assist the educator in adapting the program to the spectrum of learning challenges Available Fall 2005 the Second Edition Level One Teacher's Manual has been revised by the original author Letter to the Reader Semple Math is a complete basic skills mathematics program for students of all ages and all learning abilities We use a carefully ordered sequence of associative mnemonics in order to embed an accurate understanding of math concepts and skills in the long term memory of our students hence the expression Simply Unforgettable We do not ask students to memorize math facts through repetition We do not use learning by rote methods that teach only to a student's short term memory We have never encountered a math program or a supplemental material based entirely on learning by association nor have we ever encountered a program that has enjoyed our level of success with all students across the learning spectrum Now in its 25th year the program has undergone both a business reorganization and a long awaited revision of the Level One Teacher's Manual by the original author Jan Semple Semple Math materials were formerly distributed by Stevenson Learning Skills Inc Moving forward Semple Math Inc a new company founded by members of the Semple family will actively market our program while safeguarding the integrity of this tried and true process For more information please visit us at [www.semplemath.com](http://www.semplemath.com) William W Semple President and Co founder Semple Math Inc Semple Math Janice L.
