H. Boyer, The Battle of Zig Zag Pass follows talented and tormented Lloyd Zadoc into and out of World War II A young man orphaned by a house fire and expelled from his college Zadoc takes a job smuggling booze from Canada in a borrowed Packard His compensation is a Prison or War ultimatum from the Detroit Police Chief Having vacationed behind the cold bars of prison years before he decides to take the Chief's balmy Southeast Asian resort offer instead Through Lloyd we navigate mine riddled seas aboard a Navy transport to sweltering beach missions experiencing tumult and triumphs alongside the crew

Despite the trauma and tragedy these soldiers endure they seem to remain unabashed We return home with them picking up the pieces shattered by the Depression and the War and see what it takes to thrive in post war America Lloyd Zadoc s story resembles that of many American soldiers who have fought in wars across Europe South Asia and the Middle East America is teeming with the damaged bodies and tortured minds from these wars many compromised and ignored in wheelchairs or worse unable to realize their potential The Battle of Zig Zag Pass is dedicated to my fellow U S Army Rangers and to all of our American Veterans past and present

The Sen-Toku Raid John Mannock,2005 From the author of Iron Coffin comes this new World War II thriller As the Allied invasion of the Philippines begins a renegade Japanese admiral launches the Sen Toku class submarines designed to carry kamikaze aircraft and manned torpedoes on a mission to strike Washington D C

Original *Operation Storm* John Geoghegan,2014-03-18 The riveting true story of Japan s top secret plan to change the course of World War II using a squadron of mammoth submarines a generation ahead of their time In 1941 the architects of Japan s sneak attack on Pearl Harbor planned a bold follow up a potentially devastating air raid this time against New York City and Washington DC The classified Japanese program required developing a squadron of top secret submarines the Sen toku or I 400 class designed as underwater aircraft carriers each equipped with three Aichi M6A1 attack bombers painted to look like U S aircraft The bombers called Seiran which translates as storm from a clear sky were tucked in a huge water tight hanger on the sub s deck The subs mission was to travel more than halfway around the world surface on the U S coast and launch their deadly air attack This entire operation was unknown to U S intelligence And the amazing thing is how close the Japanese came to pulling it off John Geoghegan s meticulous research including first person accounts from the I 401 crew and the U S capturing party creates a fascinating portrait of the Sen toku s desperate push into Allied waters and the U S Navy s dramatic pursuit masterfully illuminating a previously forgotten story of the Pacific war

Operating Below Crush Depth: LCDR David W. Grogan USN,2015-11-06 Prior to entering World War II the Japanese Navy did a considerable planning and force development in preparation for a single decisive battle with the American fleet The Japanese submarine force entered the war with highly trained crews operating some of the most capable submarines in the world Even so they accomplished little This study will analyze the genesis and evolution of the technological basis of the Japanese submarine fleet before and during the war Along with the technological evolution it will also review the strategic and tactical evolution of the force It will further analyze the employment of submarines as they apply to two major forms of naval warfare *guerre de course* and *guerre de main* While the entire study will use comparison with the American and German the majority of the focus will be on the unique aspects of the Japanese employment of their submarines These analyses will answer whether the Japanese submarine force would have been capable of influencing the results of major battles and the overall campaign in the Pacific Ocean Could the Japanese submarine force have influenced the result of the war allowing it to end with a more favorable outcome for the Japanese

Cultures of War John W. Dower,2011-08-23 Finalist for the National Book Award in

Nonfiction Finalist for the Los Angeles Times Book Prize A thought provoking book about the way events echo and mis echo down the corridors of history Financial Times Over recent decades John W Dower one of America s preeminent historians has addressed the roots and consequences of war from multiple perspectives In War Without Mercy 1986 winner of the National Book Critics Circle Award he described and analyzed the brutality that attended World War II in the Pacific as seen from both the Japanese and the American sides Embracing Defeat 1999 winner of numerous honors including the Pulitzer Prize and the National Book Award dealt with Japan s struggle to start over in a shattered land in the immediate aftermath of the Pacific War when the defeated country was occupied by the U S led Allied powers Turning to an even larger canvas Dower now examines the cultures of war revealed by four powerful events Pearl Harbor Hiroshima 9 11 and the invasion of Iraq in the name of a war on terror The list of issues examined and themes explored is wide ranging failures of intelligence and imagination wars of choice and strategic imbecilities faith based secular thinking as well as more overtly holy wars the targeting of noncombatants and the almost irresistible logic and allure of mass destruction Dower s new work also sets the U S occupations of Japan and Iraq side by side in strikingly original ways One of the most important books of this decade Cultures of War offers comparative insights into individual and institutional behavior and pathologies that transcend cultures in the more traditional sense and that ultimately go beyond war making alone Econ Aspects Hist Civil Japan Takekoshi,2018-10-24 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company The Economic Aspects of the History of the Civilization of Japan Yosaburo Takekoshi,2016-04-01 Originally published by Allen Unwin in 1930 this 3 volume collection brings together writings on the economic aspects of Japan s history Covering the period from the 1600s until the 1920s this work offers the reader not only an economic history of the Japanese but also a social and political history By explaining the realities of daily life during the periods covered this collection allows the economic aspects to be fully appreciated *Panic on the Pacific* Bill Yenne,2016-09-06 The aftershocks of the December 7 1941 attack on Pearl Harbor were felt keenly all over America the war in Europe had hit home But nowhere was American life more immediately disrupted than on the West Coast where people lived in certain fear of more Japanese attacks From that day until the end of the war a dizzying mix of battle preparedness and rampant paranoia swept the states Japanese immigrants were herded into internment camps Factories were camouflaged to look like small towns The Rose Bowl was moved to North Carolina Airport runways were so well hidden even American pilots couldn t find them There was panic on the Pacific coast the Japanese were coming American Book Publishing Record ,2003 **Torpedo Bombers, 1900-1950** Jean-Denis Lepage,2020-01-27 The torpedo bomber was a very short lived weapon system operational for scarcely half a century from just prior WWI to the 1960s Yet during its brief existence it transformed naval warfare extending the ship killing range of ships and coastal defences to hundreds of miles The Royal Navy and Fleet Air Arm led the way recording the first sinking of a ship by aerial torpedo in August 1915 but all major navies eagerly developed their own torpedo bomber

forces The torpedo bomber reached its zenith in WWII particularly from 1940-42 with notable successes at the Battle of Taranto the sinking of the Bismarck and Pearl Harbor It was the weapon of choice for both the US and Japanese in the big Pacific battles such as Midway In the latter stages of the war increasingly effective anti aircraft fire and interceptor aircraft started to render it obsolete a process completed post war by long range anti ship missiles Jean Denis Lepage traces the development of torpedo bombers worldwide describing their tactics operational history and the aircraft themselves including such well loved types as the Swordfish Beaufighter and Avenger Over 300 aircraft are beautifully illustrated *Cold War Submarines* Norman Polmar, Kenneth J. Moore, 2004 Submarines had a vital if often unheralded role in the superpower navies during the Cold War Their crews carried out intelligence collection operations sought out and stood ready to destroy opposing submarines and from the early 1960s threatened missile attacks on their adversary's homeland providing in many respects the most survivable nuclear deterrent of the Cold War For both East and West the modern submarine originated in German U boat designs obtained at the end of World War II Although enjoying a similar technology base by the 1990s the superpowers had created submarine fleets of radically different designs and capabilities Written in collaboration with the former Soviet submarine design bureaus Norman Polmar and K J Moore authoritatively demonstrate in this landmark study how differing submarine missions antisubmarine priorities levels of technical competence and approaches to submarine design organizations and management caused the divergence **The Imperial Japanese Navy in the Pacific War** Mark Stille, 2014-11-20 A highly illustrated examination of the key ships tactics and operations of the Imperial Japanese Navy in the War in the Pacific in World War II The Imperial Japanese Navy IJN was the third most powerful navy in the world at the start of World War II and came to dominate the Pacific in the early months of the war This was a remarkable turnaround for a navy that only began to modernize in 1868 although defeats inflicted on the Russians and Chinese in successive wars at the turn of the century gave a sense of the threat the IJN was to pose Bringing together for the first time material previously published in Osprey series books and with the addition of new writing making use of the most recent research this book details the Japanese ships which fought in the Pacific and examines the principles on which they were designed how they were armed when and where they were deployed and how effective they were in battle The Imperial Japanese Navy in the Pacific War provides a history of the IJN's deployment and engagements analysis of the evolution of strategy and tactics and finally addresses the question of whether it truly was a modern navy fully prepared for the rigors of combat in the Pacific Illustrated throughout with photographs and detailed colour artworks this is a valuable reference source for Pacific War enthusiasts and historians alike *Suicide Squads* Richard O'Neill, 2015-06-25 In a detailed exploration of the hazardous Special Attack weapons and forces of World War II *Suicide Squads* examines the role of explosive motorboats midget submarines human torpedoes and kamikaze aircraft In addition to weapon development Richard O Neil describes the actions themselves including Pearl Harbour the raid on Sydney Harbour and special forces mission at Guadalcanal Midway and Okinawa The

bravery of the men from all sides who went to war in suicidal or near suicidal weapons cannot be overestimated The story of these special attack forces remains a testimony to ingenuity desperation and courage
