Politics of National Languages in Postcolonial Senegal Ibrahima Diallo, 2010 Senegal claimed political independence from France in 1960 and Leopold Senghor became Senegal's first president. Even though Senegal was no longer a French colony, Senghor was determined to maintain the dominance of French culture and language in his country. However, pressure to give national languages more power and space, which had already started during French occupation, continued intensely after independence. Senghor's political adversaries, as well as teacher and student unions, workers, and various activist groups, roundly criticized Senghor's government for the language and education programs he chose for the Senegalese people. The issue of national languages thus became a major political issue in Senegal with a far-reaching and longstanding impact. This book is a comprehensive study on the current language policies and practices in Senegal. It illuminates the tension that has arisen from the enduring colonial legacies and their influences in postcolonial language policies in Senegal. It also highlights the need for vigorous policy change to recognize the Senegalese languages, especially in education, and how the preservation of these languages is critical to identity and culture issues. The book shows that it is important for the Senegalese people to retain their original local languages and how French and English are not simply the only languages needed for Senegal's success in the globalized economy. In addition to a detailed history with supporting facts and figures, this study also links socioeconomic, cultural, and political events in its analysis of the unstoppable rise of Wolof, which is posing a significant threat to the already fragile local linguistic ecology. This book will be of interest to scholars in applied and social linguistics, African studies, and policy studies. Bibliographic Guide to Maps and Atlases, 1999

The Homeland Is the Arena Ousmane Kane, 2011-03-23 As Senegal prepares to celebrate fifty years of independence from French colonial rule, academic and policy circles are engaged in a vigorous debate about its experience in nation building. An important aspect of this debate is the impact of globalization on Senegal, particularly the massive labor migration that began directly after independence. From Tokyo to Melbourne, from Turin to Buenos Aires, from Paris to New York, 300,000 Senegalese immigrants are simultaneously negotiating their integration into their host society and seriously impacting the development of their homeland. This book addresses the modes of organization of transnational societies in the globalized context and specifically the role of religion in the experience of migrant communities in Western societies. Abundant literature is available on immigrants from Latin America and Asia, but very little on Africans, especially those from French-speaking countries in the United States. Ousmane Kane offers a case study of the growing Senegalese community in New York City. By pulling together numerous aspects—religious, ethnic, occupational, gender, generational, socio-economic, and political—of the experience of the Senegalese migrant community into an integrated analysis, linking discussion of both the homeland and host community, this book breaks new ground in the debate about postcolonial Senegal, Muslim globalization, and diaspora studies in the United States. A leading scholar of African Islam, Ousmane Kane has also conducted extensive research in North America, Europe, and Africa, which allows him to provide an insightful historical ethnography of the
