Barnes, 2018-08-06 Originally published in 1986 this urban political ethnography focusses on Mushin a large suburb of metropolitan Lagos Nigeria It explores the mechanisms which bridge the various social categories to bring about political interaction The book traces the development of Mushin from a collection of rural villages to its full status as a political community It analyses structures and processes and the ways in which since the 19th century the system has responded to colonial civilian and military regimes It examines the tactics ordinary people use to meet their needs and the ways in which political aspirants manipulate the system to acquire and wield power *Historical and Genealogical Record of the First Settlers of Colchester County* Thomas Miller, 1873 **Historical and Genealogical Record of the First Settlers of Colchester County, Down to the Present Time** Thomas Miller (of Truro, Nova Scotia.), 1873 *Grandpa's Us Colonial History to 1800* Terrence Hagen, 2013-02 Did the American people suddenly become independent on July 4 1776 or is there something more to our shared history History books tend to simplify the events leading up to the Declaration of Independence but not Grandpa Terrence Hagen wants his grandchildren and everyone else to know exactly what happened from the founding of Jamestown in 1607 to the time the Founding Fathers broke free from England The reality is the real America was developed in that period between the founding of the first settlements to the Declaration of Independence In this history book you ll learn why America could be called an accident self government was not discovered by America colonial America was the result of concurrent conflict among many entities and subsequent immigration of non English settlers changed the nature of the American colonist and produced ethnic religious and cultural conflicts Laced with chapter summaries quizzes and stories of sacrifice Grandpa s *US Colonial History to 1800* tells the forgotten history of how the American Revolution was fought not to attain independence but to retain the level of independence early settlers enjoyed *Red River Settlers* Edythe Rucker Whitley, 1980 *Records of the settlers of Northern Montgomery Robertson and sumner Counties Tennessee* *Trapped in History* Nicholas Rankin, 2023-11-14 *Trapped in History* tells how the British colonised Kenya and how African nationalism arose under Jomo Kenyatta It describes the terrifying first attacks by the guerrilla freedom fighters known as Mau Mau Though defeated the Mau Mau hastened the end of British rule in Kenya *Trapped in History* explores the effect the uprising on the author who grew up as a child in the Kenya colony The book is both a history as well as a memoir of the end of Empire *African Seminars* Various Authors, 2021-02-25 Originally published between 1986 and 1989 the 8 volumes in this set reflect the research and debate surrounding many issues for the African economy society and culture and as such make a vital contribution to effective development both rural and urban They re issue key titles from the International African Library and the International African Seminars and address themes of direct relevance to contemporary Africa on topics as diverse as medicine migration housing pastoralism and marriage **Community** Suzanne Keller, 2018-06-05 This book tells the story of how a human community comes to be and

how aspirations for the good life confront the dilemmas and detours of real life Suzanne Keller combines penetrating analysis of classic ideas about community with a remarkable and unprecedented thirty year case study of one of the first planned unit developments in America and the first in New Jersey Twin Rivers this pioneering venture featured townhouses and shared spaces for children s play and adult work and play in a society that stresses individual over collective goals and private over public concerns Hence the timeless questions asked over millennia How does an aggregate of strangers create an identity of place shared goals viable institutions and a spirit of mutuality and reciprocity What obstacles stand in the way and how are these overcome And how does design generate or deter community spirit Inspired by the legacy of Plato Rousseau de Tocqueville and T nnies Keller traces the difficult birth and the rich unfolding of Twin Rivers from a former potato field into a vibrant contemporary community Most community studies remain at a highly descriptive level This book has both broader and deeper aims endeavoring to develop principles of the common life as we enter the age of cyberspace Keller reveals the community of Twin Rivers through a multidimensional social microscope having monitored the community from the day it opened by participant observation attitude surveys the study of collective records and nearly 1 000 in depth interviews with homeowners She offers fascinating insight into how residents maintain privacy relate to neighbors cope with social conflict and develop ideas about the common good She shows that Twin Rivers residents remain hopeful about the possibility of community despite variable success in achieving their desires Indeed she argues that the hard won experience more than the utopian ideal is the true measure of community Keller concludes that despite the homogenizing effects of mass communication and globalization local communities will continue to proliferate in the foreseeable future due to changing lifestyles and the continuing quest for roots This important and engaging book will be appreciated by social scientists architects physical planners developers and lenders and community leaders as well as by the general reader interested in creating a bridge between individualism and community

Urban Migrants in Rural Japan Susanne Klien, 2020-02-01 Offers an in depth ethnography of paradigm shifts in the lifestyles and values of youth in post growth Japan Urban Migrants in Rural Japan provides a fresh perspective on theoretical notions of rurality and emerging modes of working and living in post growth Japan By exploring narratives and trajectories of individuals who relocate from urban to rural areas and seek new modes of working and living this multisited ethnography reveals the changing role of rurality from postwar notions of a stagnant backwater to contemporary sites of experimentation The individual cases presented in the book vividly illustrate changing lifestyles and perceptions of work What emerges from Urban Migrants in Rural Japan is the emotionally fraught quest of many individuals for a personally fulfilling lifestyle and the conflicting neoliberal constraints many settlers face In fact flexibility often coincides with precarity and self exploitation Susanne Klien shows how mobility serves as a

strategic mechanism for neophytes in rural Japan who hedge their bets gain time and seek assurance inspiration and courage to do or further postpone doing what they ultimately feel makes sense to them This book is a valuable contribution to knowledge about diversifying rural Japan and evokes reflection about the future of post growth Japan Klien s study benefits from assiduous and long term field research and insightful analysis She excels at locating the specifics of the study in theoretical observations and concepts thereby setting the work into a larger consideration of Japan s paradigm shifts in lifestyle and values Nancy Rosenberger author of *Gambling with Virtue Japanese Women and the Search for Self in a Changing Nation* **Khoesan and Imperial Citizenship in Nineteenth Century South Africa** Jared

McDonald,2023-04-24 This volume explores the formative and expressive dynamics of Khoesan identity during a crucial period of incorporation as an underclass into Cape colonial society *Khoesan and Imperial Citizenship in Nineteenth Century South Africa* emphasises loyalism and subjecthood posited as imperial citizenship as foundational aspects of Khoesan resistance to the debilitating effects of settler colonialism The work argues that Khoesan were active in the creation of their identity as imperial citizens and that expressions of loyalty to the British Crown were reflective of a political and civic consciousness that transcended their racially defined place in Cape colonial society Following a chronological trajectory from the mid 1790s to the late 1850s author Jared McDonald examines the combined influences of colonial law evangelical humanitarianism imperial commissions of inquiry and the abolition of slavery as conduits for the notion of imperial citizenship As histories and legacies of colonialism come under increasing scrutiny the history of the Khoesan during this period highlights the complex nature of power and its imposition and the myriad nuanced ways in which the oppressed react resist and engage This book will be of interest to scholars and students working on British imperialism in Africa as well as histories of settler colonialism nationalism and loyalism Irrigation Record New South Wales. After over 30 years of reform and opening up China s aggregate economic volume is now the second largest in the world Over the past decade many provinces in the western region of China have implemented ecological migration projects of different scales which have attracted considerable attention both in China and abroad The projects indicate first that there is an urgent need for this type of endeavor whether the goal is to reduce poverty or to protect the environment we need to move the poor populations out of the ecologically fragile regions Secondly the projects indicate that the Chinese government is capable of meeting this need Migration projects are complex and costly and without sufficient financial resources and systematic planning migration may fail to reduce poverty and could even aggravate it The rapid economic growth in China however makes such migration projects viable *Israel* Martin Gilbert,2018-09-01 The most comprehensive account of Israeli history yet published Efraim Karsh The Sunday Telegraph Fleeing persecution in Europe thousands of Jewish immigrants settled in Palestine after World War II Renowned historian Martin Gilbert crafts a riveting account of Israel s

turbulent history from the birth of the Zionist movement under Theodor Herzl to the unexpected declaration of its statehood in 1948 and through the many wars conflicts treaties negotiations and events that have shaped its past six decades including the Six Day War the Intifada Suez and the Yom Kippur War Drawing on a wealth of first hand source materials eyewitness accounts and his own personal and intimate knowledge of the country Gilbert weaves a complex narrative that s both gripping and informative and probes both the ideals and realities of modern statehood Martin Gilbert has left us in his debt not only for a superlative history of Israel but also for a restatement of the classic vision of Zion in which a Middle East without guns is not a bedtime story but an imperative long overdue This is the vision for which Yitzhak Rabin gave his life This book is tribute to his memory Jonathan Sacks The Times London Official Report Kenya.
