**Convergences and Interferences**, 2016-09-12 How does one imagine plurality How does one find new strategies for writing diversity and polyphony How does one read the most challenging creative and critical works of the present time This bilingual volume of twelve English and eight French papers proposes to breach linguistic critical frontiers by placing careful analysis of texts from different language traditions in a multilingual and multicultural dialogue In this collection of theoretically and politically aware close readings of contemporary cultural production the focus of analysis rests on the multiple and complex global convergences and interferences of cultural influences The collection foregrounds the work of innovative writers who seek to express the ungraspable presence of cultural newness at the same time as situating themselves in the richness of detail of local lives This volume most particularly finds a balance of critical approach between the everyday attempts at negotiation and survival and the insight brought to the reader by postcolonial syncretic and feminist theoretical analysis Autorité, Pouvoir, Puissance SECRETAN Philibert, 1969 *Le sujet de l'énonciation* Danon-Boileau

Epistemological theories represent the foundation of clinical practice enabling therapists to understand their own work better At the same time they are also fundamental to the self image of a science or academic discipline in finding and keeping its place within the scientific and scholarly community These points are particularly important for psychoanalysis as the field has many collaborating partners ranging from neurobiology to literary studies and also because its scientific status is still disputed This volume positions psychoanalysis epistemologically but at the same time shows that it follows its own unmistakable epistemological pathway **Les pouvoirs de l'homme** Roger Mehl, 1975 **La Révolte** Jean Grave, 1889
