Novel Science Adelene Buckland,2022-12-22 Novel Science is the first in depth study of the shocking groundbreaking and sometimes beautiful writings of the gentlemen of the heroic age of geology and of the contribution these men made to the literary culture of their day For these men literature was an essential part of the practice of science itself as important to their efforts as mapmaking fieldwork and observation The reading and writing of imaginative literatures helped them to discover imagine debate and give shape and meaning to millions of years of previously undiscovered earth history Borrowing from the historical fictions of Walter Scott and the poetry of Lord Byron they invented geology as a science discovered many of the creatures we now call the dinosaurs and were the first to unravel and map the sequence and structure of stratified rock As Adelene Buckland shows they did this by rejecting the grand narratives of older theories of the earth or of biblical

cosmogony theirs would be a humble science faithfully recording minute details and leaving the big picture for future generations to paint Buckland also reveals how these scientists just as they had drawn inspiration from their literary predecessors gave Victorian realist novelists such as George Eliot Charles Kingsley and Charles Dickens a powerful language with which to create dark and disturbing ruptures in the too seductive sweep of story Reading the Modern British and Irish Novel 1890 - 1930 Daniel R. Schwarz, 2008-04-15 Daniel R Schwarz has studied and taught the modern British novel for decades and now brings his impressive erudition and critical acuity to this insightful study of the major authors and novels of the first half of the twentieth century An insightful study of British fiction in the first half of the twentieth century Draws on the author's decades of experience researching and teaching the modern British novel Sets the modern British novel in its intellectual cultural and literary contexts Features close readings of Hardy's Jude the Obscure Conrad's Heart of Darkness and Lord Jim Lawrence s Sons and Lovers and The Rainbow Joyce s Dubliners and Ulysses Woolf s Mrs Dalloway and To the Lighthouse and Forster's A Passage to India Shows how these novels are essential components in a modernist cultural tradition which includes the visual arts Takes account of recent developments in theory and cultural studies Written in an engaging style avoiding jargon **Decadent Subjects** Charles Bernheimer, 2002-07-01 An illuminating exploration of fin de si cle decadence by a well known authority in the areas of European literature culture and psychoanalysis Pre Raphaelite Studies The influential writer and scholar Charles Bernheimer described decadence as a stimulant that bends thought out of shape deforming traditional conceptual molds In this posthumously published work Bernheimer succeeds in making a critical concept out of this perennially fashionable rarely understood term This remarkable collection of essays shows the contradictions of the phenomenon which is both a condition and a state of mind In seeking to show why people have failed to give a satisfactory account of the term decadence Bernheimer argues that we often mistakenly take decadence to represent something concrete that we see as some sort of agent His salutary response is to return to those authors and artists whose work constitutes the topos of decadence rereading key late nineteenth century authors such as Nietzsche Zola Hardy Wilde Moreau and Freud to rediscover the very dynamics of the decadent Through careful analysis of the literature art and music of the fin de si cle including a riveting discussion of the many faces of Salome Bernheimer leaves us with a fascinating and multidimensional look at decadence Honorable Mention for the Aldo and Jeanne Scaglione Prize for Comparative Literary Studies from the Modern Language Association The Reader, the Body, and the Book Natasha Anderson, 2025-05-15 How do books dazzle disgust or delight audiences What entices readers to track characters trials and tribulations Why do stories echo across the ages with their intensity Books with vibrant somatic elements prompt us to identify with protagonists who fall in love flee from pursuers and fight for survival enhancing the awareness of our own bodies This transatlantic diachronic study of 19th century literature analyzes the rising complexity of sensorimotor descriptions in four major Victorian novels Anne Bront s The Tenant of Wildfell Hall Charlotte Bront s Villette Henry James s The Portrait of a Lady and Thomas

Higonnet, 2022-03-15 Few literary phenomena are as elusive and yet as persistent as realism While it responds to the perennial impulse to use literature to reflect on experience it also designates a specific set of literary and artistic practices that emerged in response to Western modernity Landscapes of Realism is a two volume collaborative interdisciplinary investigation of this vast territory bringing together leading edge new criticism on the realist paradigms that were first articulated in nineteenth century Europe but have since gone on globally to transform the literary landscape Tracing the manifold ways in which these paradigms are developed discussed and contested across time space cultures and media this second volume shows in its four core essays and twenty four case studies four major pathways through the landscapes of realism The psychological pathways focusing on emotion and memory the referential pathways highlighting the

role of materiality the formal pathways demonstrating the dynamics of formal experiments and the geographical pathways exploring the worlding of realism through the encounters between European and non European languages from the nineteenth century to the present This volume is part of a book set which can be ordered at a special discount **Thomas Hardy** Geoffrey Harvey, 2003-12-08 Thomas Hardy was the foremost novelist of his time as well as an established poet Author of Jude the Obscure and Far from the Madding Crowd Hardy reflected in his works the dynamics of social intellectual and aesthetic change in nineteenth century England This guide provides students with a lucid introduction to Hardy's life and works and the basis for a sound comprehension of his work including the major aspects of Hardy's life in the context of contemporary culture a detailed commentary on Hardy's most important work and a critical map of Hardy's complete writing an outline of the vast body of criticism that has built up around Hardy's work with examples of recent critical debate Exposition and guide this volume enables readers to form their own readings of one of the most important writers of the nineteenth century **Different Voices** Paola Partenza, Özlem Karadağ, Emanuela Ettorre, 2022-12-12 The concept of the human has been broadly re visited and modified and the term posthuman has now become a term of continuous inquiry Gender representations play s a critical role in works of literature culture and art and focusing on gender is crucial to uncovering the anthropocentrism or androcentrism that may underlie the work and the times to which it belongs While maintaining a solid literary emphasis the ten chapters included in this volume focus on feminist debates about women technology and the body on gender representation and the posthuman on post gender figurations on gender and trans post humanism biotechnology biopolitics bioethics on feminist posthumanism on animals the human machine and ecological posthumanism The aim of the volume is to analyse how useful these concepts may be for thinking about the subject its definition and identity in a changing society The Romantic Sublime and Middle-Class Subjectivity in the Victorian Novel Stephen Hancock, 2013-10-31 This study follows the aesthetic of the sublime from Burke and Kant through Wordsworth and the Shelleys into Thackeray Dickens Eliot and Hardy Exploring the continuities between the romantic and Victorian periods that have so often been rather read as differences the book demonstrates that the sublime mode enables the transition from a paradigm of overwhelming power exemplified by the body of the king to the pervasive power of surveillance utilized by the rising middle classes While the domestic woman connected with the rise of the middle class is normally seen as beautiful the book contends that the moral authority given to this icon of depth and interiority is actually sublime The binary of the beautiful and the sublime seeks to contain the sublimity of womanhood by insisting on sublimity s masculine character This is the book s most important claim rather than exemplifying masculine strength the sublime marks the transition to a system of power gendered as feminine and yet masks that transition because it fears the power it ostensibly accords to the feminine This aesthetic is both an inheritance the Victorians receive from their romantic predecessors and more importantly a broad historical phenomenon that questions the artificial boundaries between romantic and Victorian From Shakespeare to

Autofiction Martin Procházka ,2024-04-23 From Shakespeare to Autofiction focuses on salient features of authorship throughout modernity ranging from transformations of oral tradition and the roles of empirical authors through collaborative authorship and authorship as cultural capital to the shifting roles of authors in recent autofiction and biofiction In response to Roland Barthes removal of the Author and its substitution by Michel Foucault's author function different historical forms of modern authorship are approached as multiplicities integrated by agency performativity and intensity in the theories of Pierre Bourdieu Wolfgang Iser Gilles Deleuze and F lix Guattari The book also reassesses recent debates of authorship in European and Latin American literatures It demonstrates that the outcomes of these debates need wider theoretical and methodological reflection that takes into account the historical development of authorship and changing understandings of fiction performativity and new media Individual chapters trace significant moments in the history of authorship from the early modernity to the present from Shakespeare's First Folio to Latin American experimental autofiction and discuss the methodologies reinstating the author and authorship as the irreducible aspects of literary process Praise for From Shakespeare to Autofiction In this collection a multicultural group of literary scholars analyse a rich array of authorship types and models across four centuries After decades of liquid poststructuralist concepts it is refreshing and inspiring to think through such diversity of authorship strategies from oral culture through sociological constructs to self referential and autobiographical ontological games that writers play with us their readers Pavel Dr bek University of Hull
