## **Sense Of Place A Sense Of Time:**

Sense of Place, Health and Quality of Life Allison Williams, 2016-12-05 A significant body of theoretical and empirical studies describes sense of place as an outcome of interconnected psychological social and environmental processes in relation to physical place s Sense of place has been examined particularly in human geography in terms of both the character intrinsic to a place as a localized bounded and material entity and the sentiments of attachment detachment that humans experience and express in relation to specific places Scholars in a wide range of disciplines are increasingly exploring the relationship between place and health and recently the field of public health has been encouraged to recognize sense of place as a potential contributing factor to well being It is evident that over the last few decades sense of place has developed into a versatile construct This important book brings together work related to sense of place and health broadly defined from the perspective of a variety of fields and disciplines It will give the reader an understanding of both the range of applications of this construct within approaches to human health as well as the breadth of research methodologies employed in its investigation

*Experience, Evidence, and Sense* Anna Wierzbicka, 2010-06-24 This book is based on two ideas first that any language English no less than any other represents a universe of meaning shaped by the history and experience of the men and women who have created it and second that in any language certain culture specific words act as linchpins for whole networks of meanings and that penetrating the meanings of those key words can therefore open our eyes to an entire cultural universe In this book Anna Wierzbicka demonstrates that three uniquely English words evidence experience and sense are exactly such linchpins Using a rigorous plain language approach to meaning analysis she unpacks the dense cultural meanings of these key words disentangles their multiple meanings and traces their origins back to the tradition of British empiricism In so doing she reveals much about cultural attitudes embedded not only in British and American English but also English as a global language An interdisciplinary work Experience Evidence and Sense will be of interest to both scholars and students in linguistics and English as well as historians of ideas sociologists anthropologists literary scholars and scholars of communication

Sense of Place and Sense of Planet Ursula K. Heise, 2008-09-29 Sense of Place and Sense of Planet analyzes the relationship between the imagination of the global and the ethical commitment to the local in environmentalist thought and writing from the 1960s to the present Part One critically examines the emphasis on local identities and communities in North American environmentalism by establishing conceptual connections between environmentalism and ecocriticism on one hand and theories of globalization transnationalism and cosmopolitanism on the other It proposes the concept of eco cosmopolitanism as a shorthand for envisioning these connections and the cultural and aesthetic forms into which they translate Part Two focuses on conceptualizations of environmental danger and connects environmentalist and ecocritical thought with the interdisciplinary field of risk theory in the social sciences arguing that environmental justice theory and ecocriticism stand to benefit from closer consideration of the theories of cosmopolitanism

that have arisen in this field from the analysis of transnational communities at risk Both parts of the book combine in depth theoretical discussion with detailed analyses of novels poems films computer software and installation artworks from the US and abroad that translate new connections between global national and local forms of awareness into innovative aesthetic forms combining allegory epic and views of the planet as a whole with modernist and postmodernist strategies of fragmentation montage collage and zooming

**Missionary Families Find a Sense of Place and Identity** John S. Benson, 2015-06-17 Missionary Families Find a Sense of Place and Identity is a community history of members of nineteen Lutheran missionary families who served in Tanzania Based on over ninety interviews and John Benson's extensive knowledge of cultural geography he compares the lives of the missionary generation who grew up in the United States and went to Tanzania as missionaries to those of their children who grew up in Africa but settled in the United States as adults Benson blends his personal experiences as a child of missionaries in Tanzania to tell the story of both generations Missionary Families is centered on the themes of connection to place and religious development and will appeal to scholars of geography cultural studies and religion

A Sense of Place Annie Davy, 2019-02-07 Tried and tested accessible strategies that support the wellbeing and learning journey of children through mindfulness with a focus on learning outdoors and connecting with the world Being outside and connecting with nature is key to young children's learning and wellbeing especially in a busy fast changing and digitalised world Outdoors children can more easily connect to their bodies and learn about themselves and others and how to be in the world They use their senses to explore understand and become mindful of the earth and the people around them But how can Early Years practitioners best support young children as they engage with nature while also passing on the values about the future of the planet A Sense of Place is an easily accessible guide that will make outdoor learning more interesting and fun while also supporting children's development of resilience and resourcefulness so that they can survive and thrive in the world as they grow

*A Sense of Place* Steven Kolpan, 2010 In A Sense of Place renowned wine expert and writer Steven Kolpan tells the story of how Francis Ford Coppola brought California's most distinguished and historic vineyard back to life Gustave Niebaum's Inglenook Estate started in 1879 was one of the Napa Valley's first established vineyards and the birthplace of its premium wine industry Generations after Niebaum's death the vineyard was sold to Heublein the wine and spirits monolith who broke up the land and changed the Inglenook brand from a premium connoisseur wine to a mass market jug wine In 1975 Francis Coppola bought the Niebaum residence and the surrounding estate Along with the original estate's reputation he also brought back some of its original workers including Rafael Rodriguez who in his late seventies now serves as the vineyard manager and historian Coppola overcame naysayers red tape and financial turmoil to reestablish the winery as a defender of quality producing wine under four different labels including the revered wine Rubicon In 1995 Coppola purchased the Inglenook Chateau and its adjacent vineyards fulfilling his dream of reuniting the original Napa Valley estate Kolpan's luscious flavorful narrative is worth enjoying now and keeping for later

*A sense of place* Lez Cooke, 2018-02-28 This pioneering study examines regional British television drama from its beginnings on the BBC and ITV in the 1950s to the arrival of Channel Four in 1982 It discusses the ways in which regionalism regional culture and regional identity have been defined outlines the history of regional broadcasting in the UK and includes two detailed case studies of Granada Television and BBC English Regions Drama representing contrasting examples of regional television drama during what is often described as the golden age of British television The conclusion brings the study up to date by discussing recent developments in regional drama production and by considering future possibilities Written in a scholarly but accessible style the book uncovers a forgotten history of British television drama that will be of interest to lecturers and students of media and cultural studies as well as the general reader with an interest in the history of British television

Place Tim Cresswell, 2014-08-29 Thoroughly revised and updated this text introduces students of human geography and allied disciplines to the fundamental concept of place combining discussion about everyday uses of the term with the complex theoretical debates that have grown up around it A thoroughly revised and updated edition of this highly successful short introduction to place Features a new chapter on the use of place in non geographical arenas such as in ecological theory art theory and practice philosophy and social theory Combines discussion about everyday uses of the term place with the more complex theoretical debates that have grown up around it Uses familiar stories drawn from the news popular culture and everyday life as a way to explain abstract ideas and debates Traces the development of the concept from the 1950s through its subsequent appropriation by cultural geographers and the linking of place to politics

The Bollingen Tower:

Constructing a Jungian Sense of Place Martin Gledhill, 2025-10-14 Offering a novel conceptual methodology where Jungian psychology is used to analyse Jung's own architecture this book offers an innovative reading of Jung's Bollingen Tower in order to explore a Jungian sense of place situating it within a wider examination of the psychic places that influenced his work Representing the first comprehensive study of Jung's building activities the chapters illuminate the wider purpose of architecture as a reflection of self and a means to belong in the world Using the author's own fieldwork interviews with descendants and detailed analysis of Jung's autobiography and copious writings drawn from his own imagination and psyche chapters explore themes such as the relationship between psyche and geometry the idea of psychic place and inner and outer in analytical psychology In discussing the legacy and the predominance of Bollingen Tower as the defining spatial motif of Jung's psychological system the chapters also cover comparisons with Marie Louise von Franz's Tower and Christiana Morgan's Tower The author's own background as an award winning architect alongside a lifelong study of analytical psychology makes him uniquely placed to shed light on this as yet underexplored area of study The book opens up interdisciplinary dialogues and provides a broader context for understanding the relationship between the environment and the psyche It will therefore be of interest to scholars and postgraduate students in the fields of Jungian and analytical psychology and architecture

*Rethinking Place Branding* Mihalis Kavaratzis, Gary Warnaby, Gregory J.

Ashworth, 2014-11-25 As Place Branding has become a widely established but contested practice there is a dire need to rethink its theoretical foundations and its contribution to development and to reassert its future This important new book advances understanding of place branding through its holistic critical and evidence based approach Contributions by world leading specialists explore a series of crucially significant issues and demonstrate how place branding will contribute more to cultural economic and social development in the future The theoretical analysis and illustrative practical examples in combination with the accessible style make the book an indispensable reading for anyone involved in the field

Creating a

Sense of Place in School Environments Sun-Young Rieh, 2020-04-01 Creating a Sense of Place in School Environments guides its readers to the characteristics that tend to generate a sense of place through children's vivid descriptions of their school and provides a body of critical information that can be employed to design a better school environment that can imprint cherished childhood memories The childhood school environment calls for special attention regarding the sense of place it creates The sense of place in childhood both affects children's current quality of life and frames their lasting world view It is well known that children's cognitive development is closely related to their place attachment to their surroundings and that children's adaptation to a given environment depends on how such place attachment can be created Therefore it is natural that people's identity in the world is the accumulation of their experience of place while in childhood Cross checking between the imprint of adults' memories of places in school and children's current lived experience of their favorite school place confirmed that certain spatial configurations which the author herein refers to as place generators can generate positive

attributes of physical settings that construct a sense of place and last as lifelong memories It is an ideal read for academics students and professionals      **Placemaking and the Arts** Jennifer Allen Craft,2018-10-30 What role does place play in the Christian life In this STA volume Jennifer Allen Craft gives a practical theology of the arts contending that the arts place us in time space and community in ways that encourage us to be fully and imaginatively present in a variety of contexts the natural world our homes our worshipping communities and society      **General Technical Report NE** ,1980      **Proceedings of 5th International Conference on Civil Engineering and Architecture** Thomas Kang,2023-10-04 This book states that the proceedings gathers selected papers from 2022 5th International Conference on Civil Engineering and Architecture ICCEA 2022 which was held in Hanoi Vietnam on December 16 18 2022 The conference is the premier forum for the presentation of new advances and research results in the fields of theoretical experimental and practical civil engineering and architecture And this proceedings from the conference mainly discusses architectural design and project management environmental protection and spatial planning design and analysis of building materials and structural engineering and safety And these materials can be useful and valuable sources for researchers and professionals working in the field of civil engineering and architecture      **A Sense of Place: Regional American Literature** ,      Geographies of Urban Sound Dr Torsten Wissmann,2014-05-28 Taking into account both the urban soundscape and the impacts of sound on the urban dweller this book examines sound not as a by product of urban life but as a fundamental part of the urban experience that is crucial to understanding the city s sense of place Illustrated by case studies from Europe and North America these range from on site measurements to the construction of audio tours for local tourism from media analysis of popular culture audio drama to sound identity and city branding and from the classification of noise in city planning to a consideration of the complex relationship between sacred sound and the creation of a sense of place      International Encyclopedia of Human Geography ,2019-11-29 International Encyclopedia of Human Geography Second Edition Fourteen Volume Set embraces diversity by design and captures the ways in which humans share places and view differences based on gender race nationality location and other factors in other words the things that make people and places different Questions of for example politics economics race relations and migration are introduced and discussed through a geographical lens This updated edition will assist readers in their research by providing factual information historical perspectives theoretical approaches reviews of literature and provocative topical discussions that will stimulate creative thinking Presents the most up to date and comprehensive coverage on the topic of human geography Contains extensive scope and depth of coverage Emphasizes how geographers interact with understand and contribute to problem solving in the contemporary world Places an emphasis on how geography is relevant in a social and interdisciplinary context      **Heritage and Sustainable Urban Transformations** Kalliopi Fouseki,Torgrim Guttormsen,Grete Swensen,2019-07-25 Heritage and Sustainable Urban Transformations introduces the concept of deep cities a novel approach to the understanding and management of sustainable historic cities that will advance

knowledge about how the long term temporal and transformative character of urban heritage can be better integrated into urban policies for sustainable futures. Contrary to the growing emphasis on green or smart cities which focus only on the present and future, the concept of deep cities offers an approach that combines an in depth understanding of the past with the present and future. Bringing together chapters that cover theoretical, methodological and management issues related to deep cities, the volume argues that using this approach will force researchers, managers and consultants to actively use the heritage and history of a city in the planning and management of sustainable cities. Exploring different definitions of deep cities, the book reveals varying and sometimes conflicting views among stakeholders concerning how, where and when the depth of a city should be conceptualized. Despite this, the book demonstrates how this new approach can help to create robust cities for the future as new and innovative solutions are combined with the preservation and strengthening of historical features. *Heritage and Sustainable Urban Transformations* is the first international collection on the subject of sustainable historic cities. As such, the book will be of great interest to academics and students engaged in the study of heritage, heritage management, architecture, heritage conservation, anthropology, development studies, geography, planning and archaeology.
