and self knowledge are key to the classical understanding of the self Weaving together literary theory philosophy and social history Bartsch traces this complex notion of self from Plato s Greece to Seneca s Rome She starts by showing how ancient authors envisioned the mirror as both a tool for ethical self improvement and paradoxically a sign of erotic self indulgence Her reading of the Phaedrus for example demonstrates that the mirroring gaze in Plato because of its sexual possibilities could not be adopted by Roman philosophers and their students Bartsch goes on to examine the Roman treatment of the ethical and sexual gaze and she traces how self knowledge the philosopher s body and the performance of virtue all played a role in shaping the Roman understanding of the nature of selfhood Culminating in a profoundly original reading of Medea The Mirror of the Self illustrates how Seneca in his Stoic quest for self knowledge embodies the Roman view marking a new point in human thought about self perception Bartsch leads readers on a journey that unveils divided selves moral hypocrisy and lustful Stoics and offers fresh insights about seminal works At once sexy and philosophical The Mirror of the Self will be required reading for classicists philosophers and anthropologists alike *The Power of WOW* Lori

Aesth-ethics Dror Pimentel,2025-02-07 The question of hospitality is the most pressing question in contemporary thought How can we host that which is utterly Other that which resists all conceptualization and thus disrupts the proper course of thought In the current book the discussion of hospitality is given a new conceptualization and extended to the field of aesthetics the event of hospitality does not occur in the face to face encounter with the other person as Emmanuel Levinas conceived of it but rather in the encounter with the work of art itself Writing about the event of hospitality as it is eventuated in art involves subverting the traditional precedence of theory over practice This subversion is also evident in the indifference to traditional distinctions such as those between poetry and visual art modern art and classical art international art and local art Moreover most of the artworks considered throughout are hybrid in character they are suspended in the space between the visual and the verbal whether they involve the verbal representation of a visual object as in Rilke s poem Archaic Torso of Apollo or a visual representation of a verbal object as in Anselm Kiefer s work Your Golden Hair Margarete The consideration of these and other works come together to give rise to a novel and original discourse on art that is termed Aesth ethics and which is presented for the first time in this volume **Towards a Psychophysiological Approach in**

Physical Activity, Exercise, and Sports, volume III Pedro Forte,Daniel Leite Portella,José Eduardo Teixeira,Diogo Monteiro,2025-01-06 In recent years there has been a growing recognition of the profound interconnection between mental health cognition and physiological responses in the context of physical activity exercise and sports This heightened awareness has prompted a paradigm shift towards embracing a holistic psychophysiological perspective in research within this field Volume III of this Research Topic delves deeper into the intricate relationship between psychological factors such as depression anxiety and motivation and their impact on physiological variables during physical activity exercise and sports performance Through a comprehensive exploration of this multidimensional interplay we aim to advance our understanding of how cognition education and psychological well being intersect with physiological responses By examining the nexus of mental health cognition and physiological variables we aim to shed light on the underlying mechanisms driving performance behaviour and overall well being in athletes and individuals engaged in physical activity We invite contributors to uncover new insights and pave the way for innovative approaches to enhancing performance promoting well being and addressing mental health challenges in the realm of physical activity exercise and sports *Latin American Women On/In Stages* Margo

Milleret,2012-02-16 While a feminine perspective has become more common on Latin American stages since the late 1960s few of the women dramatists who have contributed to this new viewpoint have received scholarly attention Latin American Women On In Stages examines twenty four plays written by women living in Argentina Brazil Chile Costa Rica Mexico Puerto Rico and Venezuela While all of the plays critique the restraints placed on being female several also offer alternatives that

emphasize a broader and healthier range of options Margo Milleret using an innovative comparative and thematic approach highlights similarities in the techniques and formats employed by female playwrights as they challenged both theatrical and social conventions She argues that these representations of women s lives are important for their creativity and their insights into both the personal and public worlds of Latin America
