Sentiment Of Reality:

The Sentiment of Reality Michael Bell, 2021-06-23 Originally published in 1983 The Sentiment of Reality covers the rise and decline of the realist novel from the mid eighteenth century to the mid twentieth century The book takes the form of an extended essay on two closely related themes in the history of the novel first the impact and aftermath of the eighteenth century cult of sentiment and secondly the supplanting of illusionism by an aesthetic of mimesis This forms the basis of an exploration of the emotional impact that fiction has on the reader Using this analysis the book defends the realist tradition against common contemporary criticism The Sentiment of Reality combines a close reading of key moments in European fiction with a wide ranging speculative treatment of historical and formal questions Gender Ideology and Psychological Reality Melford E. The Artist's Reality Mark Rothko, 2023-07-11 Mark Rothko's classic book on artistic practice ideals and philosophy now with an expanded introduction and an afterword by Makoto Fujimura

Stored in a New York City warehouse for many years after the artist's death this extraordinary manuscript by Mark Rothko 1903-1970 was published to great acclaim in 2004. Probably written in 1940 or 1941 it contains Rothko's ideas on the modern art world, art history, myth, beauty, the challenges of being an artist in society, the true nature of American art and much more. In his introduction, illustrated with examples of Rothko's work and pages from the manuscript, the artist's son Christopher Rothko describes the discovery of the manuscript and the fascinating process of its initial publication. This edition includes discussion of Rothko's *Scribble Book* 1932, his notes on teaching art to children which has received renewed scholarly attention in recent years and provides clues to the genesis of Rothko's thinking on pedagogy. In an afterword written for this edition, artist and author Makoto Fujimura reflects on how Rothko's writings offer a lifeboat for art world refugees and a model for upholding artistic ideals. He considers the transcendent capacity of Rothko's paintings to express pure ideas and the significance of the decade-long gap between *The Artist's Reality* and Rothko's mature paintings during which the horrors of the Holocaust and the atomic bomb were unleashed upon the world.

Shared Reality E. Tory Higgins, 2019-06-04 What does it mean to be human Why do we feel and behave in the ways that we do The classic answer is that we have a special kind of intelligence But to understand what we are as humans we also need to know what we are like motivationally And what is central to this story what is special about human motivation is that humans want to share with others their inner experiences about the world share how they feel what they believe and what they want to happen in the future They want to create a shared reality with others People have a shared reality together when they experience having in common a feeling about something a belief about something or a concern about something They feel connected to another person or group by knowing that this person or group sees the world the same way that they do they share what is real about the world In this work Dr Higgins describes how our human motivation for shared reality evolved in our species and how it develops in our children as shared feelings shared practices and shared goals and roles Shared reality is crucial to what we believe sharing is believing It is central to our sense of self what we strive for and how we strive It is basic to how we get along with others It brings us together in fellowship and companionship but it also tears us apart by creating in group bubbles that conflict with one another Our shared realities are the best of us and the worst of us
