the core of lived and thinking experience This book offers a return to psychoanalytic theory within moving image studies contributing to the recent works that have explored object relations psychoanalysis within visual culture specifically the writings of Klein and Winnicott but differs in its reference and examination of previously overlooked but highly pivotal thinkers such as Bion Bollas and Ogden A theorization of thinking as an affective structure within moving image experience provides a fresh avenue for psychoanalytic theory within visual culture Wilfred Bion Thinking and Emotional Experience with Moving Images will appeal to psychoanalysts and psychoanalytic psychotherapists as well as scholars and students of film and media studies cultural studies and cultural sociology and anthropology visual culture media theory philosophy and psychosocial studies
